COMMISSION OPINION

of 22 February 2005

on the applications for accession to the European Union by the Republic of Bulgaria and Romania

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty on European Union, and in particular Article 49 thereof,

Whereas:

(1) The Republic of Bulgaria and Romania have applied to become members of the European Union.

(2) In its opinions of 15 July 1997 on the Republic of Bulgaria and Romania, the Commission has already had an opportunity to express its views on certain essential aspects of the problems arising in connection with these applications.

(3) The European Council meeting in Copenhagen in June 1993 laid down for the first time the political, economic and acquis criteria for membership, that have guided the accession process and the Commission’s regular assessments of the readiness of the Republic of Bulgaria and Romania. The political criteria require the Republic of Bulgaria and Romania to ensure the stability of institutions guaranteeing democracy, the rule of law, human rights and the respect for and protection of minorities; these requirements are enshrined as constitutional principles in the Treaty on European Union and have been emphasised in the Charter of Fundamental Rights of the European Union. The economic criteria require the existence of a functioning market economy as well as the capacity to cope with competitive pressure and market forces within the Union. The acquis criterion refers to the ability to take on the obligations of membership arising from the Union’s legislation, the acquis communautaire, including adherence to the aims of political, economic and monetary union.

(4) The conditions and arrangements for admission of both States have been negotiated in Conferences between the Member States and the Republic of Bulgaria and Romania.

(5) In its Strategy Paper on progress in the enlargement process adopted on 6 October 2004, The Commission considered that the Republic of Bulgaria and Romania fulfilled the political criteria. Bearing in mind the progress achieved by both countries, and their track record in implementing their commitments, and taking into account their preparatory work in progress, it expected these countries to fulfil the economic and acquis criteria and to be ready for membership by 1 January 2007. On this basis, the Commission stated that it would make every effort in order to meet the European Council’s objective to bring the negotiations with the Republic of Bulgaria and Romania to a successful conclusion in 2004, on the basis of own merits, with a view to signing the Treaty of Accession as early as possible in 2005.

(6) These negotiations were completed in December 2004, and it is apparent that the provisions so agreed are fair and proper; this being so, the enlargement of the European Union, while preserving its internal cohesion and dynamism, will enable it to take a fuller part in the development of international relations.
(7) In joining the European Union, the Republic of Bulgaria and Romania accept, without reserve, the Treaty establishing a Constitution for Europe, and until its entry into force, the Treaty on European Union and the Treaties establishing the European Communities including all their objectives and all decisions taken since their entry into force, and the options taken in respect of the development and strengthening of those Communities and of the Union.

(8) It is an essential feature of the legal order introduced by the Treaties establishing the European Communities and, at its entry into force, the Treaty establishing a Constitution for Europe that certain of their provisions and certain acts adopted by the institutions are directly applicable, that the law of the Union takes precedence over any national provisions which might conflict with it, and that procedures exist for ensuring the uniform interpretation of the law of the Union; accession to the European Union implies recognition of the binding nature of these rules, observance of which is indispensable to guarantee the effectiveness and unity of the law of the Union.

(9) The Commission calls on the Republic of Bulgaria and Romania to pursue vigorously the improvements that still need to be made in the context of the political and economic criteria for membership and in relation to the adoption, implementation and enforcement of the acquis. The Commission will continue to closely monitor the implementation of the commitments and obligations taken on by both countries, and will assist them with the available instruments. Based on this continuous monitoring, the Commission reserves its rights, as set out in the Accession Treaty, in particular in Article 39 of the Accession Protocol, to present a proposal recommending to postpone accession by one year to 1 January 2008, should it consider that there is clear evidence that the state of preparations for adoption and implementation of the acquis in the Republic of Bulgaria or Romania is such that there is a serious risk of either of those States being manifestly unprepared to meet the requirements of membership by the date of accession of 1 January 2007 in a number of important areas, including specific commitments and requirements applicable to Romania in the areas of Justice and Home Affairs and Competition. As a result of this monitoring, the Commission also reserves its rights to invoke the various safeguard clauses foreseen in the Accession Treaty for both countries, as well as, the specific mechanism on State aid set out in the Accession Treaty for Romania in case this country does not fulfil its commitments related to its enforcement record in this field.

(10) The Commission calls on the Bulgarian and Romanian authorities to complete the translation and revision of the acquis before the date of accession in order to ensure legal certainty in the implementation of the legislation.

(11) One of the objectives of the European Union is to deepen the solidarity between its peoples while respecting their history, their culture and their traditions.

(12) Enlargement of the European Union through the accession of the Republic of Bulgaria and Romania will help to strengthen safeguards for peace and freedom in Europe.

HEREBY DELIVERS A FAVOURABLE OPINION:

on the accession to the European Union of the Republic of Bulgaria and Romania.

This opinion is addressed to the Council of the European Union.

Article 1

1. The Republic of Bulgaria and Romania hereby become members of the European Union.

2. The Republic of Bulgaria and Romania become Parties to the Treaty establishing a Constitution for Europe and to the Treaty establishing the European Atomic Energy Community as amended or supplemented.

3. The conditions and arrangements for admission are set out in the Protocol annexed to this Treaty. The provisions of that Protocol shall form an integral part of this Treaty.

4. The Protocol, including its Annexes and Appendices, shall be annexed to the Treaty establishing a Constitution for Europe and to the Treaty establishing the European Atomic Energy Community, and its provisions shall form an integral part of those Treaties.
Article 2

1. In the event that the Treaty establishing a Constitution for Europe is not in force on the date of accession, the Republic of Bulgaria and Romania become Parties to the Treaties on which the Union is founded, as amended or supplemented.

In such event Article 1(2) to (4) shall become applicable from the date of entry into force of the Treaty establishing a Constitution for Europe.

2. The conditions of admission and the adjustments to the Treaties on which the Union is founded, entailed by such admission, which will apply from the date of accession until the date of entry into force of the Treaty establishing a Constitution for Europe, are set out in the Act annexed to this Treaty. The provisions of that Act shall form an integral part of this Treaty.

3. In the event that the Treaty establishing a Constitution for Europe enters into force after accession, the Protocol referred to in Article 1(3) shall replace the Act referred to in Article 2(2) on the date of entry into force of the said Treaty. In such event, the provisions of the aforementioned Protocol shall not be considered as creating a new legal effect, but as preserving, under the conditions laid down in the Treaty establishing a Constitution for Europe, the Treaty establishing the European Atomic Energy Community and that Protocol, the legal effects which have already been created by the provisions of the Act referred to in Article 2(2).

Acts adopted prior to the entry into force of the Protocol referred to in Article 1(3) on the basis of this Treaty or the Act referred to in paragraph 2 shall remain in force and their legal effects shall be preserved until those acts are amended or repealed.

Article 3

The provisions concerning the rights and obligations of the Member States and the powers and jurisdiction of the institutions of the Union as set out in the Treaties to which the Republic of Bulgaria and Romania become Parties shall apply in respect of this Treaty.

Article 4

1. This Treaty shall be ratified by the High Contracting Parties in accordance with their respective constitutional requirements. The instruments of ratification shall be deposited with the Government of the Italian Republic by 31 December 2006 at the latest.

2. This Treaty shall enter into force on 1 January 2007 provided that all the instruments of ratification have been deposited before that date.

If, however, a State referred to in Article 1(1) has not deposited its instrument of ratification in due time, this Treaty shall enter into force for the other State which has deposited its instrument. In that case, the Council, acting unanimously, shall decide immediately upon such adjustments as have become indispensable to this Treaty, to Articles 10, 11(2), 12, 21(1), 22, 31, 34 and 46, Annex III, point 2(1)(b), 2(2) and 2(3) and Annex IV, section B, of the Protocol referred to in Article 1(3) and, as the case may be, to Articles 9 to 11, 14(3), 15, 24(1), 31, 34, 46 and 47, Annex III, point 2(1)(b), 2(2) and 2(3) and Annex IV, section B, of the Act referred to in Article 2(2); acting unanimously, it may also declare that those provisions of the aforementioned Protocol, including its Annexes and Appendices and, as the case may be, of the aforementioned Act, including its Annexes and Appendices, which refer expressly to a State which has not deposited its instrument of ratification have lapsed, or it may adjust them.

3. Notwithstanding the deposit of all necessary instruments of ratification in accordance with paragraph 1, this Treaty shall enter into force on 1 January 2008, if the Council adopts a decision concerning both acceding States under Article 39 of the Protocol referred to in Article 1(3), or under Article 39 of the Act referred to in Article 2(2) prior to the entry into force of the Treaty establishing a Constitution for Europe.

Notwithstanding the deposit of all necessary instruments of ratification in accordance with paragraph 1, this Treaty shall enter into force on 1 January 2008, if the Council adopts a decision concerning both acceding States under Article 39 of the Protocol referred to in Article 1(3), or under Article 39 of the Act referred to in Article 2(2) prior to the entry into force of the Treaty establishing a Constitution for Europe.

If such a decision is taken with respect to only one of the acceding States this Treaty shall enter into force for that State on 1 January 2008.

3. Notwithstanding paragraph 2, the institutions of the Union may adopt before accession the measures referred to in Articles 3(6), 6(2) second subparagraph, 6(4) second subparagraph, 6(7) second and third subparagraphs, 6(8) second subparagraph, 6(9) third subparagraph, 17, 19, 27(1) and (4), 28(4) and (5), 29, 30(3), 31(4), 32(5), 34(3) and (4), 37, 38, 39(4), 41, 42, 55, 56, 57 and Annexes IV to VIII of the Protocol referred to in Article 1(3), such measures shall be adopted under the equivalent provisions in Articles 3(6), 6(2) second subparagraph, 6(4) second subparagraph, 6(7) second and third subparagraphs, 6(8) second subparagraph, 6(9) third subparagraph, 20, 22, 27(1) and (4), 28(4) and (5), 29, 30(3), 31(4), 32(5), 34(3) and (4), 37, 38, 39(4), 41, 42, 55, 56, 57 and Annexes IV to VIII of the Act referred to in Article 2(2), prior to the entry into force of the Treaty establishing a Constitution for Europe.

These measures shall enter into force only subject to and on the date of the entry into force of this Treaty.
Article 5
The text of the Treaty establishing a Constitution for Europe drawn up in the Bulgarian and Romanian languages shall be annexed to this Treaty. Those texts shall be authentic under the same conditions as the texts of the Treaty establishing a Constitution for Europe drawn up in the Czech, Danish, Dutch, English, Estonian, Finnish, French, German, Greek, Hungarian, Irish, Italian, Latvian, Lithuanian, Maltese, Polish, Portuguese, Slovak, Slovenian, Spanish and Swedish languages.

The Government of the Italian Republic shall remit to the Governments of the Republic of Bulgaria and Romania a certified copy of the Treaty establishing a Constitution for Europe in all the languages referred to in the first paragraph.

Article 6
This Treaty, drawn up in a single original in the Bulgarian, Czech, Danish, Dutch, English, Estonian, Finnish, French, German, Greek, Hungarian, Irish, Italian, Latvian, Lithuanian, Maltese, Polish, Portuguese, Romanian, Slovak, Slovenian, Spanish and Swedish languages, the texts in each of these languages being equally authentic, shall be deposited in the archives of the Government of the Italian Republic, which will remit a certified copy to each of the Governments of the other Signatory States.

PROTOCOL

Concerning the conditions and arrangements for admission of the republic of Bulgaria and Romania to the European Union

THE HIGH CONTRACTING PARTIES,

CONSIDERING that the Republic of Bulgaria and Romania become members of the European Union on 1 January 2007;

CONSIDERING that Article I-58 of the Treaty establishing a Constitution for Europe provides that the conditions and arrangements for admission shall be the subject of an agreement between the Member States and the candidate State;

HAVE AGREED UPON the following provisions, which shall be annexed to the Treaty establishing a Constitution for Europe and to the Treaty establishing the European Atomic Energy Community:

PART ONE

PRINCIPLES

Article 1

1. For the purposes of this Protocol:

— the expression ‘Constitution’ means the Treaty establishing a Constitution for Europe;

— the expression ‘EAEC Treaty’ means the Treaty establishing the European Atomic Energy Community, as supplemented or amended by treaties or other acts which entered into force before accession;

— the expression ‘present Member States’ means the Kingdom of Belgium, the Czech Republic, the Kingdom of Denmark, the Federal Republic of Germany, the Republic of Estonia, the Hellenic Republic, the Kingdom of Spain, the French Republic, Ireland, the Italian Republic, the Republic of Cyprus, the Republic of Latvia, the Republic of Lithuania, the Grand Duchy of Luxembourg, the Republic of Hungary, the Republic of Malta, the Kingdom of the Netherlands, the Republic of Austria, the Republic of Poland, the Portuguese Republic, the Republic of Slovenia, the Slovak Republic, the Republic of Finland, the Kingdom of Sweden and the United Kingdom of Great Britain and Northern Ireland;

— the expression ‘new Member States’ means the Republic of Bulgaria and Romania;

— the expression ‘the institutions’ means the institutions established by the Constitution.

2. The references in this Protocol to the Constitution and to the Union shall, where appropriate, be taken as references, respectively, to the EAEC Treaty and to the Community established by the EAEC Treaty.

Article 2

From the date of accession, the provisions of the Constitution, the EAEC Treaty and the acts adopted by the institutions before accession shall be binding on Bulgaria and Romania and shall apply in those States under the conditions laid down in the Constitution, in the EAEC Treaty and in this Protocol.

Article 3

1. Bulgaria and Romania accede to the decisions and agreements adopted by the Representatives of the Governments of the Member States meeting within the Council.
2. Bulgaria and Romania are in the same situation as the present Member States in respect of declarations or resolutions of, or other positions taken up by, the European Council or the Council and in respect of those concerning the Union adopted by common agreement of the Member States; they will accordingly observe the principles and guidelines deriving from those declarations, resolutions or other positions and will take such measures as may be necessary to ensure their implementation.

3. Bulgaria and Romania accede to the conventions and protocols listed in Annex I. Those conventions and protocols shall enter into force in relation to Bulgaria and Romania on the date determined by the Council in the decisions referred to in paragraph 4.

4. The Council, acting unanimously on a recommendation by the Commission and after consulting the European Parliament, shall adopt European decisions making all adjustments required by reason of accession to the conventions and protocols referred to in paragraph 3 and publish the adapted text in the Official Journal of the European Union.

5. Bulgaria and Romania undertake in respect of the conventions and protocols listed in Annex I, Those conventions and protocols shall enter into force in relation to Bulgaria and Romania on the date determined by the Council in the decisions referred to in paragraph 4.

6. The Council, acting unanimously on a proposal from the Commission, may adopt European decisions supplementing Annex I with those conventions, agreements and protocols signed before the date of accession.

7. The particular instruments mentioned in this Article include those referred to in Article IV-438 of the Constitution.

Article 4

1. The provisions of the Schengen acquis, referred to in Protocol No 17 to the Constitution on the Schengen acquis integrated into the framework of the European Union, and the acts building upon it or otherwise related to it, listed in Annex I, as well as any further such acts adopted before the date of accession, shall be binding on and applicable in Bulgaria and Romania from the date of accession.

2. Those provisions of the Schengen acquis as integrated into the framework of the European Union and the acts building upon it or otherwise related to it, referred to in paragraph 1, while binding on Bulgaria and Romania from the date of accession, shall only apply in each of those States pursuant to a European decision of the Council to that effect after verification in accordance with the applicable Schengen evaluation procedures that the necessary conditions for the application of all parts of the acquis concerned have been met in that State.

The Council shall take its decision, after consulting the European Parliament, acting with the unanimity of its members representing the Governments of the Member States in respect of which the provisions referred to in this paragraph have already been put into effect and of the representative of the Government of the Member State in respect of which those provisions are to be put into effect. The members of the Council representing the Governments of Ireland and of the United Kingdom of Great Britain and Northern Ireland shall take part in such a decision insofar as it relates to the provisions of the Schengen acquis and the acts building upon it or otherwise related to it in which these Member States participate.

Article 5

Bulgaria and Romania shall participate in Economic and Monetary Union from the date of accession as Member States with a derogation within the meaning of Article III-197 of the Constitution.

Article 6

1. The agreements or conventions concluded or provisionally applied by the Union with one or more third States, with an international organisation or with a national of a third State, shall, under the conditions laid down in the Constitution and in this Protocol, be binding on Bulgaria and Romania.

2. Bulgaria and Romania undertake to accede, under the conditions laid down in this Protocol, to the agreements or conventions concluded or signed by the Union and the present Member States, acting jointly.

The accession of Bulgaria and Romania to the agreements or conventions concluded or signed by the Union and the present Member States acting jointly with particular third countries or international organisations shall be agreed by the conclusion of a protocol to such agreements or conventions between the Council, acting unanimously on behalf of the Member States, and the third country or countries or international organisation concerned. The Commission shall negotiate these protocols on behalf of the Member States on the basis of negotiating directives approved by the Council, acting unanimously, and in consultation with a committee comprised of the representatives of the Member States. It shall submit a draft of the protocols for conclusion to the Council.

This procedure is without prejudice to the exercise of the Union's own competences and does not affect the allocation of powers between the Union and the Member States as regards the conclusion of such agreements in the future or any other amendments not related to accession.

3. Upon acceding to the agreements and conventions referred to in paragraph 2 Bulgaria and Romania shall acquire the same rights and obligations under those agreements and conventions as the present Member States.

4. As from the date of accession, and pending the entry into force of the necessary protocols referred to in paragraph 2, Bulgaria and Romania shall apply the provisions of the agreements or conventions concluded jointly by the Union
and the present Member States before accession, with the exception of the agreement on the free movement of persons concluded with Switzerland. This obligation also applies to those agreements or conventions which the Union and the present Member States have agreed to apply provisionally.

Pending the entry into force of the protocols referred to in paragraph 2, the Union and the Member States, acting jointly as appropriate in the framework of their respective competences, shall take any appropriate measure.

6. Bulgaria and Romania undertake to accede, under the conditions laid down in this Protocol, to the Agreement on the European Economic Area (2), in accordance with Article 128 of that Agreement.

7. As from the date of accession, Bulgaria and Romania shall apply the bilateral textile agreements and arrangements concluded by the Union with third countries.

The quantitative restrictions applied by the Union on imports of textile and clothing products shall be adjusted to take account of the accession of Bulgaria and Romania to the Union. To that effect, amendments to the bilateral agreements and arrangements referred to above may be negotiated by the Union with the third countries concerned prior to the date of accession.

Should the amendments to the bilateral textile agreements and arrangements not have entered into force by the date of accession, the provisions of the first subparagraph shall apply.

9. Fisheries agreements concluded before accession by Bulgaria or Romania with third countries shall be managed by the Union.

The rights and obligations resulting for Bulgaria and Romania from those agreements shall not be affected during the period in which the provisions of those agreements are provisionally maintained.

As soon as possible, and in any event before the expiry of the agreements referred to in the first subparagraph, appropriate decisions for the continuation of fishing activities resulting from those agreements shall be adopted in each case by the Council on a proposal from the Commission, including the possibility of extending certain agreements for periods not exceeding one year.

10. With effect from the date of accession, Bulgaria and Romania shall withdraw from any free trade agreements with third countries, including the Central European Free Trade Agreement.

To the extent that agreements between Bulgaria, Romania or both those States on the one hand, and one or more third countries on the other, are not compatible with the obligations arising from this Protocol, Bulgaria and Romania shall take all appropriate steps to eliminate the incompatibilities established. If Bulgaria or Romania encounters difficulties in adjusting an agreement concluded with one or more third countries before accession, it shall, according to the terms of the agreement, withdraw from that agreement.

11. Bulgaria and Romania accede under the conditions laid down in this Protocol to the internal agreements concluded by the present Member States for the purpose of implementing the agreements or conventions referred to in paragraphs 2, 5 and 6.

12. Bulgaria and Romania shall take appropriate measures, where necessary, to adjust their position in relation to international organisations, and to those international agreements to which the Union or to which other Member States are also parties, to the rights and obligations arising from their accession to the Union.

They shall in particular withdraw at the date of accession or the earliest possible date thereafter from international fisheries agreements and organisations to which the Union is also a party, unless their membership relates to matters other than fisheries.

13. Where this Article refers to conventions and agreements concluded or signed by the Union, they include those referred to in Article IV-438 of the Constitution.

Article 7

A European law of the Council may repeal the transitional provisions set out in this Protocol, when they are no longer applicable. The Council shall act unanimously after consulting the European Parliament.

Article 8

1. Acts adopted by the institutions to which the transitional provisions laid down in this Protocol relate shall retain their status in law; in particular, the procedures for amending those acts shall continue to apply.

2. Provisions of this Protocol the purpose or effect of which is to repeal or amend acts adopted by the institutions, otherwise than as a transitional measure, shall have the same status in law as the provisions which they repeal or amend and shall be subject to the same rules as those provisions.

Article 9

Article 27

1. Tendering, contracting, implementation and payments for pre-accession assistance under the Phare programme (1), the Phare CBC programme (2) and for assistance under the Transition Facility referred to in Article 31 shall be managed by implementing agencies in Bulgaria and Romania as of the date of accession.

The ex-ante control by the Commission over tendering and contracting shall be waived by a Commission decision to that effect, following an accreditation procedure conducted by the Commission and a positively assessed Extended Decentralised Implementation System (EDIS) in accordance with the criteria and conditions laid down in the Annex to Council Regulation (EC) No 1266/1999 of 21 June 1999 on coordinating aid to border cooperation in the framework of the PHARE programme (3) and in Article 31 of the Financial Regulation applicable to the general budget of the European Communities (4).

If this Commission decision to waive ex-ante control has not been taken before the date of accession, any contracts signed between the date of accession and the date on which the Commission decision is taken shall not be eligible for pre-accession assistance.

However, exceptionally, if the Commission decision to waive ex-ante control is delayed beyond the date of accession for reasons not attributable to the authorities of Bulgaria or Romania, the Commission may accept, in duly justified cases, eligibility for pre-accession assistance of contracts signed

between the date of accession and the date of the Commission decision, and the continued implementation of pre-accession assistance for a limited period, subject to ex-ante control by the Commission over tendering and contracting.

2. Financial commitments made before accession under the pre-accession financial instruments referred to in paragraph 1 as well as those made under the Transition Facility referred to in Article 31 after accession, including the conclusion and registration of subsequent individual legal commitments and payments made after accession shall continue to be governed by the rules and regulations of the pre-accession financing instruments and be charged to the corresponding budget chapters until closure of the programmes and projects concerned. Notwithstanding this, public procurement procedures initiated after accession shall be carried out in accordance with the relevant Union provisions.

3. The last programming exercise for the pre-accession assistance referred to in paragraph 1 shall take place in the last year preceding accession. Actions under these programmes will have to be contracted within the following two years. No extensions shall be granted for the contracting period. Exceptionally and in duly justified cases, limited extensions in terms of duration may be granted for execution of contracts.

Notwithstanding this, pre-accession funds to cover administrative costs, as defined in paragraph 4, may be committed in the first two years after accession. For audit and evaluation costs, pre-accession funds may be committed up to five years after accession.

4. In order to ensure the necessary phasing out of the pre-accession financial instruments referred to in paragraph 1 and of the ISPA programme (5), the Commission may take all appropriate measures to ensure that the necessary statutory staff is maintained in Bulgaria and Romania for a maximum of nineteen months following accession. The administrative expenditure, including salaries for other staff necessary shall be covered by the heading Phasing-out of pre-accession assistance for new Member

States’ or equivalent under the appropriate policy area of the general budget of the European Union dealing with enlargement.

**Article 28**

Measures which on the date of accession have been the subject of decisions on assistance under Regulation (EC) No 1267/1999 establishing an Instrument for Structural Policies for Pre-accession and the implementation of which has not been completed by that date shall be considered to have been approved by the Commission under Council Regulation (EC) No 1164/94 of 16 May 1994 establishing a Cohesion Fund (1). Amounts which still have to be committed for the purpose of implementing such measures shall be committed under the Regulation relating to the Cohesion Fund in force at the date of accession and allocated to the chapter corresponding to that Regulation under the general budget of the European Union. Unless stated otherwise in paragraphs 2 to 5, the provisions governing the implementation of measures approved pursuant to the latter Regulation shall apply to those measures.

2. Any procurement procedure relating to a measure referred to in paragraph 1 which on the date of accession has already been the subject of an invitation to tender published in the Official Journal of the European Union shall be implemented in accordance with the rules laid down in that invitation to tender. However, the provisions contained in Article 165 of the Financial Regulation applicable to the general budget of the European Communities shall not apply. Any procurement procedure relating to a measure referred to in paragraph 1 which has not yet been the subject of an invitation to tender published in the Official Journal of the European Union shall be in keeping with the provisions of the Constitution, with the acts adopted pursuant thereto and with Union policies, including those concerning environmental protection, transport, trans-European networks, competition and the award of public contracts.

3. Payments made by the Commission under a measure referred to in paragraph 1 shall be posted to the earliest open commitment made in the first instance pursuant to Regulation (EC) No 1267/1999, and then pursuant to the Regulation relating to the Cohesion Fund then in force.

TITLE IV
OTHER PROVISIONS

Article 36
1. If, until the end of a period of up to three years after accession, difficulties arise which are serious and liable to persist in any sector of the economy or which could bring about serious deterioration in the economic situation of a given area, Bulgaria or Romania may apply for authorisation to take protective measures in order to rectify the situation and adjust the sector concerned to the economy of the internal market.

In the same circumstances, any present Member State may apply for authorisation to take protective measures with regard to Bulgaria, Romania, or both those States.

2. Upon request by the State concerned, the Commission shall, by emergency procedure, adopt the European regulations or decisions establishing the protective measures which it considers necessary, specifying the conditions and modalities under which they are to be put into effect.

In the event of serious economic difficulties and at the express request of the Member State concerned, the Commission shall act within five working days of the receipt of the request accompanied by the relevant background information. The measures thus decided on shall be applicable forthwith, shall take account of the interest of all parties concerned and shall not entail frontier controls.

3. The measures authorised under paragraph 2 may involve derogations from the rules of the Constitution and in particular from this Protocol to such an extent and for such periods as are strictly necessary in order to attain the objectives referred to in paragraph 1. Priority shall be given to such measures as will least disturb the functioning of the internal market.

Article 37
If Bulgaria or Romania has failed to implement commitments undertaken in the context of the accession negotiations, causing a serious breach of the functioning of the internal
market, including any commitments in all sectoral policies which concern economic activities with cross-border effect, or an imminent risk of such breach the Commission may, until the end of a period of up to three years after accession, upon the motivated request of a Member State or on its own initiative, adopt European regulations or decisions establishing appropriate measures.

Measures shall be proportional and priority shall be given to measures which least disturb the functioning of the internal market and, where appropriate, to the application of the existing sectoral safeguard mechanisms. Such safeguard measures shall not be invoked as a means of arbitrary discrimination or a disguised restriction on trade between Member States. The safeguard clause may be invoked even before accession on the basis of the monitoring findings and the measures adopted shall enter into force as of the first day of accession unless they provide for a later date. The measures shall be maintained no longer than strictly necessary and, in any case, shall be lifted when the relevant commitment is implemented. They may however be applied beyond the period specified in the first paragraph as long as the relevant commitments have not been fulfilled. In response to progress made by the new Member State concerned in fulfilling its commitments, the Commission may adapt the measures as appropriate. The Commission shall inform the Council in good time before revoking the European regulations and decisions establishing the safeguard measures, and it shall take duly into account any observations of the Council in this respect.

Article 38

If there are serious shortcomings or any imminent risks of such shortcomings in Bulgaria or Romania in the transposition, state of implementation, or the application of the framework decisions or any other relevant commitments, instruments of cooperation and decisions relating to mutual recognition in the area of criminal law under Title VI of the Treaty on European Union and Directives and Regulations relating to mutual recognition in civil matters under Title IV of the Treaty establishing the European Community, and European laws and framework laws adopted on the basis of Sections 3 and 4 of Chapter IV of Title III of Part III of the Constitution, the Commission may, until the end of a period of up to three years after accession, upon the motivated request of a Member State or on its own initiative and after consulting the Member States, adopt European regulations or decisions establishing appropriate measures and specify the conditions and modalities under which these measures are put into effect.

These measures may take the form of temporary suspension of the application of relevant provisions and decisions in the relations between Bulgaria or Romania and any other Member State or Member States, without prejudice to the continuation of close judicial cooperation. The safeguard clause may be invoked even before accession on the basis of the monitoring findings and the measures adopted shall enter into force as of the first day of accession unless they provide for a later date. The measures shall be maintained no longer than strictly necessary and, in any case, shall be lifted when the shortcomings are remedied. They may however be applied beyond the period specified in the first paragraph as long as these shortcomings persist. In response to progress made by the new Member State concerned in rectifying the identified shortcomings, the Commission may adapt the measures as appropriate after consulting the Member States. The Commission shall inform the Council in good time before revoking the European regulations and decisions establishing the safeguard measures, and it shall take duly into account any observations of the Council in this respect.

Article 39

1. If, on the basis of the Commission's continuous monitoring of commitments undertaken by Bulgaria and Romania in the context of the accession negotiations and in particular the Commission's monitoring reports, there is clear evidence that the state of preparations for adoption and implementation of the acquis in Bulgaria or Romania is such that there is a serious risk of either of those States being manifestly unprepared to meet the requirements of membership by the date of accession of 1 January 2007 in a number of important areas, the Council may, acting unanimously on the basis of a Commission recommendation, decide that the date of accession of that State is postponed by one year to 1 January 2008.

2. Notwithstanding paragraph 1, the Council may, acting by qualified majority on the basis of a Commission recommendation, take the decision mentioned in paragraph 1 with respect to Romania if serious shortcomings have been observed in the fulfilment by Romania of one or more of the commitments and requirements listed in Annex IX, point I.

3. Notwithstanding paragraph 1, and without prejudice to Article 37, the Council may, acting by qualified majority on the basis of a Commission recommendation and after a detailed assessment to be made in the autumn of 2005 of the progress made by Romania in the area of competition policy, take the decision mentioned in paragraph 1 with respect to Romania if serious shortcomings have been observed in the fulfilment by Romania of the obligations undertaken under the Europe Agreement (1) or of one or more of the commitments and requirements listed in Annex IX, point I.

4. In the event of a decision taken under paragraph 1, 2 or 3, the Council shall, acting by qualified majority decide immediately upon such adjustments to this Protocol, including its Annexes and Appendices, as have become indispensable by reason of the postponement decision.

Article 40

In order not to hamper the proper functioning of the internal market, the enforcement of Bulgaria's and Romania's national rules during the transitional periods referred to in Annexes VI and VII shall not lead to border controls between Member States.

Article 41

If transitional measures are necessary to facilitate the transition from the existing regime in Bulgaria and Romania to that resulting from the application of the common agricultural policy under the conditions set out in this Protocol, such measures shall be adopted by the Commission in accordance with the procedure referred to in Article 25(2) of Council Regulation (EC) No 1784/2003 of 29 September 2003 on the common organisation of the market in cereals (1) or, as appropriate, in the corresponding Articles of the other Regulations on the common organisation of agricultural markets or of the European laws replacing them or the relevant procedure as determined in the applicable legislation. The transitional measures referred to in this Article may be adopted during a period of three years following the date of accession and their application shall be limited to that period. A European law of the Council may extend this period. The Council shall act unanimously after consulting the European Parliament.

The transitional measures relating to implementation of the instruments concerning the common agricultural policy not specified in this Protocol which are required as a result of accession shall be established prior to the date of accession by European regulations or decisions adopted by the Council on a proposal from the Commission or, where they affect instruments initially adopted by the Commission, by European regulations or decisions adopted by the Commission in accordance with the procedure required for adopting the instruments in question.

Article 42

If transitional measures are necessary to facilitate the transition from the existing regime in Bulgaria and Romania to that resulting from the application of the Union veterinary, phytosanitary and food safety rules, such measures shall be adopted by the Commission in accordance with the relevant procedure as determined in the applicable legislation. These measures shall be taken during a period of three years following the date of accession and their application shall be limited to that period.

ANNEX V

List referred to in Article 18 of the Protocol: other permanent provisions

1. COMPANY LAW

Treaty establishing a Constitution for Europe, Part III, Title III, Chapter I, Section 3, Free movement of goods

SPECIFIC MECHANISM

With regard to Bulgaria or Romania, the holder, or his beneficiary, of a patent or supplementary protection certificate for a pharmaceutical product filed in a Member State at a time when such protection could not be obtained in one of the abovementioned new Member States for that product, may rely on the rights granted by that patent or supplementary protection certificate in order to prevent the import and marketing of that product in the Member State or States where the product in question enjoys patent protection or supplementary protection, even if the product was put on the market in that new Member State for the first time by him or with his consent.

Any person intending to import or market a pharmaceutical product covered by the above paragraph in a Member State where the product enjoys patent or supplementary protection shall demonstrate to the competent authorities in the application regarding that import that one month's prior notification has been given to the holder or beneficiary of such protection.

2. COMPETITION POLICY

Treaty establishing a Constitution for Europe, Part III, Title III, Chapter I, Section 5, Rules on competition

1. The following aid schemes and individual aid put into effect in a new Member State before the date of accession and still applicable after that date shall be regarded upon accession as existing aid within the meaning of Article III-168(1) of the Constitution:

(a) aid measures put into effect before 10 December 1994;

(b) aid measures listed in the Appendix to this Annex;

(c) aid measures which prior to the date of accession were assessed by the State aid monitoring authority of the new Member State and found to be compatible with the acquis, and to which the Commission did not raise an objection on the ground of serious doubts as to the compatibility of the measure with the common market, pursuant to the procedure set out in paragraph 2.

All measures still applicable after the date of accession which constitute State aid and which do not fulfil the conditions set out above shall be considered as new aid upon accession for the purpose of the application of Article III-168(3) of the Constitution.
The above provisions do not apply to aid to the transport sector, nor to activities linked to the production, processing or marketing of products listed in Annex I to the Constitution with the exception of fisheries products and products derived thereof.

The above provisions shall also be without prejudice to the transitional measures regarding Competition Policy set out in the Protocol and the measures laid down in Annex VII, Chapter 4, Section B, to the Protocol.

2. To the extent that a new Member State wishes the Commission to examine an aid measure under the procedure described in paragraph 1(c), it shall provide the Commission regularly with:

(a) a list of existing aid measures which have been assessed by the national State aid monitoring authority and which that authority has found to be compatible with the acquis; and

(b) any other information which is essential for the assessment of the compatibility of the aid measure to be examined,

in accordance with the concrete reporting format provided by the Commission.

If the Commission does not object to the existing aid measure on the ground of serious doubts as to the compatibility of the measure with the common market, within 3 months of receipt of complete information on that measure or of receipt of the statement of the new Member State in which it informs the Commission that it considers the information provided to be complete because the additional information requested is not available or has been already provided, the Commission shall be deemed not to have raised an objection.

All aid measures submitted under the procedure described in paragraph 1(c) prior to the date of accession to the Commission are subject to the above procedure irrespective of the fact that in the period of examination the new Member State concerned has already become member of the Union.

3. A Commission decision to object to a measure, within the meaning of paragraph 1(c), shall be regarded as a decision to initiate the formal investigation procedure within the meaning of Council Regulation (EC) No 659/1999 of 22 March 1999 laying down detailed rules for the application of Article 93 of the EC Treaty (1). If such a decision is taken before the date of accession, the decision will only come into effect upon the date of accession.

4. Without prejudice to the procedures concerning existing aid provided for in Article III-168 of the Constitution, aid schemes and individual aid granted in the transport sector, put into effect in a new Member State before the date of accession and still applicable after that date, shall be regarded as existing aid within the meaning of Article III-168(1) of the Constitution subject to the following condition:

— the aid measures shall be communicated to the Commission within four months of the date of accession. This communication shall include information on the legal basis for each measure. Existing aid measures and plans to grant or alter aids communicated to the Commission prior to the date of accession shall be deemed to have been communicated on the date of accession.

These aid measures shall be regarded as ‘existing’ aid within the meaning of Article III-168(1) of the Constitution until the end of third year from the date of accession.

The new Member States shall, where necessary, amend these aid measures in order to comply with the guidelines applied by the Commission by the end of the third year from the date of accession at the latest. After that date, any aid found to be incompatible with those guidelines shall be considered as new aid.

5. With regard to Romania, paragraph 1(c) shall only apply to aid measures assessed by the Romanian State aid monitoring authority after such date, decided upon by the Commission on the basis of continuous monitoring of the commitments undertaken by Romania in the context of the accession negotiations, that Romania’s State aid enforcement record in the period prior to accession has reached a satisfactory level. Such a satisfactory level shall only be considered to have been reached once Romania has demonstrated the consistent application of full and proper State aid control in relation to all aid measures granted in Romania, including the adoption and the implementation of fully and correctly reasoned decisions by the Romanian State aid monitoring authority containing an accurate assessment of the State aid nature of each measure and a correct application of the compatibility criteria.

The Commission may object, on the ground of serious doubts as to the compatibility with the common market, to any aid measure granted in the pre-accession period between 1 September 2004 and the date fixed in the above Commission decision finding that the enforcement record has reached a satisfactory level. Such a Commission decision to object to a measure shall be regarded as a decision to initiate the formal investigation procedure within the meaning of Regulation (EC) No 659/1999. If such a decision is taken before the date of accession, the decision will only come into effect upon the date of accession.

Where the Commission adopts a negative decision following the initiation of the formal investigation procedure, the Commission shall decide that Romania shall take all necessary measures to effectively recover the aid from the beneficiary. The aid to be recovered shall include interest at an appropriate rate determined in accordance with Regulation (EC) No 794/2004 (1), and payable from the same date.

3. AGRICULTURE

(a) Treaty establishing a Constitution for Europe, Part III, Title III, Chapter III, Section 4, Agriculture and fisheries

1. Public stocks held at the date of accession by the new Member States and resulting from their market-support policy shall be taken over by the Community at the value resulting from the application of Article 8 of Council Regulation (EEC) No 1883/78 of 2 August 1978 laying down general rules for the financing of interventions by the European Agricultural Guidance and Guarantee Fund, Guarantee Section (2). The said stocks shall be taken over only on condition that public intervention for the products in question is operated in the Community and that the stocks meet the Community intervention requirements.

2. Any stock of product, private as well as public, in free circulation at the date of accession within the territory of the new Member States exceeding the quantity which could be regarded as constituting a normal carryover of stock must be eliminated at the expense of the new Member States.

The concept of normal carryover stock shall be defined for each product on the basis of criteria and objectives specific to each common market organisation.

3. The stocks referred to in paragraph 1 shall be deducted from the quantity exceeding the normal carryover of stocks.

4. The Commission shall implement and apply the arrangements outlined above in accordance with the procedure laid down in Article 13 of Council Regulation (EC) No 1258/1999 of 17 May 1999 on the financing of the common agricultural policy (1) or, as appropriate, in accordance with the procedure referred to in Article 42(2) of Council Regulation (EC) No 1260/2001 of 30 June 2001 on the common organisation of the markets in the sugar sector (2), or in the corresponding Articles of the other Regulations on the common organisation of agricultural markets or the relevant committee procedure as determined in the applicable legislation.

(b) Treaty establishing a Constitution for Europe, Part III, Title III, Chapter I, Section 5, Rules on competition

Without prejudice to the procedures concerning existing aid provided for in Article III-168 of the Constitution, aid schemes and individual aid granted to activities linked to the production, processing or marketing of products listed in Annex I to the Constitution, with the exception of fisheries products and products derived therefrom, put into effect in a new Member State before the date of accession and still applicable after that date, shall be regarded as existing aid within the meaning of Article III-168(1) of the Constitution, subject to the following condition:

— the aid measures shall be communicated to the Commission within four months of the date of accession. This communication shall include information on the legal basis for each measure. Existing aid measures and plans to grant or alter aids communicated to the Commission prior to the date of accession shall be deemed to have been communicated on the date of accession. The Commission shall publish a list of such aids.

These aid measures shall be regarded as ‘existing’ aid within the meaning of Article III-168(1) of the Constitution until the end of third year from the date of accession.

The new Member States shall, where necessary, amend these aid measures in order to comply with the guidelines applied by the Commission by the end of the third year from the date of accession at the latest. After that date, any aid found to be incompatible with those guidelines shall be considered as new aid.

4. CUSTOMS UNION

Treaty establishing a Constitution for Europe, Part III, Title III, Chapter I, Section 3, Free movement of goods, Subsection 1, Customs Union

— 12003 T: Act concerning the conditions of accession and the adjustments to the Treaties — Accession of the Czech Republic, the Republic of Estonia, the Republic of Cyprus, the Republic of Latvia, the Republic of Lithuania, the Republic of Hungary, the Republic of Malta, the Republic of Poland, the Republic of Slovenia and the Slovak Republic (OJ L 236, 23.9.2003, p. 33);

Regulation (EEC) No 2913/92 and Regulation (EEC) No 2454/93 shall apply to the new Member States subject to the following specific provisions:

PROOF OF COMMUNITY STATUS (TRADE WITHIN THE ENLARGED COMMUNITY)

1. Notwithstanding Article 20 of Regulation (EEC) No 2913/92, goods which on the date of accession are in temporary storage or under one of the customs treatments and procedures referred to in Article 4(15)(b) and (16)(b) to (g) of that Regulation in the enlarged Community, or which are in transport after having been the subject of export formalities within the enlarged Community, shall be free of customs duties and other customs measures when declared for release for free circulation within the enlarged Community on condition that one of the following is presented:

(a) proof of preferential origin properly issued or made out prior to the date of accession under one of the Europe Agreements listed below or the equivalent preferential agreements concluded between the new Member States themselves, and which contains a prohibition of drawback of, or exemption from, customs duties on non-originating materials used in the manufacture of the products for which a proof of origin is issued or made out (‘no-drawback’ rule);

The Europe Agreements:

— 21994 A 1231 (24) Bulgaria: Europe Agreement establishing an association between the European Communities and their Member States, of the one part, and the Republic of Bulgaria, of the other part — Protocol 4 concerning the definition of the concept of ‘originating products’ and methods of administrative cooperation (1);

— 21994 A 1231 (20) Romania: Europe Agreement establishing an association between the European Communities and their Member States, of the one part, and Romania, of the other part — Protocol 4 concerning the definition of the concept of ‘originating products’ and methods of administrative cooperation (2).

(b) any of the means of proof of Community status referred to in Article 314c of Regulation (EEC) No 2454/93;

(c) an ATA carnet issued before the date of accession in a present Member State or in a new Member State.

2. For the purpose of issuing the proofs referred to in paragraph 1(b) above, with reference to the situation at the date of accession and in addition to the provisions of Article 4(7) of Regulation (EEC) No 2913/92, ‘Community goods’ shall mean goods:

— wholly obtained in the territory of any of the new Member States under conditions identical to those of Article 23 of Regulation (EEC) No 2913/92 and not incorporating goods imported from other countries or territories; or

— imported from countries or territories other than the country concerned, and released for free circulation in that country; or

— obtained or produced in the country concerned, either from goods referred to in the second indent of this paragraph alone or from goods referred to in the first and second indent of this paragraph.

3. For the purpose of verifying the proofs referred to in paragraph 1(a) above, the provisions concerning the definition of the concept of ‘originating products’ and methods of administrative cooperation under the respective Europe Agreements or the equivalent preferential agreements concluded between the new Member States themselves shall apply. Requests for subsequent verification of those proofs shall be accepted by the competent customs authorities of the present Member States and of the new Member States for a period of three years after the issue of the proof of origin concerned and may be made by those authorities for a period of three years after acceptance of the proof of origin in support of a declaration of free circulation.

PROOF OF PREFERENTIAL ORIGIN (TRADE WITH THIRD COUNTRIES, INCLUDING TURKEY, IN THE FRAMEWORK OF THE PREFERENTIAL AGREEMENTS ON AGRICULTURE, COAL AND STEEL PRODUCTS)

4. Without prejudice to the application of any measure deriving from the common commercial policy, proof of origin properly issued by third countries or made out in the framework of preferential agreements concluded by the new Member States with those countries or issued or made out in the framework of unilateral national legislation of the new Member States shall be accepted in the respective new Member States, provided that:

(a) the acquisition of such origin confers preferential tariff treatment on the basis of the preferential tariff measures contained in agreements or arrangements which the Community has concluded with, or adopted in respect of those third countries or groups of countries, as referred to in Article 20(3)(d) and (e) of Regulation (EEC) No 2913/92; and

(b) the proof of origin and the transport documents were issued or made out no later than the day before the date of accession; and

(c) the proof of origin is submitted to the customs authorities within the period of four months from the date of accession.

Where goods were declared for release for free circulation in a new Member State prior to the date of accession, proof of origin issued or made out retrospectively under preferential agreements or arrangements in force in that new Member State at the date of the release for free circulation may also be accepted in the new Member State concerned, provided that it is submitted to the customs authorities within the period of four months from the date of accession.

5. Bulgaria and Romania are authorised to retain the authorisations with which the status of ‘approved exporters’ has been granted in the framework of agreements concluded with third countries, provided that:

(a) such a provision is also provided for in the agreements concluded prior to the date of accession by those third countries with the Community; and

(b) the approved exporters apply the rules of origin provided for in those agreements.

These authorisations shall be replaced by the new Member States, no later than one year after the date of accession, by new authorisations issued under the conditions of Community legislation.

6. For the purpose of verifying the proofs referred to in paragraph 4, the provisions concerning the definition of the concept of ‘originating products’ and methods of administrative cooperation of the relevant agreements or arrangements shall apply. Requests for subsequent verification of those proofs shall be accepted by the competent customs authorities of the present Member States and of the new Member States for a period of three years after the issue of the proof of origin concerned and may be made by those authorities for a period of three years after acceptance of the proof of origin in support of a declaration of free circulation.
7. Without prejudice to the application of any measure deriving from the common commercial policy, proof of origin issued retrospectively by third countries in the framework of preferential agreements concluded by the Community with those countries shall be accepted in the new Member States for the release for free circulation of goods which on the date of accession are either en route or in temporary storage, in a customs warehouse or in a free zone in one of these third countries or in that new Member State, provided that the new Member State where the release for free circulation takes place had no free trade agreement in force with the third country, for the products concerned, at the moment when the transport documents were issued, and provided that:

(a) the acquisition of such origin confers preferential tariff treatment on the basis of the preferential tariff measures contained in agreements or arrangements which the Community has concluded with, or adopted in respect of third countries or groups of countries, as referred to in Article 20(3)(d) and (e) of Regulation (EEC) No 2913/92; and

(b) the transport documents were issued no later than the day before the date of accession; and

(c) the proof of origin issued retrospectively is submitted to the customs authorities within four months of the date of accession.

8. For the purpose of verifying the proofs referred to in paragraph 7, the provisions concerning the definition of the concept of ‘originating products’ and methods of administrative cooperation of the relevant agreements or arrangements shall apply.

PROOF OF STATUS UNDER THE PROVISIONS ON FREE CIRCULATION FOR INDUSTRIAL PRODUCTS WITHIN THE EC-TURKEY CUSTOMS UNION

9. Proofs of origin properly issued by either Turkey or a new Member State in the framework of preferential trade agreements applied between them and allowing with the Community a cumulation of origin based on identical rules of origin and a prohibition of any drawback or suspension from customs duties on the goods concerned, shall be accepted in the respective countries as a proof of status under the provisions on free circulation for industrial products, laid down in Decision No 1/95 of the EC-Turkey Association Council (1), provided that:

(a) the proof of origin and the transport documents were issued no later than the day before the date of accession; and

(b) the proof of origin is submitted to the customs authorities within the period of four months from the date of accession.

Where goods were declared for release for free circulation in either Turkey or a new Member State, prior to the date of accession, in the framework of preferential trade agreements mentioned above, proof of origin issued retrospectively under those agreements may also be accepted provided that it is submitted to the customs authorities within the period of four months from the date of accession.

10. For the purpose of verifying the proofs referred to in paragraph 9, the provisions concerning the definition of the concept of ‘originating products’ and methods of administrative cooperation of the relevant preferential agreements shall apply. Requests for subsequent verification of those proofs shall be accepted by the competent customs authorities of the present Member States and of the new Member States for a period of three years after the issue of the proof of origin concerned and may be made by those authorities for a period of three years after acceptance of the proof of origin in support of a declaration of free circulation.

---

11. Without prejudice to the application of any measure deriving from the common commercial policy, an A.TR movement certificate issued under the provisions on free circulation for industrial products, laid down in Decision No 1/95 of the EC-Turkey Association Council, shall be accepted in the new Member States for the release for free circulation of goods which on the date of accession are either in transport after having been the subject of export formalities within the Community or Turkey or are in temporary storage or under a customs procedure referred to in Article 4(16)(b) to (h) of Regulation (EEC) No 2913/92 in Turkey or in that new Member State, provided that:

(a) no proof of origin as referred to in paragraph 9 is submitted for the goods concerned; and

(b) the goods comply with the conditions for the implementation of the provisions on free circulation for industrial products; and

(c) the transport documents were issued no later than the day before the date of accession; and

(d) the A.TR movement certificate is submitted to the customs authorities within four months of the date of accession.

12. For the purpose of verifying the A.TR movement certificates referred to in paragraph 11 above, the provisions concerning the issue of A.TR movement certificates and methods of administrative cooperation under Decision No 1/2001 of the EC-Turkey Customs Cooperation Committee (1) shall apply.

CUSTOMS PROCEDURES

13. Temporary storage and customs procedures referred to in Article 4(16) (b) to (h) of Regulation (EEC) No 2913/92 which have begun before accession shall be ended or discharged under the conditions of Community legislation.

Where the end or discharge gives rise to a customs debt, the amount of import duty to be paid shall be that in force at the time when the customs debt is incurred in accordance with the Common Customs Tariff and the amount paid shall be considered as own resources of the Community.

14. The procedures governing customs warehousing laid down in Articles 84 to 90 and 98 to 113 of Regulation (EEC) No 2913/92 and Articles 496 to 535 of Regulation (EEC) No 2454/93 shall apply to the new Member States subject to the following specific provisions:

— where the amount of a customs debt is determined on the basis of the nature of the import goods, the value for customs purposes and the quantity of the import goods at the time of acceptance of the declaration of their placing under customs warehousing and that declaration was accepted prior to the date of accession, these elements shall result from the legislation applicable before the date of accession in the new Member State concerned.

classification, the quantity, the value for customs purposes and the origin of the import goods at the time they
were placed under the procedure and where the declaration placing the goods under the procedure was accepted
prior to the date of accession, these elements shall result from the legislation applicable before the date of

— where the discharge gives rise to a customs debt, in order to maintain the equity between the holders of
authorisations established in the present Member States and those in the new Member States, compensatory
interest shall be paid on the import duties due under the conditions of Community legislation from the date of
accession;

— if the declaration for inward processing was accepted under a drawback system, the drawback shall be effected

Member States subject to the following specific provisions:

— where the amount of a customs debt is determined on the basis of the nature of the import goods, their tariff
classification, the quantity, the value for customs purposes and the origin of the import goods at the time they

ANNEX VI

List referred to in Article 20 of the Protocol: transitional measures, Bulgaria

1. **FREEDOM OF MOVEMENT FOR PERSONS**

   **Treaty establishing a Constitution for Europe**

   1. Article III-133 and the first paragraph of Article III-144 of the Constitution shall fully apply only, in relation to the freedom of movement of workers and the freedom to provide services involving temporary movement of workers as defined in Article 1 of Directive 96/71/EC between Bulgaria on the one hand, and each of the present Member States on the other hand, subject to the transitional provisions laid down in paragraphs 2 to 14.

   2. By way of derogation from Articles 1 to 6 of Regulation (EEC) No 1612/68 and until the end of the two year period following the date of accession, the present Member States will apply national measures, or those resulting from bilateral agreements, regulating access to their labour markets by Bulgarian nationals. The present Member States may continue to apply such measures until the end of the five year period following the date of accession.

   Bulgarian nationals legally working in a present Member State at the date of accession and admitted to the labour market of that Member State for an uninterrupted period of 12 months or longer will enjoy access to the labour market of that Member State but not to the labour market of other Member States applying national measures.

   Bulgarian nationals admitted to the labour market of a present Member State following accession for an uninterrupted period of 12 months or longer shall also enjoy the same rights.

   The Bulgarian nationals mentioned in the second and third subparagraphs above shall cease to enjoy the rights contained in those subparagraphs if they voluntarily leave the labour market of the present Member State in question.

   Bulgarian nationals legally working in a present Member State at the date of accession, or during a period when national measures are applied, and who were admitted to the labour market of that Member State for a period of less than 12 months shall not enjoy these rights.
3. Before the end of the two year period following the date of accession, the Council shall review the functioning of the transitional provisions laid down in paragraph 2, on the basis of a report from the Commission.

On completion of this review, and no later than at the end of the two year period following the date of accession, the present Member States shall notify the Commission whether they will continue applying national measures or measures resulting from bilateral agreements, or whether they will apply Articles 1 to 6 of Regulation (EEC) No 1612/68 henceforth. In the absence of such notification, Articles 1 to 6 of Regulation (EEC) No 1612/68 shall apply.

4. Upon the request of Bulgaria, one further review may be held. The procedure referred to in paragraph 3 shall apply and shall be completed within six months of receipt of the request from Bulgaria.

5. A Member State maintaining national measures or measures resulting from bilateral agreements at the end of the five year period indicated in paragraph 2 may, in case of serious disturbances of its labour market or threat thereof and after notifying the Commission, continue to apply these measures until the end of the seven year period following the date of accession. In the absence of such notification, Articles 1 to 6 of Regulation (EEC) No 1612/68 shall apply.

6. During the seven year period following the date of accession, those Member States in which, by virtue of paragraphs 3, 4 or 5, Articles 1 to 6 of Regulation (EEC) No 1612/68 apply as regards Bulgarian nationals, and which are issuing work permits to nationals of Bulgaria for monitoring purposes during this period, will do so automatically.

7. Those Member States in which, by virtue of paragraphs 3, 4 or 5, Articles 1 to 6 of Regulation (EEC) No 1612/68 apply as regards Bulgarian nationals, may resort to the procedures set out in the subparagraphs below until the end of the seven year period following the date of accession.

When a Member State referred to in the first subparagraph undergoes or foresees disturbances on its labour market which could seriously threaten the standard of living or level of employment in a given region or occupation, that Member State shall inform the Commission and the other Member States thereof and shall supply them with all relevant particulars. On the basis of this information, the Member State may request the Commission to state that the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 be wholly or partially suspended in order to restore to normal the situation in that region or occupation. The Commission shall decide on the suspension and on the duration and scope thereof not later than two weeks after receiving such a request and shall notify the Council of such a decision. Any Member State may, within two weeks from the date of the Commission's Decision, request the Council to annul or amend the Decision. The Council shall act on such a request within two weeks, by qualified majority.

A Member State referred to in the first subparagraph may, in urgent and exceptional cases, suspend the application of Articles 1 to 6 of Regulation (EEC) No 1612/68, followed by a reasoned ex-post notification to the Commission.

8. As long as the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 is suspended by virtue of paragraphs 2 to 5 and 7 above, Article 23 of Directive 2004/38/EC shall apply in Bulgaria with regard to nationals of the present Member States, and in the present Member States with regard to Bulgarian nationals, under the following conditions, so far as the right of family members of workers to take up employment is concerned:

— the spouse of a worker and their descendants who are under 21 years of age or are dependants, legally residing with the worker in the territory of a Member State at the date of accession, shall have, upon accession, immediate access to the labour market of that Member State. This does not apply to family members of a worker legally admitted to the labour market of that Member State for a period of less than 12 months;

— the spouse of a worker and their descendants who are under 21 years of age or are dependants, legally residing with the worker in the territory of a Member State from a date later than the date of accession, but during the period of application of the transitional provisions laid down above, shall have access to the labour market of the Member State concerned once they have been resident in the Member State concerned for at least eighteen months or from the third year following the date of accession, whichever is the earlier.
These provisions shall be without prejudice to more favourable measures whether national or resulting from bilateral agreements.

9. Insofar as provisions of Directive 2004/38/EC which take over provisions of Directive 68/360/EEC (1) may not be dissociated from those of Regulation (EEC) No 1612/68 whose application is deferred pursuant to paragraphs 2 to 5 and 7 and 8, Bulgaria and the present Member States may derogate from those provisions to the extent necessary for the application of paragraphs 2 to 5 and 7 and 8.

10. Whenever national measures, or those resulting from bilateral agreements, are applied by the present Member States by virtue of the transitional provisions laid down above, Bulgaria may maintain in force equivalent measures with regard to the nationals of the Member State or States in question.

11. If the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 is suspended by any of the present Member States, Bulgaria may resort to the procedures laid down in paragraph 7 with respect to Romania. During any such period work permits issued by Bulgaria for monitoring purposes to nationals of Romania shall be issued automatically.

12. Any present Member State applying national measures in accordance with paragraphs 2 to 5 and 7 to 9, may introduce, under national law, greater freedom of movement than that existing at the date of accession, including full labour market access. From the third year following the date of accession, any present Member State applying national measures may at any time decide to apply Articles 1 to 6 of Regulation (EEC) No 1612/68 instead. The Commission shall be informed of any such decision.

13. In order to address serious disturbances or the threat thereof in specific sensitive service sectors on their labour markets, which could arise in certain regions from the transnational provision of services, as defined in Article 1 of Directive 96/71/EC, and as long as they apply, by virtue of the transitional provisions laid down above, national measures or those resulting from bilateral agreements to the free movement of Bulgarian workers, Germany and Austria may, after notifying the Commission, derogate from the first paragraph of Article III-144 of the Constitution with a view to limit, in the context of the provision of services by companies established in Bulgaria, the temporary movement of workers whose right to take up work in Germany and Austria is subject to national measures.

The list of service sectors which may be covered by this derogation is as follows:

To the extent that Germany or Austria derogate from the first paragraph of Article III-144 of the Constitution in accordance with the preceding subparagraphs, Bulgaria may, after notifying the Commission, take equivalent measures.

The effect of the application of this paragraph shall not result in conditions for the temporary movement of workers in the context of the transnational provision of services between Germany or Austria and Bulgaria which are more restrictive than those prevailing on the date of signature of the Treaty of Accession.

14. The effect of the application of paragraphs 2 to 5 and 7 to 12 shall not result in conditions for access of Bulgarian nationals to the labour markets of the present Member States which are more restrictive than those prevailing on the date of signature of the Treaty of Accession.

Notwithstanding the application of the provisions laid down in paragraphs 1 to 13, the present Member States shall, during any period when national measures or those resulting from bilateral agreements are applied, give preference to workers who are nationals of the Member States over workers who are nationals of third countries as regards access to their labour market.

Bulgarian migrant workers and their families legally resident and working in another Member State or migrant workers from other Member States and their families legally resident and working in Bulgaria shall not be treated in a more restrictive way than those from third countries resident and working in that Member State or Bulgaria respectively. Furthermore, in application of the principle of Community preference, migrant workers from third countries resident and working in Bulgaria shall not be treated more favourably than nationals of Bulgaria.

2. FREEDOM TO PROVIDE SERVICES

By way of derogation from Article 4(1) of Directive 97/9/EC, the minimum level of compensation shall not apply in Bulgaria until 31 December 2009. Bulgaria shall ensure that its investor-compensation scheme provides for cover of not less than EUR 12 000 from 1 January 2007 until 31 December 2007 and of not less than EUR 15 000 from 1 January 2008 until 31 December 2009.

During the transitional period the other Member States will retain the right to prevent a branch of a Bulgarian investment firm established on their territories from operating unless and until such a branch has joined an officially recognised investor-compensation scheme within the territory of the Member State concerned in order to cover the difference between the Bulgarian level of compensation and the minimum level referred to in Article 4(1) of Directive 97/9/EC.

3. FREE MOVEMENT OF CAPITAL

Treaty establishing a Constitution for Europe

1. Notwithstanding the obligations under the Treaty establishing a Constitution for Europe, Bulgaria may maintain in force for five years from the date of accession the restrictions laid down in its legislation, existing at the time of signature of the Treaty of Accession, on the acquisition of ownership over land for secondary residences by nationals of the Member States or the States which are a party to the European Economic Area Agreement (EEAA) non-resident in Bulgaria and by legal persons formed in accordance with the laws of another Member State or of an EEAA State.

2. Notwithstanding the obligations under the Treaty establishing a Constitution for Europe, Bulgaria may maintain in force for seven years from the date of accession the restrictions laid down in its legislation, existing at the time of signature of the Treaty of Accession, on the acquisition of agricultural land, forests and forestry land by nationals of another Member State, by nationals of the States which are a party to the European Economic Area Agreement and by legal persons formed in accordance with the laws of another Member State or an EEAA State. In no instance may a national of a Member State be treated less favourably in respect of the acquisition of agricultural land, forests and forestry land than at the date of signature of the Accession Treaty or be treated in a more restrictive way than a national of a third country.

A general review of these transitional measures shall be held in the third year following the date of accession. To this effect, the Commission shall submit a report to the Council. The Council may, acting unanimously on a proposal from the Commission, decide to shorten or terminate the transitional period indicated in the first subparagraph.
4. **AGRICULTURE**

**A. AGRICULTURAL LEGISLATION**

By way of derogation from Article 3(1)(b) and (c) of Regulation (EC) No 2597/97, the requirements relating to fat content shall not apply to drinking milk produced in Bulgaria until 30 April 2009, in that milk with a fat content of 3 % (m/m) may be marketed as whole milk, and milk with a fat content of 2 % (m/m) may be marketed as semi-skimmed milk. Drinking milk which does not comply with the requirements relating to fat content may be marketed only in Bulgaria or exported to third countries.

**B. VETERINARY AND PHYTOSANITARY LEGISLATION**

(a) The milk processing establishments listed in Chapters I and II of the Appendix to this Annex may until 31 December 2009 receive deliveries of raw milk that does not comply with or has not been handled in accordance with the requirements in Regulation (EC) No 853/2004, Annex III, Section IX, Chapter I, subchapters II and III provided that those farms from which the milk is delivered are mentioned on a list maintained for that purpose by the Bulgarian authorities.

(b) As long as the establishments referred to in paragraph (a) above benefit from the provisions of that paragraph, products originating from those establishments shall only be placed on the domestic market or used for further processing in establishments in Bulgaria also covered by the provisions of paragraph (a), irrespective of the date of marketing. These products must bear a different identification mark to that provided for in Article 5 of Regulation (EC) No 853/2004.

(c) The establishments listed in Chapter II of the Appendix to this Annex may until 31 December 2009 process EU compliant and EU non-compliant milk on separate production lines. In this context EU non-compliant milk is understood as the milk referred to in paragraph (a). Such establishments must fully comply with the EU requirements for establishments, including the implementation of the Hazard Analysis and Critical Control Point (HACCP) principles (referred to in Article 5 of Regulation (EC) No 852/2004 (1)) and must demonstrate their capacity to fully comply with the following conditions, including designating their relevant production lines:

— take all necessary measures to allow for the proper observance of in-house procedures for the separation of milk starting from collection up to the final product stage, including routes of milk collection, separate storage and treatment of EU compliant and non-compliant milk, specific packaging and labelling of products based on EU non-compliant milk as well as separate storage of such products,

— establish a procedure ensuring raw material traceability, including the necessary documentary evidence of product movements and the accountancy for products and reconciliation of compliant and non-

---

compliant raw materials with the categories of products produced,

— expose all raw milk to heat treatment at a temperature of minimum 71.7 °C for 15 seconds, and

— take all appropriate measures to ensure that the identification marks are not used fraudulently.

The Bulgarian authorities shall:

— ensure that the operator or manager of each establishment concerned takes all necessary measures to allow for the proper observance of in-house procedures for the separation of milk;

— conduct tests and unannounced controls relating to the observance of milk separation; and

— conduct tests in approved laboratories on all raw and finished products to verify their compliance with the requirements of Regulation (EC) No 853/2004, Annex III, Section IX, Chapter II, including the microbiological criteria for milk-based products.

The milk and/or milk-based products originating from separate production lines processing EU non-compliant raw milk in EU-approved milk processing establishments may only be placed on the market subject to the conditions laid down in paragraph (b). Products based on compliant raw milk processed on a separate production line in an establishment listed in Chapter II of the Appendix to this Annex can be marketed as compliant products as long as all conditions regarding separation of product lines are maintained.

(d) Milk and milk products produced under the provisions referred to in paragraph (c) shall only be granted support under Title I, Chapters II and III, except Article 11 thereof, and Title II of Regulation (EC) No 1255/1999 (1) if they carry the oval identification mark referred to in Annex II, Section I, of Regulation (EC) No 853/2004.

(e) Bulgaria shall ensure gradual compliance with the requirements referred to in paragraph (a) and shall submit annual reports to the Commission on progress made in upgrading dairy farms and the milk collection system. Bulgaria shall ensure that these requirements are fully complied with by 31 December 2009.

(f) The Commission may, in accordance with the procedure referred to in Article 58 of Regulation (EC) No 178/2002 (2), update the Appendix to this Annex before accession and until 31 December 2009 and in this context add or delete individual establishments in the light of progress made in the correction of existing shortcomings and the outcome of the monitoring process.

Detailed implementation rules to ensure the smooth operation of the above transitional regime may be adopted in accordance with the procedure referred to in Article 58 of Regulation (EC) No 178/2002.

1. 31993 R 3118: Council Regulation (EEC) No 3118/93 of 25 October 1993 laying down the conditions under which non-resident carriers may operate national road haulage services within a Member State (OJ L 279, 12.11.1993, p. 1), as last amended by:

(a) By way of derogation from Article 1 of Regulation (EEC) No 3118/93 and until the end of the third year following the date of accession, carriers established in Bulgaria shall be excluded from the operation of national road haulage services in the other Member States, and carriers established in the other Member States shall be excluded from the operation of national road haulage services in Bulgaria.

(b) Before the end of the third year following the date of accession, Member States shall notify the Commission whether they will prolong this period for a maximum of two years or whether they will fully apply Article 1 of the Regulation henceforth. In the absence of such notification, Article 1 of the Regulation shall apply. Only carriers established in those Member States in which Article 1 of the Regulation applies may perform national road haulage services in those other Member States in which Article 1 also applies.

(c) Those Member States in which, by virtue of paragraph (b) above, Article 1 of the Regulation applies, may resort to the procedure set out below until the end of the fifth year following the date of accession.

When a Member State referred to in the preceding subparagraph undergoes a serious disturbance of its national market or parts thereof due to or aggravated by cabotage, such as serious excess of supply over demand or a threat to the financial stability or survival of a significant number of road haulage undertakings, that Member State shall inform the Commission and the other Member States thereof and shall supply them with all relevant particulars. On the basis of this information, the Member State may request the Commission to suspend, in whole or in part, the application of Article 1 of the Regulation, in order to restore to normal the situation.

The Commission shall examine the situation on the basis of data provided by the Member State concerned and shall decide within one month of receipt of the request on the need for the adoption of safeguard measures. The procedure laid down in the second, third and fourth subparagraphs of paragraph 3, as well as paragraphs 4, 5 and 6 of Article 7 of the Regulation shall apply.

A Member State referred to in the first subparagraph above may, in urgent and exceptional cases, suspend the application of Article 1 of the Regulation, followed by a reasoned ex-post notification to the Commission.

(d) As long as Article 1 of the Regulation is not applied by virtue of paragraphs (a) and (b) above, Member States may regulate access to their national road haulage services by progressively exchanging cabotage authorisations on the basis of bilateral agreements. This may include the possibility of full liberalisation.

(e) The effect of the application of paragraphs (a) to (c) shall not lead to more restrictive access to national road haulage services than that prevailing on the date of signature of the Treaty of Accession.

2. 31996 L 0026: Council Directive 96/26/EC of 29 April 1996 on admission to the occupation of road haulage operator and road passenger transport operator and mutual recognition of diplomas, certificates and other evidence of formal qualifications intended to facilitate for these operators the right to freedom of establishment in national and international transport operations (OJ L 124, 23.5.1996, p. 1), as last amended by:

Until 31 December 2010, Article 3(3)(c) of Directive 96/26/EC shall not apply in Bulgaria to transport undertakings engaged exclusively in domestic road haulage and passenger transport operations.

The available capital and the reserves of those undertakings shall gradually reach the minimum rates laid down in that Article in accordance with the following schedule:

— by 1 January 2007, the undertaking must have available capital and reserves of at least EUR 5 850 for the first and at least EUR 3 250 for each additional vehicle;

— by 1 January 2008, the undertaking must have available capital and reserves of at least EUR 6 750 for the first and at least EUR 3 750 for each additional vehicle;

— by 1 January 2009, the undertaking must have available capital and reserves of at least EUR 7 650 for the first and at least EUR 4 250 for each additional vehicle;

— by 1 January 2010, the undertaking must have available capital and reserves of at least EUR 8 550 for the first and at least EUR 4 750 for each additional vehicle.

By way of derogation from Article 3(1) of Directive 96/53/EC, vehicles complying with the limit values of categories 3.2.1, 3.4.1, 3.4.2, and 3.5.1 specified in Annex I to that Directive may only use non-upgraded parts of the Bulgarian road network until 31 December 2013 if they comply with Bulgarian axle-weight limits.

As from the date of accession, no restrictions may be imposed on the use, by vehicles complying with the requirements of Directive 96/53/EC, of the main transit routes set out in Annex I to Decision No 1692/96/EC of the European Parliament and of the Council of 23 July 1996 on Community guidelines for the development of the trans-European transport network (1).

Bulgaria shall adhere to the timetable set out in the tables below for the upgrading of its main road network. Any infrastructure investments involving the use of funds from the Community budget shall ensure that the arteries are constructed or upgraded to a load bearing capacity of 11.5 tonnes per axle.

In line with the completion of the upgrading, there shall be a progressive opening of the Bulgarian road network, including the network as contained in Annex I to Decision No 1692/96/EC, for vehicles in international traffic complying with the limit values of the Directive. For the purpose of loading and unloading, where technically possible, the use of non-upgraded parts of the secondary road network shall be allowed during the entire transitional period.

As from the date of accession, all vehicles in international traffic fitted with air-suspension complying with the limit values of Directive 96/53/EC shall not be subject to any temporary additional charges on the entire Bulgarian road transport network.

Temporary additional charges for using non-upgraded parts of the network with vehicles in international traffic not fitted with air-suspension and complying with the limit values of the Directive shall be levied in a non-discriminatory

manner. The charging regime shall be transparent, and payment of these charges shall not place an undue administrative burden or delay on the user, nor shall the payment of these charges lead to a systematic check of axle load limits at the border. Enforcement of axle load limits shall be assured in a non-discriminatory manner throughout the territory and be effective also as regards vehicles registered in Bulgaria.

6. TAXATION

For the purposes of applying Article 28(3)(b) of Directive 77/388/EEC, Bulgaria may maintain an exemption from value added tax on international transport of passengers, referred to in point 17 of Annex F to the Directive, until the condition set out in Article 28(4) of the Directive is fulfilled or for as long as the same exemption is applied by any of the present Member States, whichever is the earlier.

By way of derogation from Article 2(1) of Directive 92/79/EEC, Bulgaria may postpone the application of the overall minimum excise duty on the retail selling price (inclusive of all taxes) for cigarettes of the price category most in demand until 31 December 2009, provided that during this period Bulgaria gradually adjusts its excise duty rates towards the overall minimum excise duty provided for in the Directive.

Without prejudice to Article 8 of Council Directive 92/12/EEC of 25 February 1992 on the general arrangements for products subject to excise duty and on the holding, movement and monitoring of such products (1), and having informed the Commission, Member States may, as long as the above derogation applies, maintain the same quantitative limits for cigarettes which may be brought into their territories from Bulgaria without further excise duty payment as those applied to imports from third countries. Member States making use of this possibility may carry out the necessary checks provided that these checks do not affect the proper functioning of the internal market.

Bulgaria shall be authorised not to apply the provisions of Article 1 of Directive 2003/49/EC until 31 December 2014. During that transitional period, the rate of tax on payments of interest or royalties made to an associated company of another Member State or to a permanent establishment situated in another Member State of an associated company of a Member State must not exceed 10 % until 31 December 2010 and must not exceed 5 % for the following years until 31 December 2014.

(a) By way of derogation from Article 7 of Directive 2003/96/EC, Bulgaria may apply the following transitional periods:

   — until 1 January 2011 to adjust the national level of taxation on unleaded petrol used as propellant to the minimum level of EUR 359 per 1 000 l. The effective tax rate applied to unleaded petrol used as propellant shall not be less than EUR 323 per 1 000 l as from 1 January 2008.

— until 1 January 2010 to adjust the national level of taxation on gas oil and kerosene used as propellant to the minimum level of EUR 302 per 1 000 l and until 1 January 2013 to reach the minimum level of EUR 330 per 1 000 l. The effective tax rate applied to gas oil and kerosene used as propellant shall not be less than EUR 274 per 1 000 l as from 1 January 2008.

(b) By way of derogation from Article 9 of Directive 2003/96/EC, Bulgaria may apply the following transitional periods:

— until 1 January 2010 to adjust the national level of taxation on coal and coke used for district heating purposes to the minimum levels of taxation laid down in Annex I, Table C,

— until 1 January 2009 to adjust the national level of taxation on coal and coke used for purposes other than district heating to the minimum levels of taxation laid down in Annex I, Table C.

The effective tax rates applied to the energy products concerned shall not be less than 50 % of the relevant Community minimum rate as from 1 January 2007.

(c) By way of derogation from Article 10 of Directive 2003/96/EC, Bulgaria may apply a transitional period until 1 January 2010 to adjust the national levels of taxation on electricity to the minimum levels of taxation laid down in Annex I, Table C. The effective tax rates applied to electricity shall not be less than 50 % of the relevant Community minimum rate as from 1 January 2007.

7. **SOCIAL POLICY AND EMPLOYMENT**

By way of derogation from Article 3 of Directive 2001/37/EC, the date of application of the maximum tar yield of cigarettes manufactured and marketed within the territory of Bulgaria, shall be 1 January 2011. During the transitional period:

— cigarettes manufactured in Bulgaria with a tar yield greater than 10 mg per cigarette shall not be marketed in other Member States;

— cigarettes manufactured in Bulgaria with a tar yield greater than 13 mg per cigarette shall not be exported to third countries; this limit shall be reduced to 12 mg from 1 January 2008 and to 11 mg from 1 January 2010;

— Bulgaria shall provide the Commission with regularly updated information on the timetable and measures taken to ensure compliance with the Directive.

8. **ENERGY**

By way of derogation from Article 1(1) of Directive 68/414/EEC, the minimum level of stocks of petroleum products shall not apply in Bulgaria until 31 December 2012. Bulgaria shall ensure that its minimum level of stocks of petroleum products corresponds, for each of the categories of petroleum products listed in Article 2, to at least the following number of days’ average daily internal consumption as defined in Article 1(1):

- 30 days by 1 January 2007;
- 40 days by 31 December 2007;
- 50 days by 31 December 2008;
- 60 days by 31 December 2009;
- 70 days by 31 December 2010;
- 80 days by 31 December 2011;
- 90 days by 31 December 2012.

9. TELECOMMUNICATIONS AND INFORMATION TECHNOLOGIES

By way of derogation from Article 30(1) of Directive 2002/22/EC, Bulgaria may postpone the introduction of number portability to no later than 1 January 2009.

10. ENVIRONMENT

- until 31 December 2009 for storage installations at 19 terminals with a throughput loaded less than or equal to 25 000 tonnes/year.
By way of derogation from Article 4 and Annex II to Directive 94/63/EC, the requirements for loading and unloading of existing mobile containers at terminals shall not apply in Bulgaria:

- until 31 December 2009 to 29 terminals with a throughput less than or equal to 25 000 tonnes/year.

By way of derogation from Article 5 of Directive 94/63/EC, the requirements for existing mobile containers at terminals shall not apply in Bulgaria:

- until 31 December 2007 to 50 road tankers;

ANNEX VII

List referred to in Article 20 of the Protocol: transitional measures, Romania

1. FREEDOM OF MOVEMENT FOR PERSONS

Treaty establishing a Constitution for Europe

1. Article III-133 and the first paragraph of Article III-144 of the Constitution shall fully apply only, in relation to the freedom of movement of workers and the freedom to provide services involving temporary movement of workers as defined in Article 1 of Directive 96/71/EC between Romania on the one hand, and each of the present Member States on the other hand, subject to the transitional provisions laid down in paragraphs 2 to 14.

2. By way of derogation from Articles 1 to 6 of Regulation (EEC) No 1612/68 and until the end of the two year period following the date of accession, the present Member States will apply national measures, or those resulting from bilateral agreements, regulating access to their labour markets by Romanian nationals. The present Member States may continue to apply such measures until the end of the five year period following the date of accession.

Romanian nationals legally working in a present Member State at the date of accession and admitted to the labour market of that Member State for an uninterrupted period of 12 months or longer will enjoy access to the labour market of that Member State but not to the labour market of other Member States applying national measures.

Romanian nationals admitted to the labour market of a present Member State following accession for an uninterrupted period of 12 months or longer shall also enjoy the same rights.

The Romanian nationals mentioned in the second and third subparagraphs above shall cease to enjoy the rights contained in those subparagraphs if they voluntarily leave the labour market of the present Member State in question.

Romanian nationals legally working in a present Member State at the date of accession, or during a period when national measures are applied, and who were admitted to the labour market of that Member State for a period of less than 12 months shall not enjoy these rights.

3. Before the end of the two year period following the date of accession, the Council shall review the functioning of the transitional provisions laid down in paragraph 2, on the basis of a report from the Commission.
On completion of this review, and no later than at the end of the two year period following the date of accession, the present Member States shall notify the Commission whether they will continue applying national measures or measures resulting from bilateral agreements, or whether they will apply Articles 1 to 6 of Regulation (EEC) No 1612/68 henceforth. In the absence of such notification, Articles 1 to 6 of Regulation (EEC) No 1612/68 shall apply.

4. Upon the request of Romania, one further review may be held. The procedure referred to in paragraph 3 shall apply and shall be completed within six months of receipt of the request from Romania.

5. A Member State maintaining national measures or measures resulting from bilateral agreements at the end of the five year period indicated in paragraph 2 may, in case of serious disturbances of its labour market or threat thereof and after notifying the Commission, continue to apply these measures until the end of the seven year period following the date of accession. In the absence of such notification, Articles 1 to 6 of Regulation (EEC) No 1612/68 shall apply.

6. During the seven year period following the date of accession, those Member States in which, by virtue of paragraph 3, 4 or 5, Articles 1 to 6 of Regulation (EEC) No 1612/68 apply as regards Romanian nationals, and which are issuing work permits to nationals of Romania for monitoring purposes during this period, will do so automatically.

7. Those Member States in which, by virtue of paragraphs 3, 4 or 5, Articles 1 to 6 of Regulation (EEC) No 1612/68 apply as regards Romanian nationals, may resort to the procedures set out in the subparagraphs below until the end of the seven year period following the date of accession.

When a Member State referred to in the first subparagraph undergoes or foresees disturbances on its labour market which could seriously threaten the standard of living or level of employment in a given region or occupation, that Member State shall inform the Commission and the other Member States thereof and shall supply them with all relevant particulars. On the basis of this information, the Member State may request the Commission to state that the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 be wholly or partially suspended in order to restore to normal the situation in that region or occupation. The Commission shall decide on the suspension and on the duration and scope thereof not later than two weeks after receiving such a request and shall notify the Council of such a decision. Any Member State may, within two weeks from the date of the Commission's Decision, request the Council to annul or amend the Decision. The Council shall act on such a request within two weeks, by qualified majority.

A Member State referred to in the first subparagraph may, in urgent and exceptional cases, suspend the application of Articles 1 to 6 of Regulation (EEC) No 1612/68, followed by a reasoned ex-post notification to the Commission.

8. As long as the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 is suspended by virtue of paragraphs 2 to 5 and 7 above, Article 23 of Directive 2004/38/EC shall apply in Romania with regard to nationals of the present Member States, and in the present Member States with regard to Romanian nationals, under the following conditions, so far as the right of family members of workers to take up employment is concerned:

— the spouse of a worker and their dependants who are under 21 years of age or are dependants, legally residing with the worker in the territory of a Member State at the date of accession, shall have, upon accession, immediate access to the labour market of that Member State. This does not apply to family members of a worker legally admitted to the labour market of that Member State for a period of less than 12 months;

— the spouse of a worker and their dependants who are under 21 years of age or are dependants, legally residing with the worker in the territory of a Member State from a date later than the date of accession, but during the period of application of the transitional provisions laid down above, shall have access to the labour market of the Member State concerned once they have been resident in the Member State concerned for at least eighteen months or from the third year following the date of accession, whichever is the earlier.

These provisions shall be without prejudice to more favourable measures whether national or resulting from bilateral agreements.
9. Insofar as provisions of Directive 2004/38/EC which take over provisions of Directive 68/360/EEC (1) may not be dissociated from those of Regulation (EEC) No 1612/68 whose application is deferred pursuant to paragraphs 2 to 5 and 7 and 8, Romania and the present Member States may derogate from those provisions to the extent necessary for the application of paragraphs 2 to 5 and 7 and 8.

10. Whenever national measures, or those resulting from bilateral agreements, are applied by the present Member States by virtue of the transitional provisions laid down above, Romania may maintain in force equivalent measures with regard to the nationals of the Member State or States in question.

11. If the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 is suspended by any of the present Member States, Romania may resort to the procedures laid down in paragraph 7 with respect to Bulgaria. During any such period work permits issued by Romania for monitoring purposes to nationals of Bulgaria shall be issued automatically.

12. Any present Member State applying national measures in accordance with paragraphs 2 to 5 and 7 to 9, may introduce, under national law, greater freedom of movement than that existing at the date of accession, including full labour market access. From the third year following the date of accession, any present Member State applying national measures may at any time decide to apply Articles 1 to 6 of Regulation (EEC) No 1612/68 instead. The Commission shall be informed of any such decision.

13. In order to address serious disturbances or the threat thereof in specific sensitive service sectors on their labour markets, which could arise in certain regions from the transnational provision of services, as defined in Article 1 of Directive 96/71/EC, and as long as they apply, by virtue of the transitional provisions laid down above, national measures or those resulting from bilateral agreements to the free movement of Romanian workers, Germany and Austria may, after notifying the Commission, derogate from the first paragraph of Article III-144 of the Constitution with a view to limit, in the context of the provision of services by companies established in Romania, the temporary movement of workers whose right to take up work in Germany and Austria is subject to national measures.

The list of service sectors which may be covered by this derogation is as follows:

To the extent that Germany or Austria derogate from the first paragraph of Article III-144 of the Constitution in accordance with the preceding subparagraphs, Romania may, after notifying the Commission, take equivalent measures.

The effect of the application of this paragraph shall not result in conditions for the temporary movement of workers in the context of the transnational provision of services between Germany or Austria and Romania which are more restrictive than those prevailing on the date of signature of the Treaty of Accession.

14. The effect of the application of paragraphs 2 to 5 and 7 to 12 shall not result in conditions for access of Romanian nationals to the labour markets of the present Member States which are more restrictive than those prevailing on the date of signature of the Treaty of Accession.

Notwithstanding the application of the provisions laid down in paragraphs 1 to 13, the present Member States shall, during any period when national measures or those resulting from bilateral agreements are applied, give preference to workers who are nationals of the Member States over workers who are nationals of third countries as regards access to their labour market.

Romanian migrant workers and their families legally resident and working in another Member State or migrant workers from other Member States and their families legally resident and working in Romania shall not be treated in a more restrictive way than those from third countries resident and working in that Member State or Romania respectively. Furthermore, in application of the principle of Community preference, migrant workers from third countries resident and working in Romania shall not be treated more favourably than nationals of Romania.

2. **FREEDOM TO PROVIDE SERVICES**

By way of derogation from Article 4(1) of Directive 97/9/EC, the minimum level of compensation shall not apply in Romania until 31 December 2011. Romania shall ensure that its investor-compensation scheme provides for cover of not less than EUR 4 500 from 1 January 2007 until 31 December 2007, of not less than EUR 7 000 from 1 January 2008 until 31 December 2008, of not less than EUR 9 000 from 1 January 2009 until 31 December 2009, of not less than EUR 11 000 from 1 January 2010 until 31 December 2010 and of not less than EUR 15 000 from 1 January 2011 until 31 December 2011.

During the transitional period the other Member States will retain the right to prevent a branch of a Romanian investment firm established on their territories from operating unless and until such a branch has joined an officially recognised investor-compensation scheme within the territory of the Member State concerned in order to cover the difference between the Romanian level of compensation and the minimum level referred to in Article 4(1) of Directive 97/9/EC.

3. **FREE MOVEMENT OF CAPITAL**

**Treaty establishing a Constitution for Europe.**

1. Notwithstanding the obligations under the Treaty establishing a Constitution for Europe, Romania may maintain in force for five years from the date of accession the restrictions laid down in its legislation, existing at the time of signature of the Treaty of Accession, on the acquisition of ownership over land for secondary residences by nationals of the Member States or the States which are a party to the Economic Area Agreement (EEAA) non-resident in Romania and by companies formed in accordance with the laws of another Member State or of an EEAA State and being neither established nor having a branch or a representative agency in the territory of Romania.

   Nationals of the Member States and nationals of the States which are a party to the Economic Area Agreement who are legally resident in Romania shall not be subject to the provisions of the preceding subparagraph or to any rules and procedures other than those to which nationals of Romania are subject.

2. Notwithstanding the obligations under the Treaty establishing a Constitution for Europe, Romania may maintain in force for seven years from the date of accession the restrictions laid down in its legislation, existing at the time of signature of the Treaty of Accession, on the acquisition of agricultural land, forests and forestry land by nationals of the Member States, by nationals of the States which are a party to the Economic Area Agreement and by companies formed in accordance with the laws of another Member State or an EEAA State which are neither established nor registered in Romania. In no instance may a national of a Member State be treated less favourably in respect of the acquisition of agricultural land, forests and forestry land than at the date of signature of the Accession Treaty or be treated in a more restrictive way than a national of a third country.

   Self-employed farmers who are nationals of another Member State and who wish to establish themselves and reside in Romania, shall not be subject to the provisions of the preceding subparagraph or to any procedures other than those to which nationals of Romania are subject.

A general review of these transitional measures shall be held in the third year following the date of accession. To this effect, the Commission shall submit a report to the Council. The Council may, acting unanimously on a proposal from the Commission, decide to shorten or terminate the transitional period indicated in the first subparagraph.

B. STEEL RESTRUCTURING

Treaty establishing a Constitution for Europe, Part III, Title III, Chapter I, Section 5, Rules on competition

1. Notwithstanding Articles III-167 and III-168 of the Constitution, State aid granted by Romania for restructuring purposes to specified parts of the Romanian steel industry from 1993 to 2004 shall be deemed to be compatible with the common market provided that:

— the period provided for in Article 9(4) of Protocol 2 on ECSC products to the Europe Agreement establishing an association between the European Communities and their Member States, of the one part, and Romania, of the other part (1), has been extended until 31 December 2005,

— the terms set out in the national restructuring programme and the individual business plans on the basis of which the abovementioned Protocol was extended are adhered to throughout the period 2002-2008,

— the conditions set out in these provisions and in Appendix A are met,

— no State aid in any form is granted or paid to the steel mills covered by the national restructuring programme from 1 January 2005 to 31 December 2008, the end of the restructuring period, and

— no State aid for restructuring is granted or paid to the Romanian steel sector after 31 December 2004. For the purpose of these provisions and Appendix A, State aid for restructuring is to be understood as any measure concerning steel companies that constitutes State aid within the meaning of Article 87(1) of the EC Treaty and that cannot be held to be compatible with the common market in accordance with the normal rules applied in the Community.

2. Only the companies listed in Appendix A, Part I, (hereinafter referred to as the ‘benefiting companies’) shall be eligible for State aid in the framework of the Romanian steel restructuring programme.

3. Restructuring of the Romanian steel sector, as described in the individual business plans of the benefiting companies and in the national restructuring programme, and in line with the conditions set out in these provisions and in Appendix A, shall be completed no later than 31 December 2008 (hereinafter referred to as ‘the end of the restructuring period’).

4. A benefiting company may not:

(a) in the case of a merger with a company not listed in Appendix A, Part I, pass on the benefit of the aid granted to the benefiting company;

(b) take over the assets of any company not listed in Appendix A, Part I, and pass on the benefit of aid granted to it in the period up to 31 December 2008.

5. Any subsequent changes in the ownership of any of the benefiting companies shall respect the conditions and principles regarding viability, State aids and capacity reduction defined in these provisions and in Appendix A.

6. Companies not listed as ‘benefiting companies’ under Appendix A, Part I, shall not benefit from State aid for restructuring or any other aid not deemed compatible with Community State aid rules and shall not be required to reduce capacity in this context. Any capacity cuts within these companies shall not count towards the minimum reduction.

7. The total amount of gross restructuring aid to be approved for the benefiting companies shall be determined by the justifications for each and every aid measure provided in the final national restructuring programme and individual business plans to be approved by the Romanian authorities and subject to final verification of fulfilment of the criteria laid out in Article 9(4) of Protocol 2 to the Europe Agreement and approval by the Council. In any case, the total amount of gross restructuring aid granted and paid in the period 1993-2004 shall not exceed ROL 49 985 billion. Within this overall ceiling, the following sub-ceilings or maximum amounts of State aid granted and paid to each benefiting company in the period 1993-2004 shall apply:

The State aid shall lead to the viability of the benefiting companies under normal market conditions at the end of the restructuring period. The amount and intensity of such aid are to be strictly limited to what is absolutely necessary in order to restore such viability. The viability shall be determined taking into account the benchmarks described in Appendix A, Part III.

No further State aid shall be granted by Romania for restructuring purposes to the Romanian steel industry.

8. The total net capacity reductions for finished products to be achieved by the benefiting companies during the period 1993-2008 shall be a minimum of 2,05 million tonnes.

These capacity reductions shall be measured on the basis of permanent closure by physical destruction of the hot-rolled steel facilities concerned, such that the facilities cannot be restored to service. A declaration of bankruptcy of a benefiting company shall not qualify as a capacity reduction (1).

(1) Capacity reductions shall be permanent as defined in Commission Decision No 3010/91/ECSC (OJ L 286, 6.10.1991, p. 20.)
The minimum net capacity reduction of 2.05 million tonnes and the dates for both cessation of production and the permanent closure of the facilities covered, shall be achieved in line with the timetable set out in Appendix A, Part II.

9. The individual business plans shall have the written endorsement of the benefiting companies. They shall be implemented and in particular include:

(a) For Ispat Sidex Galaţi:

(i) the implementation of the investment programme for the modernisation of the works, improvement of yields, reduction of costs (especially energy consumption), and improvement of quality

(ii) the move into higher-value added steel flat product market segments

(iii) the improvement of operational efficiency and organisational management

(iv) the completion of the financial restructuring of the company

(v) the implementation of the investments necessary to comply with environmental legislation

(i) the modernisation of the facilities in order to achieve the envisaged sales plan

(ii) the improvement of operational efficiency and organisational management

(iii) the implementation of the investments necessary to comply with environmental legislation

(c) For IS Câmpia Turzii:

(i) the increase of the output of higher value—added and transformed products

(ii) the implementation of the investment programme in order to improve production quality

(iii) the improvement of operational efficiency and organisational management

(iv) the implementation of the investments necessary to comply with environmental legislation

(d) For CS Reşiţa:

(i) the specialisation on semi-finished products to supply the local pipe sector

(ii) the closure of inefficient capacities

(iii) the implementation of the investments necessary to comply with environmental legislation
(c) For COS Târgoviște:

(i) the increase of the share of higher value-added products

(ii) the implementation of the investment programme in order to achieve cost reductions, higher efficiency and quality improvement

(iii) the implementation of the investments necessary to comply with environmental legislation

(f) For Donasid Călărași:

(i) the implementation of the investment programme for the modernisation of the works

(ii) the increase of the share of finished products

(iii) the implementation of the investments necessary to comply with environmental legislation.

10. Any subsequent changes in the national restructuring programme and the individual business plans must be agreed by the Commission, and where appropriate, by the Council.

11. The implementation of the restructuring shall take place under conditions of full transparency and on the basis of sound market economy principles.

12. The Commission and the Council shall closely monitor the implementation of the restructuring programme and individual business plans, as well as the fulfilment of the conditions set out in these provisions and in Appendix A before and after accession until 2009. In particular, the Commission shall monitor the main commitments and provisions set out in paragraphs 7 and 8 concerning State aid, viability and capacity reductions, using in particular the restructuring benchmarks set out in paragraph 9 and in Appendix A, Part III. For this purpose, the Commission shall report to the Council.

13. Monitoring shall include an independent evaluation to be carried out annually in each of the years 2005 to 2009.

14. Romania shall cooperate fully with all the arrangements for monitoring. In particular:

— Romania shall submit 6-monthly reports to the Commission no later than 15 March and 15 September of each year, unless the Commission decides otherwise. The first report is to be submitted on 15 March 2005 and the last on 15 March 2009;

— these reports shall contain all the information necessary to monitor the restructuring process and the reduction and use of capacity and shall provide sufficient financial data to allow an assessment to be made of whether the conditions and requirements contained in these provisions and in Appendix A have been fulfilled. The reports shall at the least contain the information set out in Appendix A, Part IV, which the Commission reserves the right to modify in line with its experience during the monitoring process. In addition to the individual business reports of the benefiting companies, there shall also be a report on the overall situation of the Romanian steel sector, including recent macroeconomic developments;

— Romania shall oblige the benefiting companies to disclose all relevant data which might, under other circumstances, be considered as confidential. In its reporting to the Council, the Commission shall ensure that company-specific confidential information is not disclosed.
15. A Consultative Committee consisting of representatives of the Romanian authorities and of the Commission shall meet on a 6-monthly basis. Meetings of this Consultative Committee may also take place on an ad hoc basis if deemed necessary by the Commission.

16. If the Commission establishes, on the basis of the monitoring, that substantial deviations from the forecasts of the macroeconomic developments, the financial situation of the benefiting companies or the viability assessment have occurred, it may require Romania to take appropriate measures to reinforce or modify the restructuring measures of the benefiting companies concerned.

17. Should the monitoring show that:

(a) any of the conditions laid down in these provisions and in Appendix A have not been fulfilled, or

(b) any of the commitments made by Romania in the framework of the extension of the period during which Romania may exceptionally grant State aid for the restructuring of its steel industry under the Europe Agreement have not been fulfilled, or

(c) in the course of the restructuring period Romania has granted additional incompatible State aid to the benefiting companies or to any steel company,

the Commission shall take the appropriate steps requiring any company concerned to reimburse any aid granted in breach of the conditions laid down in these provisions and in Appendix A. Where necessary, recourse to the safeguard clauses as laid down in Article 37 of the Protocol or under Article 39 of the Protocol shall be made.

5. AGRICULTURE

A. AGRICULTURAL LEGISLATION

By way of derogation from Article 19(1) to (3) of Regulation (EC) No 1493/1999, Romania may recognise replanting rights obtained from the grubbing-up of hybrid varieties that may not be included in the classification of vine varieties, cultivated on an area of 30 000 hectares. These replanting rights may only be used until 31 December 2014 and exclusively for planting with Vitis vinifera.

The restructuring and conversion of these vineyards will not be eligible for Community support provided for under Article 13 of Regulation (EC) No 1493/1999. However, national State aid may be given for the costs resulting from their restructuring and conversion. Such aid may not exceed 75 % of all costs per vineyard.

B. VETERINARY AND PHYTOSANITARY LEGISLATION

I. Veterinary legislation

The structural requirements laid down in Regulation (EC) No 852/2004, Annex II, Chapter II and in Regulation (EC) No 853/2004, Annex III, Section I, Chapters II and III, Section II, Chapters II and III, and Section V, Chapter I, shall not apply to establishments in Romania listed in Appendix B to this Annex until 31 December 2009, subject to the conditions laid down below.

As long as the establishments referred to in paragraph (a) above benefit from the provisions of that paragraph, products originating from those establishments shall only be placed on the domestic market or used for further processing in establishments in Romania also covered by the provisions of paragraph (a), irrespective of the date of marketing. These products must bear a different health or identification mark to that provided for in Article 5 of Regulation (EC) No 853/2004.

The previous subparagraph also applies to all products originating from integrated meat establishments where a part of the establishment is subject to the provisions of paragraph (a).

The milk processing establishments listed in Appendix B to this Annex may until 31 December 2009 receive deliveries of raw milk that does not comply with or has not been handled in accordance with the requirements in Regulation (EC) No 853/2004, Annex III, Section IX, Chapter I, subchapters II and III provided that those farms from which the milk is delivered are mentioned on a list maintained for that purpose by the Romanian authorities. Romania shall submit annual reports to the Commission on progress made in upgrading these dairy farms and the milk collection system.

Romania shall ensure gradual compliance with the structural requirements referred to in paragraph (a). Before the date of accession Romania shall submit to the Commission an upgrading plan, approved by the competent national veterinary authority, for each of the establishments covered by the measure laid down by paragraph (a) and listed in Appendix B. The plan shall include a list of all shortcomings with regard to the requirements referred to in paragraph (a) and the planned date of their correction. Romania shall submit annual reports to the Commission on progress made in each of the establishments. Romania shall ensure that only those establishments which fully comply with these requirements by 31 December 2009 may continue to operate.

The Commission may, in accordance with the procedure referred to in Article 58 of Regulation (EC) No 178/2002 (1), update Appendix B to this Annex before accession and until 31 December 2009 and in this context add or delete individual establishments in the light of progress made in the correction of existing shortcomings and the outcome of the monitoring process.

Detailed implementing rules to ensure the smooth operation of the above transitional regime may be adopted in accordance with the procedure referred to in Article 58 of Regulation (EC) No 178/2002.

II. Phytosanitary legislation

By way of derogation from Article 13(1) of Directive 91/414/EEC, Romania may postpone the deadlines for the provision of the information referred to in Annex II and Annex III to Directive 91/414/EEC for plant protection products currently authorised in Romania and marketed exclusively on Romanian territory and containing copper compounds (sulphate, oxychloride or hydroxide), sulphur, acetochlor, dimethoate and 2,4-D, provided that those ingredients are at the time listed in Annex I to that Directive. The abovementioned deadlines may be postponed until no later than 31 December 2009, except for 2,4-D for which the deadline may be postponed until no later than 31 December 2008. The above provisions shall only apply to those applicant companies which effectively started working on the generation or acquisition of the required data before 1 January 2005.

6. TRANSPORT POLICY

1. 31993 R 3118: Council Regulation (EEC) No 3118/93 of 25 October 1993 laying down the conditions under which non-resident carriers may operate national road haulage services within a Member State (OJ L 279, 12.11.1993, p. 1), as last amended by:

(a) By way of derogation from Article 1 of Regulation (EEC) No 3118/93 and until the end of the third year following the date of accession, carriers established in Romania shall be excluded from the operation of national road haulage services in the other Member States, and carriers established in the other Member States shall be excluded from the operation of national road haulage services in Romania.

(b) Before the end of the third year following the date of accession, Member States shall notify the Commission whether they will prolong this period for a maximum of two years or whether they will fully apply Article 1 of the Regulation henceforth. In the absence of such notification, Article 1 of the Regulation shall apply. Only carriers established in those Member States in which Article 1 of the Regulation applies may perform national road haulage services in those other Member States in which Article 1 also applies.

(c) Those Member States in which, by virtue of paragraph (b) above, Article 1 of the Regulation applies, may resort to the procedure set out below until the end of the fifth year following the date of accession.

When a Member State referred to in the preceding subparagraph undergoes a serious disturbance of its national market or parts thereof due to or aggravated by cabotage, such as serious excess of supply over demand or a threat to the financial stability or survival of a significant number of road haulage undertakings, that Member State shall inform the Commission and the other Member States thereof and shall supply them with all relevant particulars. On the basis of this information, the Member State may request the Commission to suspend, in whole or in part, the application of Article 1 of the Regulation, in order to restore to normal the situation.

The Commission shall examine the situation on the basis of data provided by the Member State concerned and shall decide within one month of receipt of the request on the need for the adoption of safeguard measures. The procedure laid down in the second, third and fourth subparagraphs of paragraph 3, as well as paragraphs 4, 5 and 6 of Article 7 of the Regulation shall apply.

A Member State referred to in the first subparagraph above may, in urgent and exceptional cases, suspend the application of Article 1 of the Regulation, followed by a reasoned ex-post notification to the Commission.

(d) As long as Article 1 of the Regulation is not applied by virtue of paragraphs (a) and (b) above, Member States may regulate access to their national road haulage services by progressively exchanging cabotage authorisations on the basis of bilateral agreements. This may include the possibility of full liberalisation.

(e) The effect of the application of paragraphs (a) to (c) shall not lead to more restrictive access to national road haulage services than that prevailing on the date of signature of the Treaty of Accession.

By way of derogation from Article 3(1) of Directive 96/53/EC, vehicles complying with the limit values of category 3.2.1, 3.4.1, 3.4.2, 3.5.1 specified in Annex I to that Directive may only use non-upgraded parts of the Romanian road network until 31 December 2013 if they comply with Romanian axle-weight limits.

As from the date of accession, no restrictions may be imposed on the use, by vehicles complying with the requirements of Directive 96/53/EC, of the main transit routes set out in Annex 5 to the EC/Romania Transport Agreement (1) and Annex I to Decision No 1692/96/EC of the European Parliament and of the Council of 23 July 1996 on Community guidelines for the development of the trans-European transport network (2), which are listed below:

1. Alba Iulia — Turda — Zalău — Satu Mare — Halmeu (road E 81)

2. Zalău — Oradea — Borș (roads 1 H and E 60)

3. Mărașești — Bacău — Suceava — Siret (road E 85)

4. Tisţa — Tecuci — Huşi — Albiţa (road E 581)

5. Simeria — Haţeg — Rovinari — Craiova — Calafat (road E 79)

7. Craiova — Alexandria — Bucureşti (road 6)

8. Drobeta-Turnu Severin — Calafat (road 56 A)

9. Bucureşti — Buzău (roads E 60/E 85)

10. Bucureşti — Giurgiu (roads E 70/E 85)

11. Braşov — Sibiu (road E 68)

12. Timişoara — Stamora Moraviţa

Romania shall adhere to the timetable set out in the table below for upgrading its secondary road network as shown in the map below. Any infrastructure investments involving the use of funds from the Community budget shall ensure that the arteries are constructed or upgraded to a load bearing capacity of 11.5 tonnes per axle.

---

In line with the completion of the upgrading, there shall be a progressive opening of the Romanian secondary road network for vehicles in international traffic complying with the limit values of the Directive. For the purpose of loading and unloading, where technically possible, the use of non-upgraded parts of the secondary road network shall be allowed during the entire transitional period.

As from the date of accession, all vehicles in international traffic complying with the limit values of Directive 96/53/EC shall only be subject to temporary additional charges on the secondary Romanian road transport network if they are in excess of national axle-load limits. These vehicles shall not be subject to such temporary additional charges on the secondary Romanian road transport network if they are in excess of national limits in relation to the dimension or total weight of the vehicle. Moreover those vehicles in international traffic complying with the limit values of Directive 96/53/EC and fitted with air-suspension, shall be subject to lower charges of at least 25 % less.

Temporary additional charges for using non-upgraded parts of the secondary network with vehicles in international traffic complying with the limit values of the Directive shall be levied in a non-discriminatory manner. The charging regime shall be transparent, and payment of these charges shall not place an undue administrative burden or delay on the user, nor shall the payment of these charges lead to a systematic check of axle load limits at the border. Enforcement of axle load limits shall be assured in a non-discriminatory manner throughout the territory and be effective also as regards vehicles registered in Romania.

The charges for vehicles without air-suspension complying with the limit values set out in Directive 96/53/EC shall not exceed the level of charges set out in the table below (expressed in 2002 figures). Vehicles fitted with air-suspension complying with the limit values set out in Directive 96/53/EC shall be subject to lower charges of at least 25 % less.

By way of derogation from Article 6(1) of Directive 1999/62/EC, the minimum tax rates laid down in Annex I to the Directive shall not apply in Romania to vehicles engaged exclusively in domestic transport operations until 31 December 2010.

During this period, the rates to be applied by Romania to these vehicles shall gradually reach the minimum rates of tax laid down in Annex I to the Directive in accordance with the following schedule:

— by 1 January 2007, the rates to be applied by Romania shall not be less than 60 % of the minimum rates laid down in Annex I to the Directive;
— by 1 January 2009, the rates to be applied by Romania shall not be less than 80 % of the minimum rates laid down in Annex I to the Directive.

7. TAXATION

For the purposes of applying Article 28(3)(b) of Directive 77/388/EEC, Romania may maintain an exemption from value added tax on international transport of passengers, referred to in point 17 of Annex F to the Directive, until the condition set out in Article 28(4) of the Directive is fulfilled or for as long as the same exemption is applied by any of the present Member States, whichever is the earlier.

By way of derogation from Article 2(1) of Directive 92/79/EEC, Romania may postpone the application of the overall minimum excise duty on the retail selling price (inclusive of all taxes) for cigarettes of the price category most in demand until 31 December 2009, provided that during this period Romania gradually adjusts its excise duty rates towards the overall minimum excise duty provided for in the Directive.

Without prejudice to Article 8 of Council Directive 92/12/EEC of 25 February 1992 on the general arrangements for products subject to excise duty and on the holding, movement and monitoring of such products (1), and having informed the Commission, Member States may, as long as the above derogation applies, maintain the same quantitative limits for cigarettes which may be brought into their territories from Romania without further excise duty

payment as those applied to imports from third countries. Member States making use of this possibility may carry out the necessary checks provided that these checks do not affect the proper functioning of the internal market.

Romania shall be authorised not to apply the provisions of Article 1 of Directive 2003/49/EC until 31 December 2010. During that transitional period, the rate of tax on payments of interest or royalties made to an associated company of another Member State or to a permanent establishment situated in another Member State of an associated company of a Member State must not exceed 10 %.

(a) By way of derogation from Article 7 of Directive 2003/96/EC, Romania may apply the following transitional periods:

— until 1 January 2011 to adjust the national level of taxation on unleaded petrol used as propellant to the minimum level of EUR 359 per 1 000 l. The effective tax rate applied to unleaded petrol used as propellant shall not be less than EUR 323 per 1 000 l as from 1 January 2008,

The effective tax rate applied to gas oil used as propellant shall not be less than EUR 274 per 1 000 l as from 1 January 2008 and EUR 302 per 1 000 l as from 1 January 2011.

(b) By way of derogation from Article 9 of Directive 2003/96/EC, Romania may apply the following transitional periods:

— until 1 January 2010 to adjust the national level of taxation on natural gas used for non-business heating purposes to the minimum level of taxation laid down in Annex I, Table C,

— until 1 January 2010 to adjust the national level of taxation on heavy fuel oil used for district heating purposes to the minimum levels of taxation laid down in Annex I, Table C,

— until 1 January 2009 to adjust the national levels of taxation on heavy fuel oil used for purposes other than district heating to the minimum levels of taxation laid down in Annex I, Table C.

The effective tax rate applied to the heavy fuel oil products concerned shall not be less than EUR 13 per 1 000 kg as from 1 January 2007.

(c) By way of derogation from Article 10 of Directive 2003/96/EC, Romania may apply a transitional period until 1 January 2010 to adjust the national level of taxation on electricity to the minimum levels of taxation laid down in Annex I, Table C. The effective tax rates applied to electricity shall not be less than 50 % of the relevant Community minimum rate as from 1 January 2007.
8. **ENERGY**

By way of derogation from Article 1(1) of Directive 68/414/EEC, the minimum level of stocks of petroleum products shall not apply in Romania until 31 December 2011. Romania shall ensure that its minimum level of stocks of petroleum products corresponds, for each of the categories of petroleum products listed in Article 2, to at least the following number of days’ average daily internal consumption as defined in Article 1(1):

A. Support for semi-subsistence farms undergoing restructuring

(1) Support for semi-subsistence farms undergoing restructuring shall contribute to the following objectives:

(a) to help ease rural transition problems as the agricultural sector and rural economy of Bulgaria and Romania are exposed to the competitive pressure of the single market;

(b) to facilitate and encourage the restructuring of farms not yet economically viable.

For the purpose of this Annex, ‘semi-subsistence farms’ shall mean farms which primarily produce for their own consumption, but also market a proportion of their output.

(2) To benefit from the support, the farmer must present a business plan which:

(a) demonstrates the future economic viability of the farm;

(b) contains details of the investments required;

(c) describes specific milestones and targets.

(3) Compliance with the business plan referred to in point (2) shall be reviewed after three years. If the interim objectives set out in the plan have not been achieved by the time of the three-year review, no further support shall be granted but there will be no requirement on these grounds to repay monies already received.

(4) Support shall be paid annually in the form of a flat-rate aid up to the maximum eligible amount specified in Section I G and for a period not exceeding five years.

B. Producer groups

(1) Flat-rate support shall be granted in order to facilitate the establishment and administrative operation of producer groups which have as their objectives:
(a) adapting the production and output of the producers who are members of such groups to market requirements;

(b) jointly placing goods on the market, including preparation for sale, the centralisation of sales and supply to bulk buyers; and

(c) establishing common rules on production information, with particular regard to harvesting and availability.

(2) The support shall be granted only to producer groups which are formally recognised by the competent authorities of Bulgaria or Romania between the date of accession and 31 December 2009 on the basis of either national or Community law.

(3) The support shall be granted in annual instalments for the first five years following the date on which the producer group was recognised. It shall be calculated on the basis of the group's annual marketed production and shall not exceed:

(a) 5 %, 5 %, 4 %, 3 % and 2 % of the value of the production up to EUR 1 000 000 marketed respectively in the first, second, third, fourth and fifth year, and

(b) 2,5 %, 2,5 %, 2,0 %, 1,5 % and 1,5 % of the value of the production exceeding EUR 1 000 000 marketed respectively in the first, second, third, fourth and fifth year.

In any case, support shall not exceed the maximum eligible amounts laid down in Section I G.

C. Leader + type measures

(1) Support may be granted for measures which are related to the acquisition of skills intended to prepare rural communities to conceive and implement local rural development strategies.

These measures may include in particular:

(a) technical support for studies of the local area, and territory diagnosis taking into account the wishes expressed by the population concerned;

(b) information and training of the population to encourage an active participation in the development process;

(c) building representative local development partnerships;

(d) drawing up integrated development strategies;

(e) financing research and preparing applications for support.

(2) Support may be granted for the adoption of integrated territorial rural development strategies, of a pilot nature, prepared by local action groups in accordance with the principles laid down in items 12, 14 and
36 of the Commission Notice to the Member States of 14 April 2000 laying down guidelines for the Community initiative for rural development (Leader+) \(^1\). This support shall be limited to regions where there is already sufficient administrative capacity and experience of local rural development type approaches.

(3) The local action groups referred to in point (2) may be eligible to participate in inter-territorial and transnational cooperation actions in accordance with the principles laid down in items 15 to 18 of the Commission Notice referred to in point (2).

(4) Bulgaria and Romania and local action groups shall be given access to the Observatory of rural areas provided for in item 23 of the Commission Notice referred to in point (2).

D. **Farm advisory and extension services**

Support shall be granted for the provision of farm advisory and extension services.

E. **Complements to direct payments**

(1) Support may be granted to farmers eligible for complementary national direct payments or aids under Article 143c of Regulation (EC) No 1782/2003 \(^2\).

(2) The support granted to a farmer in respect of the years 2007, 2008, 2009 shall not exceed the difference between:

(a) the level of direct payments applicable in Bulgaria or Romania for the year concerned in accordance with Article 143a of Regulation (EC) 1782/2003, and

However Bulgaria or Romania may decide to replace this 20 % annual rate with the following rates: 25 % for 2007, 20 % for 2008 and 15 % for 2009.

(4) Support granted to a farmer under this subsection E shall be counted as complementary national direct payments or aids, as applicable, for the purposes of applying the maximum levels set out in Article 143c (2a) of Regulation (EC) No 1782/2003.

**Article 4**

1. The provisions of the Schengen acquis as integrated into the framework of the European Union by the Protocol annexed to the Treaty on European Union and to the Treaty establishing the European Community (hereinafter referred to as the ‘Schengen Protocol’), and the acts building upon it or otherwise related to it, listed in Annex II, as well as any further such acts adopted before the date of accession, shall be binding on and applicable in Bulgaria and Romania from the date of accession.

2. Those provisions of the Schengen acquis as integrated into the framework of the European Union and the acts building upon it or otherwise related to it not referred to in paragraph 1, while binding on Bulgaria and Romania from the date of accession, shall only apply in each of those States pursuant to a Council decision to that effect after verification in accordance with the applicable Schengen evaluation procedures that the necessary conditions for the application of all parts of the acquis concerned have been met in that State.

The Council shall take its decision, after consulting the European Parliament, acting with the unanimity of its members representing the Governments of the Member States in respect of which the provisions referred to in this paragraph have already been put into effect and of the representative of the Government of the Member State in respect of which those provisions are to be put into effect. The members of the Council representing the Governments of Ireland and of the United Kingdom of Great Britain and Northern Ireland shall take part in such a decision insofar as it relates to the provisions of the Schengen acquis and the acts building upon it or otherwise related to it in which these Member States participate.

The agreements or conventions concluded or provisionally applied by the Community or in accordance with Article 24 or Article 38 of the EU Treaty, with one or more third States, with an international organisation or with a national of a third State, shall, under the conditions laid down in the original Treaties and in this Act, be binding on Bulgaria and Romania.

2. Bulgaria and Romania undertake to accede, under the conditions laid down in this Act, to the agreements or conventions concluded or signed by the present Member States and the Community, acting jointly.

The accession of Bulgaria and Romania to the agreements or conventions concluded or signed by the Community and the present Member States acting jointly with particular third countries or international organisations shall be agreed by the conclusion of a protocol to such agreements or conventions between the Council, acting unanimously on behalf of the Member States, and the third country or countries or international organisation concerned. The Commission shall negotiate these protocols on behalf of the Member States on the basis of negotiating directives approved by the Council, acting unanimously, and in consultation with a committee comprised of the representatives of the Member States. It shall submit a draft of the protocols for conclusion to the Council.

This procedure is without prejudice to the exercise of the Community’s own competences and does not affect the allocation of powers between the Community and the Member States as regards the conclusion of such agreements in the future or any other amendments not related to accession.

3. Upon acceding to the agreements and conventions referred to in paragraph 2 Bulgaria and Romania shall acquire the same rights and obligations under those agreements and conventions as the present Member States.

4. As from the date of accession, and pending the entry into force of the necessary protocols referred to in paragraph 2, Bulgaria and Romania shall apply the provisions of the agreements or conventions concluded jointly by the present Member States and the Community before accession, with the exception of the agreement on the free movement of persons concluded with Switzerland. This obligation also applies to those agreements or conventions which the Union and the present Member States have agreed to apply provisionally.

To that effect, amendments to the bilateral agreements and arrangements referred to above may be negotiated by the Community with the third countries concerned prior to the date of accession.

Should the amendments to the bilateral textile agreements and arrangements not have entered into force by the date of accession, the Community shall make the necessary adjustments to its rules for the import of textile and clothing products from third countries to take into account the accession of Bulgaria and Romania.

8. The quantitative restrictions applied by the Community on imports of steel and steel products shall be adjusted on the basis of imports of Bulgaria and Romania over recent years of steel products originating in the supplier countries concerned.

To that effect, the necessary amendments to the bilateral steel agreements and arrangements concluded by the Community with third countries shall be negotiated prior to the date of accession.

Should the amendments to the bilateral agreements and arrangements not have entered into force by the date of accession, the provisions of the first subparagraph shall apply.

9. Fisheries agreements concluded before accession by Bulgaria or Romania with third countries shall be managed by the Community.

The rights and obligations resulting for Bulgaria and Romania from those agreements shall not be affected during the period in which the provisions of those agreements are provisionally maintained.

As soon as possible, and in any event before the expiry of the agreements referred to in the first subparagraph, appropriate decisions for the continuation of fishing activities resulting from those agreements shall be adopted in each case by the Council acting by qualified majority on a proposal from the Commission, including the possibility of extending certain agreements for periods not exceeding one year.

10. With effect from the date of accession, Bulgaria and Romania shall withdraw from any free trade agreements with third countries, including the Central European Free Trade Agreement.

To the extent that agreements between Bulgaria, Romania or both those States on the one hand, and one or more third countries on the other, are not compatible with the obligations arising from this Act, Bulgaria and Romania shall take all appropriate steps to eliminate the incompatibilities established. If Bulgaria or Romania encounters difficulties in adjusting an agreement concluded with one or more third countries before accession, it shall, according to the terms of the agreement, withdraw from that agreement.

11. Bulgaria and Romania accede under the conditions laid down in this Act to the internal agreements concluded by the present Member States for the purpose of implementing the agreements or conventions referred to in paragraphs 2, 5 and 6.

12. Bulgaria and Romania shall take appropriate measures, where necessary, to adjust their position in relation to international organisations, and to those international agreements to which the Community or to which other Member States are also parties, to the rights and obligations arising from their accession to the Union.

They shall in particular withdraw at the date of accession or the earliest possible date thereafter from international fisheries agreements and organisations to which the Community is also a party, unless their membership relates to matters other than fisheries.

The ex-ante control by the Commission over tendering and contracting shall be waived by a Commission decision to that effect, following an accreditation procedure conducted by the Commission and a positively assessed Extended Decentralised Implementation System (EDIS) in accordance with the criteria and conditions laid down in the Annex to Council Regulation (EC) No 1266/1999 of 21 June 1999 on coordinating aid to the applicant countries in the framework of the pre-accession strategy and amending Regulation (EEC) No 3906/89 (5) and in Article 164 of the Financial Regulation applicable to the general budget of the European Communities (6).

However, the provisions contained in Article 165 of the Financial Regulation applicable to the general budget of the European Communities shall not apply. Any procurement procedure relating to a measure referred to in paragraph 1 which has not yet been the subject of an invitation to tender published in the Official Journal of the European Union shall be in keeping with the provisions of the Treaties, with the instruments adopted pursuant thereto and with Community policies, including those concerning environmental protection, transport, trans-European networks, competition and the award of public contracts.

Should specific transitional measures be necessary in this regard, these shall be adopted in accordance with the procedure laid down in Article 50(2) of Council Regulation (EC) No 1260/1999 of 21 June 1999 laying down general provisions on the Structural Funds (2).

Article 30

1. Bulgaria having closed — in line with its commitments — definitively for subsequent decommissioning Unit 1 and Unit 2 of the Kozloduy Nuclear Power Plant before the year 2003, commits to the definitive closure of Unit 3 and Unit 4 of this plant in 2006 and to subsequent decommissioning of these units.

2. During the period 2007-2009, the Community shall provide Bulgaria with financial assistance in support of its efforts to decommission and to address the consequences of the closure and decommissioning of Units 1 to 4 of the Kozloduy Nuclear Power Plant.

The assistance shall, inter alia, cover: measures in support of the decommissioning of Units 1 to 4 of the Kozloduy Nuclear Power Plant; measures for environmental upgrading in line with the acquis; measures for the modernisation of the conventional energy production, transmission and distribution sectors in Bulgaria; measures to improve energy efficiency, to enhance the use of renewable energy sources and to improve security of energy supply.

For the period 2007-2009, the assistance shall amount to EUR 210 million (2004 prices) in commitment appropriations, to be committed in equal annual tranches of EUR 70 million (2004 prices).

3. The Commission may adopt rules for implementation of the assistance referred to in paragraph 2. The rules shall be adopted in accordance with Council Decision 1999/468/EC of 28 June 1999 laying down the procedures for the exercise of implementing powers conferred on the Commission (3). To this end, the Commission shall be assisted by a committee. Articles 4 and 7 of Decision 1999/468/EC shall apply. The period laid down in Article 4(3) of Decision 1999/468/EC shall be six weeks. The committee shall adopt its rules of procedure.

Article 31

1. For the first year of accession, the Union shall provide temporary financial assistance, hereinafter referred to as the 'Transition Facility', to Bulgaria and Romania to develop and strengthen their administrative and judicial capacity to implement and enforce Community legislation and to foster exchange of best practice among peers. This assistance shall fund institution-building projects and limited small-scale investments ancillary thereto.

2. Assistance shall address the continued need for strengthening institutional capacity in certain areas through action which cannot be financed by the Structural Funds or by the Rural Development funds.

3. For twinning projects between public administrations for the purpose of institution building, the procedure for call for proposals through the network of contact points in the Member States shall continue to apply, as established in the Framework Agreements with the Member States for the purpose of pre-accession assistance.

Article 35

The amounts referred to in Articles 30, 31, 32, 33 and 34 shall be adjusted by the Commission each year in line with movements in prices as part of the annual technical adjustments to the financial perspective.
TITLE IV
OTHER PROVISIONS

Article 36

1. If, until the end of a period of up to three years after accession, difficulties arise which are serious and liable to persist in any sector of the economy or which could bring about serious deterioration in the economic situation of a given area, Bulgaria or Romania may apply for authorisation to take protective measures in order to rectify the situation and adjust the sector concerned to the economy of the internal market.

In the same circumstances, any present Member State may apply for authorisation to take protective measures with regard to Bulgaria, Romania, or both those States.

2. Upon request by the State concerned, the Commission shall, by emergency procedure, determine the protective measures which it considers necessary, specifying the conditions and modalities under which they are to be put into effect.

In the event of serious economic difficulties and at the express request of the Member State concerned, the Commission shall act within five working days of the receipt of the request accompanied by the relevant background information. The measures thus decided on shall be applicable forthwith, shall take account of the interest of all parties concerned and shall not entail frontier controls.

3. The measures authorised under paragraph 2 may involve derogations from the rules of the EC Treaty and this Act to such an extent and for such periods as are strictly necessary in order to attain the objectives referred to in paragraph 1. Priority shall be given to such measures as will least disturb the functioning of the internal market.

Article 37

If Bulgaria or Romania has failed to implement commitments undertaken in the context of the accession negotiations, causing a serious breach of the functioning of the internal market, including any commitments in all sectoral policies which concern economic activities with cross-border effect, or an imminent risk of such breach the Commission may, until the end of a period of up to three years after accession, upon motivated request of a Member State or on its own initiative, take appropriate measures.

Measures shall be proportional and priority shall be given to measures which least disturb the functioning of the internal market and, where appropriate, to the application of the existing sectoral safeguard mechanisms. Such safeguard measures shall not be invoked as a means of arbitrary discrimination or a disguised restriction on trade between Member States. The safeguard clause may be invoked even before accession on the basis of the monitoring findings and the measures adopted shall enter into force as of the first day of accession unless they provide for a later date. The measures shall be maintained no longer than strictly necessary and, in any case, shall be lifted when the relevant commitment is implemented. They may however be applied beyond the period specified in the first paragraph as long as the relevant commitments have not been fulfilled. In response to progress made by the new Member State concerned in fulfilling its commitments, the Commission may adapt the measures as appropriate. The Commission shall inform the Council in good time before revoking the safeguard measures, and it shall take duly into account any observations of the Council in this respect.

Article 38

If there are serious shortcomings or any imminent risks of such shortcomings in Bulgaria or Romania in the transposition, state of implementation, or the application of the framework decisions or any other relevant commitments, instruments of cooperation and decisions relating to mutual recognition in the area of criminal law under Title VI of the EU Treaty and Directives and Regulations relating to mutual recognition in civil matters under Title IV of the EC Treaty, the Commission may, until the end of a period of up to three years after accession, upon the motivated request of a Member State or on its own initiative and after consulting the Member States, take appropriate measures and specify the conditions and modalities under which these measures are put into effect.

These measures may take the form of temporary suspension of the application of relevant provisions and decisions in the relations between Bulgaria or Romania and any other Member State or Member States, without prejudice to the continuation of close judicial cooperation. The safeguard clause may be invoked even before accession on the basis of the monitoring findings and the measures adopted shall enter into force as of the first day of accession unless they provide for a later date. The measures shall be maintained no longer than strictly necessary and, in any case, shall be lifted when the shortcomings are remedied. They may however be applied beyond the period specified in the first paragraph as long as these shortcomings persist. In response to progress made by the new Member State concerned in rectifying the identified shortcomings, the Commission may adapt the measures as appropriate after consulting the Member States. The Commis-
Article 39

1. If, on the basis of the Commission’s continuous monitoring of commitments undertaken by Bulgaria and Romania in the context of the accession negotiations and in particular the Commission’s monitoring reports, there is clear evidence that the state of preparations for adoption and implementation of the acquis in Bulgaria or Romania is such that there is a serious risk of either of those States being manifestly unprepared to meet the requirements of membership by the date of accession of 1 January 2007 in a number of important areas, the Council may, acting unanimously on the basis of a Commission recommendation, decide that the date of accession of that State is postponed by one year to 1 January 2008.

2. Notwithstanding paragraph 1, the Council may, acting by qualified majority on the basis of a Commission recommendation, take the decision mentioned in paragraph 1 with respect to Romania if serious shortcomings have been observed in the fulfilment by Romania of one or more of the commitments and requirements listed in Annex IX, point I.

3. Notwithstanding paragraph 1, and without prejudice to Article 37, the Council may, acting by qualified majority on the basis of a Commission recommendation and after a detailed assessment to be made in the autumn of 2005 of the progress made by Romania in the area of competition policy, take the decision mentioned in paragraph 1 with respect to Romania if serious shortcomings have been observed in the fulfilment by Romania of the obligations undertaken under the Europe Agreement (1) or of one or more of the commitments and requirements listed in Annex IX, point II.

4. In the event of a decision taken under paragraph 1, 2 or 3, the Council shall, acting by qualified majority, decide immediately upon such adjustments to this Act, including its Annexes and Appendices, as have become indispensable by reason of the postponement decision.

Article 40

In order not to hamper the proper functioning of the internal market, the enforcement of Bulgaria’s and Romania’s national rules during the transitional periods referred to in Annexes VI and VII shall not lead to border controls between Member States.

Article 41

If transitional measures are necessary to facilitate the transition from the existing regime in Bulgaria and Romania to that resulting from the application of the common agricultural policy under the conditions set out in this Act, such measures shall be adopted by the Commission in accordance with the procedure referred to in Article 25(2) of Council Regulation (EC) No 1784/2003 of 29 September 2003 on the common organisation of the market in cereals (2) or, as appropriate, in the corresponding Articles of the other Regulations on the common organisation of agricultural markets or the relevant procedure as determined in the applicable legislation. The transitional measures referred to in this Article may be adopted during a period of three years following the date of accession and their application shall be limited to that period. The Council, acting unanimously on a proposal from the Commission and after consulting the European Parliament, may extend this period.

The transitional measures relating to implementation of the instruments concerning the common agricultural policy not specified in this Act which are required as a result of accession shall be adopted prior to the date of accession by the Council acting by a qualified majority on a proposal from the Commission or, where they affect instruments initially adopted by the Commission, they shall be adopted by the Commission in accordance with the procedure required for adopting the instruments in question.

Article 42

If transitional measures are necessary to facilitate the transition from the existing regime in Bulgaria and Romania to that resulting from the application of the Community veterinary, phytosanitary and food safety rules, such measures shall be adopted by the Commission in accordance with the relevant procedure as determined in the applicable legislation. These measures shall be taken during a period of three years following the date of accession and their application shall be limited to that period.

B. VETERINARY AND PHYTOSANITARY LEGISLATION

ANNEX V

List referred to in Article 21 of the Act of Accession: other permanent provisions

1. COMPANY LAW

Treaty establishing the European Community: Part Three, Title I Free Movement of Goods

SPECIFIC MECHANISM

With regard to Bulgaria or Romania, the holder, or his beneficiary, of a patent or supplementary protection certificate for a pharmaceutical product filed in a Member State at a time when such protection could not be obtained in one of the abovementioned new Member States for that product, may rely on the rights granted by that patent or supplementary protection certificate in order to prevent the import and marketing of that product in the Member State or States where the product in question enjoys patent protection or supplementary protection, even if the product was put on the market in that new Member State for the first time by him or with his consent.

Any person intending to import or market a pharmaceutical product covered by the above paragraph in a Member State where the product enjoys patent or supplementary protection shall demonstrate to the competent authorities in the application regarding that import that one month’s prior notification has been given to the holder or beneficiary of such protection.

2. COMPETITION POLICY

Treaty establishing the European Community: Part Three, Title VI, Chapter 1 Rules on Competition

1. The following aid schemes and individual aid put into effect in a new Member State before the date of accession and still applicable after that date shall be regarded upon accession as existing aid within the meaning of Article 88(1) of the EC Treaty:

(a) aid measures put into effect before 10 December 1994;

(b) aid measures listed in the Appendix to this Annex;

(c) aid measures which prior to the date of accession were assessed by the State aid monitoring authority of the new Member State and found to be compatible with the acquis, and to which the Commission did not raise an objection on the ground of serious doubts as to the compatibility of the measure with the common market, pursuant to the procedure set out in paragraph 2.

All measures still applicable after the date of accession which constitute State aid and which do not fulfil the conditions set out above shall be considered as new aid upon accession for the purpose of the application of Article 88(3) of the EC Treaty.
The above provisions do not apply to aid to the transport sector, nor to activities linked to the production, processing or marketing of products listed in Annex I to the EC Treaty with the exception of fisheries products and products derived thereof.

The above provisions shall also be without prejudice to the transitional measures regarding Competition Policy set out in the Act and the measures laid down in Annex VII, Chapter 4, Section B, to the Act.

2. To the extent that a new Member State wishes the Commission to examine an aid measure under the procedure described in paragraph 1(c), it shall provide the Commission regularly with:

(a) a list of existing aid measures which have been assessed by the national State aid monitoring authority and which that authority has found to be compatible with the acquis; and

(b) any other information which is essential for the assessment of the compatibility of the aid measure to be examined,

in accordance with the concrete reporting format provided by the Commission.

If the Commission does not object to the existing aid measure on the ground of serious doubts as to the compatibility of the measure with the common market, within 3 months of receipt of complete information on that measure or of receipt of the statement of the new Member State in which it informs the Commission that it considers the information provided to be complete because the additional information requested is not available or has been already provided, the Commission shall be deemed not to have raised an objection.

All aid measures submitted under the procedure described in paragraph 1(c) prior to the date of accession to the Commission are subject to the above procedure irrespective of the fact that in the period of examination the new Member State concerned has already become member of the Union.

3. A Commission decision to object to a measure, within the meaning of paragraph 1(c), shall be regarded as a decision to initiate the formal investigation procedure within the meaning of Council Regulation (EC) No 659/1999 of 22 March 1999 laying down detailed rules for the application of Article 93 of the EC Treaty (1).

If such a decision is taken before the date of accession, the decision will only come into effect upon the date of accession.

4. Without prejudice to the procedures concerning existing aid provided for in Article 88 of the EC Treaty, aid schemes and individual aid granted in the transport sector, put into effect in a new Member State before the date of accession and still applicable after that date, shall be regarded as existing aid within the meaning of Article 88 (1) of the EC Treaty subject to the following condition:

— the aid measures shall be communicated to the Commission within four months of the date of accession. This communication shall include information on the legal basis for each measure. Existing aid measures and plans to grant or alter aids communicated to the Commission prior to the date of accession shall be deemed to have been communicated on the date of accession.

These aid measures shall be regarded as ‘existing’ aid within the meaning of Article 88(1) of the EC Treaty until the end of third year from the date of accession.

The new Member States shall, where necessary, amend these aid measures in order to comply with the guidelines applied by the Commission by the end of the third year from the date of accession at the latest. After that date, any aid found to be incompatible with those guidelines shall be considered as new aid.

5. With regard to Romania, paragraph 1(c) shall only apply to aid measures assessed by the Romanian State aid monitoring authority after such date, decided upon by the Commission on the basis of continuous monitoring of the commitments undertaken by Romania in the context of the accession negotiations, that Romania's State aid enforcement record in the period prior to accession has reached a satisfactory level. Such a satisfactory level shall only be considered to have been reached once Romania has demonstrated the consistent application of full and proper State aid control in relation to all aid measures granted in Romania, including the adoption and the implementation of fully and correctly reasoned decisions by the Romanian State aid monitoring authority containing an accurate assessment of the State aid nature of each measure and a correct application of the compatibility criteria.

The Commission may object, on the ground of serious doubts as to the compatibility with the common market, to any aid measure granted in the pre-accession period between 1 September 2004 and the date fixed in the above Commission decision finding that the enforcement record has reached a satisfactory level. Such a Commission decision to object to a measure shall be regarded as a decision to initiate the formal investigation procedure within the meaning of Regulation (EC) No 659/1999. If such a decision is taken before the date of accession, the decision will only come into effect upon the date of accession.

Where the Commission adopts a negative decision following the initiation of the formal investigation procedure, the Commission shall decide that Romania shall take all necessary measures to effectively recover the aid from the beneficiary. The aid to be recovered shall include interest at an appropriate rate determined in accordance with Regulation (EC) No 794/2004 (1), and payable from the same date.

3. AGRICULTURE

(a) Treaty establishing the European Community, Part Three, Title II, Agriculture

1. Public stocks held at the date of accession by the new Member States and resulting from their market-support policy shall be taken over by the Community at the value resulting from the application of Article 8 of Council Regulation (EEC) No 1883/78 of 2 August 1978 laying down general rules for the financing of interventions by the European Agricultural Guidance and Guarantee Fund, Guarantee Section (2). The said stocks shall be taken over only on condition that public intervention for the products in question is operated in the Community and that the stocks meet the Community intervention requirements.

2. Any stock of product, private as well as public, in free circulation at the date of accession within the territory of the new Member States exceeding the quantity which could be regarded as constituting a normal carryover of stock must be eliminated at the expense of the new Member States.

The concept of normal carryover stock shall be defined for each product on the basis of criteria and objectives specific to each common market organisation.

3. The stocks referred to in paragraph 1 shall be deducted from the quantity exceeding the normal carryover of stocks.

4. Existing aid measures and plans to grant or alter aids communicated to the Commission prior to the date of accession shall be deemed to have been communicated on the date of accession. These aid measures shall be regarded as ‘existing’ aid within the meaning of Article 88(1) of the EC Treaty until the end of third year from the date of accession.

The new Member States shall, where necessary, amend these aid measures in order to comply with the guidelines applied by the Commission by the end of the third year from the date of accession at the latest. After that date, any aid found to be incompatible with those guidelines shall be considered as new aid.

Regulation (EEC) No 2913/92 and Regulation (EEC) No 2454/93 shall apply to the new Member States subject to the following specific provisions:

PROOF OF COMMUNITY STATUS (TRADE WITHIN THE ENLARGED COMMUNITY)

1. Notwithstanding Article 20 of Regulation (EEC) No 2913/92, goods which on the date of accession are in temporary storage or under one of the customs treatments and procedures referred to in Article 4(15)(b) and (16)(b) to (g) of that Regulation in the enlarged Community, or which are in transport after having been the subject of export formalities within the enlarged Community, shall be free of customs duties and other customs measures when declared for release for free circulation within the enlarged Community on condition that one of the following is presented:
(a) proof of preferential origin properly issued or made out prior to the date of accession under one of the Europe Agreements listed below or the equivalent preferential agreements concluded between the new Member States themselves, and which contains a prohibition of drawback of, or exemption from, customs duties on non-originating materials used in the manufacture of the products for which a proof of origin is issued or made out ('no-drawback' rule);

The Europe Agreements:

— 21994 A 1231 (24) Bulgaria: Europe Agreement establishing an association between the European Communities and their Member States, of the one part, and the Republic of Bulgaria, of the other part — Protocol 4 concerning the definition of the concept of 'originating products' and methods of administrative cooperation (1);

— 21994 A 1231 (20) Romania: Europe Agreement establishing an association between the European Communities and their Member States, of the one part, and Romania, of the other part — Protocol 4 concerning the definition of the concept of 'originating products' and methods of administrative cooperation (2);

(b) any of the means of proof of Community status referred to in Article 314c of Regulation (EEC) No 2454/93;

(c) an ATA carnet issued before the date of accession in a present Member State or in a new Member State.

2. For the purpose of issuing the proofs referred to in paragraph 1(b) above, with reference to the situation at the date of accession and in addition to the provisions of Article 4(7) of Regulation (EEC) No 2913/92, 'Community goods' shall mean goods:

— wholly obtained in the territory of any of the new Member States under conditions identical to those of Article 23 of Regulation (EEC) No 2913/92 and not incorporating goods imported from other countries or territories; or

— imported from countries or territories other than the country concerned, and released for free circulation in that country; or

— obtained or produced in the country concerned, either from goods referred to in the second indent of this paragraph alone or from goods referred to in the first and second indent of this paragraph.

3. For the purpose of verifying the proofs referred to in paragraph 1(a) above, the provisions concerning the definition of the concept of 'originating products' and methods of administrative cooperation under the respective Europe Agreements or the equivalent preferential agreements concluded between the new Member States themselves shall apply. Requests for subsequent verification of those proofs shall be accepted by the competent customs authorities of the present Member States and of the new Member States for a period of three years after the issue of the proof of origin concerned and may be made by those authorities for a period of three years after acceptance of the proof of origin in support of a declaration of free circulation.

PROOF OF PREFERENTIAL ORIGIN (TRADE WITH THIRD COUNTRIES, INCLUDING TURKEY, IN THE FRAMEWORK OF THE PREFERENTIAL AGREEMENTS ON AGRICULTURE, COAL AND STEEL PRODUCTS)

4. Without prejudice to the application of any measure deriving from the common commercial policy, proof of origin properly issued by third countries or made out in the framework of preferential agreements concluded by the new Member States with those countries or issued or made out in the framework of unilateral national legislation of

the new Member States shall be accepted in the respective new Member States, provided that:

(a) the acquisition of such origin confers preferential tariff treatment on the basis of the preferential tariff measures contained in agreements or arrangements which the Community has concluded with, or adopted in respect of those third countries or groups of countries, as referred to in Article 20(3)(d) and (e) of Regulation (EEC) No 2913/92; and

(b) the proof of origin and the transport documents were issued or made out no later than the day before the date of accession; and

(c) the proof of origin is submitted to the customs authorities within the period of four months from the date of accession.

Where goods were declared for release for free circulation in a new Member State prior to the date of accession, proof of origin issued or made out retrospectively under preferential agreements or arrangements in force in that new Member State at the date of the release for free circulation may also be accepted in the new Member State concerned, provided that it is submitted to the customs authorities within the period of four months from the date of accession.

5. Bulgaria and Romania are authorised to retain the authorisations with which the status of ‘approved exporters’ has been granted in the framework of agreements concluded with third countries, provided that:

(a) such a provision is also provided for in the agreements concluded prior to the date of accession by those third countries with the Community; and

(b) the approved exporters apply the rules of origin provided for in those agreements.

These authorisations shall be replaced by the new Member States, no later than one year after the date of accession, by new authorisations issued under the conditions of Community legislation.

6. For the purpose of verifying the proofs referred to in paragraph 4, the provisions concerning the definition of the concept of ‘originating products’ and methods of administrative cooperation of the relevant agreements or arrangements shall apply. Requests for subsequent verification of those proofs shall be accepted by the competent customs authorities of the present Member States and of the new Member States for a period of three years after the issue of the proof of origin concerned and may be made by those authorities for a period of three years after acceptance of the proof of origin in support of a declaration of free circulation.

7. Without prejudice to the application of any measure deriving from the common commercial policy, proof of origin issued retrospectively by third countries in the framework of preferential agreements concluded by the Community with those countries shall be accepted in the new Member States for the release for free circulation of goods which on the date of accession were either in route or in temporary storage, in a customs warehouse or in a free zone in one of those third countries or in that new Member State, provided that the new Member State where the release for free circulation takes place had no free trade agreement in force with the third country, for the products concerned, at the moment when the transport documents where issued, and provided that:

(a) the acquisition of such origin confers preferential tariff treatment on the basis of the preferential tariff measures contained in agreements or arrangements which the Community has concluded with, or adopted in respect of third countries or groups of countries, as referred to in Article 20(3)(d) and (e) of Regulation (EEC) No 2913/92; and

(b) the transport documents were issued no later than the day before the date of accession; and

(c) the proof of origin issued retrospectively is submitted to the customs authorities within four months of the date of accession.
8. For the purpose of verifying the proofs referred to in paragraph 7, the provisions concerning the definition of the concept of ‘originating products’ and methods of administrative cooperation of the relevant agreements or arrangements shall apply.

9. Proofs of origin properly issued by either Turkey or a new Member State in the framework of preferential trade agreements applied between them and allowing with the Community a cumulation of origin based on identical rules of origin and a prohibition of any drawback or suspension from customs duties on the goods concerned, shall be accepted in the respective countries as a proof of status under the provisions on free circulation for industrial products, laid down in Decision No 1/95 of the EC-Turkey Association Council (1), provided that:

(a) the proof of origin and the transport documents were issued no later than the day before the date of accession; and

(b) the proof of origin is submitted to the customs authorities within the period of four months from the date of accession.

Where goods were declared for release for free circulation in either Turkey or a new Member State, prior to the date of accession, in the framework of preferential trade agreements mentioned above, proof of origin issued retrospectively under those agreements may also be accepted provided that it is submitted to the customs authorities within the period of four months from the date of accession.

10. For the purpose of verifying the proofs referred to in paragraph 9, the provisions concerning the definition of the concept of ‘originating products’ and methods of administrative cooperation of the relevant preferential agreements shall apply. Requests for subsequent verification of those proofs shall be accepted by the competent customs authorities of the present Member States and of the new Member States for a period of three years after the issue of the proof of origin concerned and may be made by those authorities for a period of three years after acceptance of the proof of origin in support of a declaration of free circulation.

11. Without prejudice to the application of any measure deriving from the common commercial policy, an A.TR movement certificate issued under the provisions on free circulation for industrial products, laid down in Decision No 1/95 of the EC-Turkey Association Council of 22 December 1995, shall be accepted in the new Member States for the release for free circulation of goods which on the date of accession are either in transport after having been the subject of export formalities within the Community or Turkey or are in temporary storage or under a customs procedure referred to in Article 4(16)(b) to (h) of Regulation (EEC) No 2913/92 in Turkey or in that new Member State, provided that:

(a) no proof of origin as referred to in paragraph 9 is submitted for the goods concerned; and

(b) the goods comply with the conditions for the implementation of the provisions on free circulation for industrial products; and

(c) the transport documents were issued no later than the day before the date of accession; and

(d) the A.TR movement certificate is submitted to the customs authorities within four months of the date of accession.

12. For the purpose of verifying the A.TR movement certificates referred to in paragraph 11 above, the provisions concerning the issue of A.TR movement certificates and methods of administrative cooperation under Decision No 1/2001 of the EC-Turkey Customs Cooperation Committee (1) shall apply.

ANNEX VI

List referred to in Article 23 of the Act of Accession: Transitional measures, Bulgaria

1. FREEDOM OF MOVEMENT FOR PERSONS

Treaty establishing the European Community

1. Article 39 and the first paragraph of Article 49 of the EC Treaty shall fully apply only, in relation to the freedom of movement of workers and the freedom to provide services involving temporary movement of workers as defined in Article 1 of Directive 96/71/EC between Bulgaria on the one hand, and each of the present Member States on the other hand, subject to the transitional provisions laid down in paragraphs 2 to 14.

2. By way of derogation from Articles 1 to 6 of Regulation (EEC) No 1612/68 and until the end of the two year period following the date of accession, the present Member States will apply national measures, or those resulting from bilateral agreements, regulating access to their labour markets by Bulgarian nationals. The present Member States may continue to apply such measures until the end of the five year period following the date of accession.

Bulgarian nationals legally working in a present Member State at the date of accession and admitted to the labour market of that Member State for an uninterrupted period of 12 months or longer will enjoy access to the labour market of that Member State but not to the labour market of other Member States applying national measures.

Bulgarian nationals admitted to the labour market of a present Member State following accession for an uninterrupted period of 12 months or longer shall also enjoy the same rights.

The Bulgarian nationals mentioned in the second and third subparagraphs above shall cease to enjoy the rights contained in those subparagraphs if they voluntarily leave the labour market of the present Member State in question.

Bulgarian nationals legally working in a present Member State at the date of accession, or during a period when national measures are applied, and who were admitted to the labour market of that Member State for a period of less than 12 months shall not enjoy these rights.

3. Before the end of the two year period following the date of accession, the Council shall review the functioning of the transitional provisions laid down in paragraph 2, on the basis of a report from the Commission.
On completion of this review, and no later than at the end of the two year period following the date of accession, the present Member States shall notify the Commission whether they will continue applying national measures or measures resulting from bilateral agreements, or whether they will apply Articles 1 to 6 of Regulation (EEC) No 1612/68 henceforth. In the absence of such notification, Articles 1 to 6 of Regulation (EEC) No 1612/68 shall apply.

4. Upon the request of Bulgaria, one further review may be held. The procedure referred to in paragraph 3 shall apply and shall be completed within six months of receipt of the request from Bulgaria.

5. A Member State maintaining national measures or measures resulting from bilateral agreements at the end of the five year period indicated in paragraph 2 may, in case of serious disturbances of its labour market or threat thereof and after notifying the Commission, continue to apply these measures until the end of the seven year period following the date of accession. In the absence of such notification, Articles 1 to 6 of Regulation (EEC) No 1612/68 shall apply.

6. During the seven year period following the date of accession, those Member States in which, by virtue of paragraphs 3, 4 or 5, Articles 1 to 6 of Regulation (EEC) No 1612/68 apply as regards Bulgarian nationals, and which are issuing work permits to nationals of Bulgaria for monitoring purposes during this period, will do so automatically.

7. Those Member States in which, by virtue of paragraphs 3, 4 or 5, Articles 1 to 6 of Regulation (EEC) No 1612/68 apply as regards Bulgarian nationals, may resort to the procedures set out in the subparagraphs below until the end of the seven year period following the date of accession.

When a Member State referred to in the first subparagraph undergoes or foresees disturbances on its labour market which could seriously threaten the standard of living or level of employment in a given region or occupation, that Member State shall inform the Commission and the other Member States thereof and shall supply them with all relevant particulars. On the basis of this information, the Member State may request the Commission to state that the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 be wholly or partially suspended in order to restore to normal the situation in that region or occupation. The Commission shall decide on the suspension and on the duration and scope thereof not later than two weeks after receiving such a request and shall notify the Council of such a decision. Any Member State may, within two weeks from the date of the Commission's Decision, request the Council to annul or amend the Decision. The Council shall act on such a request within two weeks, by qualified majority.

A Member State referred to in the first subparagraph may, in urgent and exceptional cases, suspend the application of Articles 1 to 6 of Regulation (EEC) No 1612/68, followed by a reasoned ex-post notification to the Commission.

8. As long as the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 is suspended by virtue of paragraphs 2 to 5 and 7 above, Article 23 of Directive 2004/38/EC shall apply in Bulgaria with regard to nationals of the present Member States, and in the present Member States with regard to Bulgarian nationals, under the following conditions, so far as the right of family members of workers to take up employment is concerned:

— the spouse of a worker and their descendants who are under 21 years of age or are dependants, legally residing with the worker in the territory of a Member State at the date of accession, shall have, upon accession, immediate access to the labour market of that Member State. This does not apply to family members of a worker legally admitted to the labour market of that Member State for a period of less than 12 months;

— the spouse of a worker and their descendants who are under 21 years of age or are dependants, legally residing with the worker in the territory of a Member State from a date later than the date of accession, but during the period of application of the transitional provisions laid down above, shall have access to the labour market of the Member State concerned once they have been resident in the Member State concerned for at least eighteen months or from the third year following the date of accession, whichever is the earlier.

These provisions shall be without prejudice to more favourable measures whether national or resulting from bilateral agreements.
9. Insofar as provisions of Directive 2004/38/EC which take over provisions of Directive 68/360/EEC (1) may not be dissociated from those of Regulation (EEC) No 1612/68 whose application is deferred pursuant to paragraphs 2 to 5 and 7 and 8, Bulgaria and the present Member States may derogate from those provisions to the extent necessary for the application of paragraphs 2 to 5 and 7 and 8.

10. Whenever national measures, or those resulting from bilateral agreements, are applied by the present Member States by virtue of the transitional provisions laid down above, Bulgaria may maintain in force equivalent measures with regard to the nationals of the Member State or States in question.

11. If the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 is suspended by any of the present Member States, Bulgaria may resort to the procedures laid down in paragraph 7 with respect to Romania. During any such period work permits issued by Bulgaria for monitoring purposes to nationals of Romania shall be issued automatically.

12. Any present Member State applying national measures in accordance with paragraphs 2 to 5 and 7 to 9, may introduce, under national law, greater freedom of movement than that existing at the date of accession, including full labour market access. From the third year following the date of accession, any present Member State applying national measures may at any time decide to apply Articles 1 to 6 of Regulation (EEC) No 1612/68 instead. The Commission shall be informed of any such decision.

13. In order to address serious disturbances or the threat thereof in specific sensitive service sectors on their labour markets, which could arise in certain regions from the transnational provision of services, as defined in Article 1 of Directive 96/71/EC, and as long as they apply, by virtue of the transitional provisions laid down above, national measures or those resulting from bilateral agreements to the free movement of Bulgarian workers, Germany and Austria may, after notifying the Commission, derogate from the first paragraph of Article 49 of the EC Treaty with a view to limit in the context of the provision of services by companies established in Bulgaria, the temporary movement of workers whose right to take up work in Germany and Austria is subject to national measures.

The list of service sectors which may be covered by this derogation is as follows:

To the extent that Germany or Austria derogate from the first paragraph of Article 49 of the EC Treaty in accordance with the preceding subparagraphs, Bulgaria may, after notifying the Commission, take equivalent measures.

The effect of the application of this paragraph shall not result in conditions for the temporary movement of workers in the context of the transnational provision of services between Germany or Austria and Bulgaria which are more restrictive than those prevailing on the date of signature of the Treaty of Accession.

14. The effect of the application of paragraphs 2 to 5 and 7 to 12 shall not result in conditions for access of Bulgarian nationals to the labour markets of the present Member States which are more restrictive than those prevailing on the date of signature of the Treaty of Accession.

Notwithstanding the application of the provisions laid down in paragraphs 1 to 13, the present Member States shall, during any period when national measures or those resulting from bilateral agreements are applied, give preference to workers who are nationals of the Member States over workers who are nationals of third countries as regards access to their labour market.

Bulgarian migrant workers and their families legally resident and working in another Member State or migrant workers from other Member States and their families legally resident and working in Bulgaria shall not be treated in a more restrictive way than those from third countries resident and working in that Member State or Bulgaria respectively. Furthermore, in application of the principle of Community preference, migrant workers from third countries resident and working in Bulgaria shall not be treated more favourably than nationals of Bulgaria.
2. FREEDOM TO PROVIDE SERVICES

By way of derogation from Article 4(1) of Directive 97/9/EC, the minimum level of compensation shall not apply in Bulgaria until 31 December 2009. Bulgaria shall ensure that its investor-compensation scheme provides for cover of not less than EUR 12 000 from 1 January 2007 until 31 December 2007 and of not less than EUR 15 000 from 1 January 2008 until 31 December 2009.

During the transitional period the other Member States will retain the right to prevent a branch of a Bulgarian investment firm established on their territories from operating unless and until such a branch has joined an officially recognised investor-compensation scheme within the territory of the Member State concerned in order to cover the difference between the Bulgarian level of compensation and the minimum level referred to in Article 4(1) of Directive 97/9/EC.

3. FREE MOVEMENT OF CAPITAL

Treaty on European Union,

Treaty establishing the European Community.

1. Notwithstanding the obligations under the Treaties on which the European Union is founded, Bulgaria may maintain in force for five years from the date of accession the restrictions laid down in its legislation, existing at the time of signature of the Treaty of Accession, on the acquisition of ownership over land for secondary residences by nationals of the Member States or the States which are a party to the European Economic Area Agreement (EEAA) non-resident in Bulgaria and by legal persons formed in accordance with the laws of another Member State or of an EEAA State.

Nationals of the Member States and nationals of the States which are a party to the European Economic Area Agreement who are legally resident in Bulgaria shall not be subject to the provisions of the preceding subparagraph or to any rules and procedures other than those to which nationals of Bulgaria are subject.

2. Notwithstanding the obligations under the Treaties on which the European Union is founded, Bulgaria may maintain in force for seven years from the date of accession the restrictions laid down in its legislation, existing at the time of signature of the Treaty of Accession, on the acquisition of agricultural land, forests and forestry land by nationals of another Member State, by nationals of the States which are a party to the European Economic Area Agreement and by legal persons formed in accordance with the laws of another Member State or an EEAA State. In no instance may a national of a Member State be treated less favourably in respect of the acquisition of agricultural land, forests and forestry land than at the date of signature of the Accession Treaty or be treated in a more restrictive way than a national of a third country.

Self-employed farmers who are nationals of another Member State and who wish to establish themselves and legally reside in Bulgaria, shall not be subject to the provisions of the preceding subparagraph or to any procedures other than those to which nationals of Bulgaria are subject.

A general review of these transitional measures shall be held in the third year following the date of accession. To this effect, the Commission shall submit a report to the Council. The Council may, acting unanimously on a proposal from the Commission, decide to shorten or terminate the transitional period indicated in the first subparagraph.
4. AGRICULTURE

A. AGRICULTURAL LEGISLATION

By way of derogation from Article 3(1)(b) and (c) of Regulation (EC) No 2597/97, the requirements relating to fat content shall not apply to drinking milk produced in Bulgaria until 30 April 2009, in that milk with a fat content of 3 % (m/m) may be marketed as whole milk, and milk with a fat content of 2 % (m/m) may be marketed as semi-skimmed milk. Drinking milk which does not comply with the requirements relating to fat content may be marketed only in Bulgaria or exported to third countries.

B. VETERINARY AND PHYTOSANITARY LEGISLATION

(a) The milk processing establishments listed in Chapters I and II of the Appendix to this Annex may until 31 December 2009 receive deliveries of raw milk that does not comply with or has not been handled in accordance with the requirements in Regulation (EC) No 853/2004, Annex III, Section IX, Chapter I, subchapters II and III provided that those farms from which the milk is delivered are mentioned on a list maintained for that purpose by the Bulgarian authorities.

(b) As long as the establishments referred to in paragraph (a) above benefit from the provisions of that paragraph, products originating from those establishments shall only be placed on the domestic market or used for further processing in establishments in Bulgaria also covered by the provisions of paragraph (a), irrespective of the date of marketing. These products must bear a different identification mark to that provided for in Article 5 of Regulation (EC) No 853/2004.

(c) The establishments listed in Chapter II of the Appendix to this Annex may until 31 December 2009 process EU compliant and EU non-compliant milk on separate production lines. In this context EU non-compliant milk is understood as the milk referred to in paragraph (a). Such establishments must fully comply with the EU requirements for establishments, including the implementation of the Hazard Analysis and Critical Control Point (HACCP) principles (referred to in Article 5 of Regulation (EC) No 852/2004 (1)) and must demonstrate their capacity to fully comply with the following conditions, including designating their relevant production lines:

— take all necessary measures to allow for the proper observance of in-house procedures for the separation of milk starting from collection up to the final product stage, including routes of milk collection, separate storage and treatment of EU compliant and non-compliant milk, specific packaging and labelling of products based on EU non-compliant milk as well as separate storage of such products,

— establish a procedure ensuring raw material traceability, including the necessary documentary evidence of product movements and the accountancy for products and reconciliation of compliant and non-compliant raw materials with the categories of products produced,

— expose all raw milk to heat treatment at a temperature of minimum 71.7 °C for 15 seconds, and

— take all appropriate measures to ensure that the identification marks are not used fraudulently.

The Bulgarian authorities shall:

— ensure that the operator or manager of each establishment concerned takes all necessary measures to allow for the proper observance of in-house procedures for the separation of milk;

— conduct tests and unannounced controls relating to the observance of milk separation; and

— conduct tests in approved laboratories on all raw and finished products to verify their compliance with the requirements of Regulation (EC) No 853/2004, Annex III, Section IX, Chapter II, including the microbiological criteria for milk-based products.

The milk and/or milk-based products originating from separate production lines processing EU non-compliant raw milk in EU-approved milk processing establishments may only be placed on the market subject to the conditions laid down in paragraph (b). Products based on compliant raw milk processed on a separate production line in an establishment listed in Chapter II of the Appendix to this Annex can be marketed as compliant products as long as all conditions regarding separation of product lines are maintained.

(d) Milk and milk products produced under the provisions referred to in paragraph (c) shall only be granted support under Title I, Chapters II and III, except Article 11 thereof, and Title II of Regulation (EC) No 1255/1999 (1) if they carry the oval identification mark referred to in Annex II, Section I of Regulation (EC) No 853/2004.

(e) Bulgaria shall ensure gradual compliance with the requirements referred to in paragraph (a) and shall submit annual reports to the Commission on progress made in upgrading dairy farms and the milk collection system. Bulgaria shall ensure that these requirements are fully complied with by 31 December 2009.

(f) The Commission may, in accordance with the procedure referred to in Article 58 of Regulation (EC) No 178/2002 (2), update the Appendix to this Annex before accession and until 31 December 2009 and in this context add or delete individual establishments in the light of progress made in the correction of existing shortcomings and the outcome of the monitoring process.

Detailed implementation rules to ensure the smooth operation of the above transitional regime may be adopted in accordance with the procedure referred to in Article 58 of Regulation (EC) No 178/2002.

5. TRANSPORT POLICY

1. 31993 R 3118: Council Regulation (EEC) No 3118/93 of 25 October 1993 laying down the conditions under which non-resident carriers may operate national road haulage services within a Member State (OJ L 279, 12.11.1993, p. 1), as last amended by:

(a) By way of derogation from Article 1 of Regulation (EEC) No 3118/93 and until the end of the third year following the date of accession, carriers established in Bulgaria shall be excluded from the operation of national road haulage services in the other Member States, and carriers established in the other Member States shall be excluded from the operation of national road haulage services in Bulgaria.

(b) Before the end of the third year following the date of accession, Member States shall notify the Commission whether they will prolong this period for a maximum of two years or whether they will fully apply Article 1 of the Regulation henceforth. In the absence of such notification, Article 1 of the Regulation shall apply. Only carriers established in those Member States in which Article 1 of the Regulation applies may perform national road haulage services in those other Member States in which Article 1 also applies.

(c) Those Member States in which, by virtue of paragraph (b) above, Article 1 of the Regulation applies, may resort to the procedure set out below until the end of the fifth year following the date of accession.

When a Member State referred to in the preceding subparagraph undergoes a serious disturbance of its national market or parts thereof due to or aggravated by cabotage, such as serious excess of supply over demand or a threat to the financial stability or survival of a significant number of road haulage undertakings, that Member State shall inform the Commission and the other Member States thereof and shall supply them with all relevant particulars. On the basis of this information, the Member State may request the Commission to suspend, in whole or in part, the application of Article 1 of the Regulation, in order to restore to normal the situation.

The Commission shall examine the situation on the basis of data provided by the Member State concerned and shall decide within one month of receipt of the request on the need for the adoption of safeguard measures. The procedure laid down in the second, third and fourth subparagraphs of paragraph 3, as well as paragraphs 4, 5 and 6 of Article 7 of the Regulation shall apply.

A Member State referred to in the first subparagraph above may, in urgent and exceptional cases, suspend the application of Article 1 of the Regulation, followed by a reasoned ex-post notification to the Commission.

(d) As long as Article 1 of the Regulation is not applied by virtue of paragraphs (a) and (b) above, Member States may regulate access to their national road haulage services by progressively exchanging cabotage authorisations on the basis of bilateral agreements. This may include the possibility of full liberalisation.

(e) The effect of the application of paragraphs (a) to (c) shall not lead to more restrictive access to national road haulage services than that prevailing on the date of signature of the Treaty of Accession.

2. 31996 L 0026: Council Directive 96/26/EC of 29 April 1996 on admission to the occupation of road haulage operator and road passenger transport operator and mutual recognition of diplomas, certificates and other evidence of formal qualifications intended to facilitate for these operators the right to freedom of establishment in national and international transport operations (OJ L 124, 23.5.1996, p. 1), as last amended by:

Until 31 December 2010, Article 3(3)(c) of Directive 96/26/EC shall not apply in Bulgaria to transport undertakings engaged exclusively in domestic road haulage and passenger transport operations.

The available capital and the reserves of those undertakings shall gradually reach the minimum rates laid down in that Article in accordance with the following schedule:

— by 1 January 2007, the undertaking must have available capital and reserves of at least EUR 5 850 for the first and at least EUR 3 250 for each additional vehicle;

— by 1 January 2008, the undertaking must have available capital and reserves of at least EUR 6 750 for the first and at least EUR 3 750 for each additional vehicle;

— by 1 January 2009, the undertaking must have available capital and reserves of at least EUR 7 650 for the first and at least EUR 4 250 for each additional vehicle;

— by 1 January 2010, the undertaking must have available capital and reserves of at least EUR 8 550 for the first and at least EUR 4 750 for each additional vehicle.

By way of derogation from Article 3(1) of Directive 96/53/EC, vehicles complying with the limit values of categories 3.2.1, 3.4.1, 3.4.2, and 3.5.1 specified in Annex I to that Directive may only use non-upgraded parts of the Bulgarian road network until 31 December 2013 if they comply with Bulgarian axle-weight limits.

As from the date of accession, no restrictions may be imposed on the use, by vehicles complying with the requirements of Directive 96/53/EC, of the main transit routes set out in Annex I to Decision No 1692/96/EC of the European Parliament and of the Council of 23 July 1996 on Community guidelines for the development of the trans-European transport network (1).

Bulgaria shall adhere to the timetable set out in the tables below for the upgrading of its main road network. Any infrastructure investments involving the use of funds from the Community budget shall ensure that the arteries are constructed or upgraded to a load bearing capacity of 11.5 tonnes per axle.

In line with the completion of the upgrading, there shall be a progressive opening of the Bulgarian road network, including the network as contained in Annex I to Decision No 1692/96/EC, for vehicles in international traffic complying with the limit values of the Directive. For the purpose of loading and unloading, where technically possible, the use of non-upgraded parts of the secondary road network shall be allowed during the entire transitional period.

As from the date of accession, all vehicles in international traffic fitted with air-suspension complying with the limit values of Directive 96/53/EC shall not be subject to any temporary additional charges on the entire Bulgarian road transport network.

Temporary additional charges for using non-upgraded parts of the network with vehicles in international traffic not fitted with air-suspension and complying with the limit values of the Directive shall be levied in a non-discriminatory manner. The charging regime shall be transparent, and payment of these charges shall not place an undue administrative burden or delay on the user, nor shall the payment of these charges lead to a systematic check of axle load limits at the border. Enforcement of axle load limits shall be assured in a non-discriminatory manner throughout the territory and be effective also as regards vehicles registered in Bulgaria.

6. TAXATION

For the purposes of applying Article 28(3)(b) of Directive 77/388/EEC, Bulgaria may maintain an exemption from value added tax on international transport of passengers, referred to in point 17 of Annex F to the Directive, until the condition set out in Article 28(4) of the Directive is fulfilled or for as long as the same exemption is applied by any of the present Member States, whichever is the earlier.

By way of derogation from Article 2(1) of Directive 92/79/EEC, Bulgaria may postpone the application of the overall minimum excise duty on the retail selling price (inclusive of all taxes) for cigarettes of the price category most in demand until 31 December 2009, provided that during this period Bulgaria gradually adjusts its excise duty rates towards the overall minimum excise duty provided for in the Directive.
Without prejudice to Article 8 of Council Directive 92/12/EEC of 25 February 1992 on the general arrangements for products subject to excise duty and on the holding, movement and monitoring of such products (1), and having informed the Commission, Member States may, as long as the above derogation applies, maintain the same quantitative limits for cigarettes which may be brought into their territories from Bulgaria without further excise duty payment as those applied to imports from third countries. Member States making use of this possibility may carry out the necessary checks provided that these checks do not affect the proper functioning of the internal market.

Bulgaria shall be authorised not to apply the provisions of Article 1 of Directive 2003/49/EC until 31 December 2014. During that transitional period, the rate of tax on payments of interest or royalties made to an associated company of another Member State or to a permanent establishment situated in another Member State of an associated company of a Member State must not exceed 10 % until 31 December 2010 and must not exceed 5 % for the following years until 31 December 2014.

(a) By way of derogation from Article 7 of Directive 2003/96/EC, Bulgaria may apply the following transitional periods:

— until 1 January 2011 to adjust the national level of taxation on unleaded petrol used as propellant to the minimum level of EUR 359 per 1 000 l. The effective tax rate applied to unleaded petrol used as propellant shall not be less than EUR 323 per 1 000 l as from 1 January 2008,

— until 1 January 2010 to adjust the national level of taxation on gas oil and kerosene used as propellant to the minimum level of EUR 302 per 1 000 l and until 1 January 2013 to reach the minimum level of EUR 330 per 1 000 l. The effective tax rate applied to gas oil and kerosene used as propellant shall not be less than EUR 274 per 1 000 l as from 1 January 2008.

(b) By way of derogation from Article 9 of Directive 2003/96/EC, Bulgaria may apply the following transitional periods:

— until 1 January 2010 to adjust the national level of taxation on coal and coke used for district heating purposes to the minimum levels of taxation laid down in Annex I, Table C,

— until 1 January 2009 to adjust the national level of taxation on coal and coke used for purposes other than district heating to the minimum levels of taxation laid down in Annex I, Table C.

The effective tax rates applied to the energy products concerned shall not be less than 50 % of the relevant Community minimum rate as from 1 January 2007.

By way of derogation from Article 10 of Directive 2003/96/EC, Bulgaria may apply a transitional period until 1 January 2010 to adjust the national levels of taxation on electricity to the minimum levels of taxation laid down in Annex I, Table C. The effective tax rates applied to electricity shall not be less than 50 % of the relevant Community minimum rate as from 1 January 2007.

7. **SOCIAL POLICY AND EMPLOYMENT**

By way of derogation from Article 3 of Directive 2001/37/EC, the date of application of the maximum tar yield of cigarettes manufactured and marketed within the territory of Bulgaria, shall be 1 January 2011. During the transitional period:

— cigarettes manufactured in Bulgaria with a tar yield greater than 10 mg per cigarette shall not be marketed in other Member States;

— cigarettes manufactured in Bulgaria with a tar yield greater than 13 mg per cigarette shall not be exported to third countries; this limit shall be reduced to 12 mg from 1 January 2008 and to 11 mg from 1 January 2010;

— Bulgaria shall provide the Commission with regularly updated information on the timetable and measures taken to ensure compliance with the Directive.

8. **ENERGY**

By way of derogation from Article 1(1) of Directive 68/414/EEC, the minimum level of stocks of petroleum products shall not apply in Bulgaria until 31 December 2012. Bulgaria shall ensure that its minimum level of stocks of petroleum products corresponds, for each of the categories of petroleum products listed in Article 2, to at least the following number of days’ average daily internal consumption as defined in Article 1(1):

— 30 days by 1 January 2007;

— 40 days by 31 December 2007;

— 50 days by 31 December 2008;

— 60 days by 31 December 2009;

— 70 days by 31 December 2010;

— 80 days by 31 December 2011;

— 90 days by 31 December 2012.

By way of derogation from Article 30(1) of Directive 2002/22/EC, Bulgaria may postpone the introduction of number portability to no later than 1 January 2009.

ANNEX VII

List referred to in Article 23 of the Act of Accession: Transitional measures, Romania

1. FREEDOM OF MOVEMENT FOR PERSONS

Treaty establishing the European Community

1. Article 39 and the first paragraph of Article 49 of the EC Treaty shall fully apply only, in relation to the freedom of movement of workers and the freedom to provide services involving temporary movement of workers as defined in Article 1 of Directive 96/71/EC between Romania on the one hand, and each of the present Member States on the other hand, subject to the transitional provisions laid down in paragraphs 2 to 14.

2. By way of derogation from Articles 1 to 6 of Regulation (EEC) No 1612/68 and until the end of the two year period following the date of accession, the present Member States will apply national measures, or those resulting from bilateral agreements, regulating access to their labour markets by Romanian nationals. The present Member States may continue to apply such measures until the end of the five year period following the date of accession.

Romanian nationals legally working in a present Member State at the date of accession and admitted to the labour market of that Member State for an uninterrupted period of 12 months or longer will enjoy access to the labour market of that Member State but not to the labour market of other Member States applying national measures.

Romanian nationals admitted to the labour market of a present Member State following accession for an uninterrupted period of 12 months or longer shall also enjoy the same rights.

The Romanian nationals mentioned in the second and third subparagraphs above shall cease to enjoy the rights contained in those subparagraphs if they voluntarily leave the labour market of the present Member State in question.

Romanian nationals legally working in a present Member State at the date of accession, or during a period when national measures are applied, and who were admitted to the labour market of that Member State for a period of less than 12 months shall not enjoy these rights.

3. Before the end of the two year period following the date of accession, the Council shall review the functioning of the transitional provisions laid down in paragraph 2, on the basis of a report from the Commission.
On completion of this review, and no later than at the end of the two year period following the date of accession, the present Member States shall notify the Commission whether they will continue applying national measures or measures resulting from bilateral agreements, or whether they will apply Articles 1 to 6 of Regulation (EEC) No 1612/68 henceforth. In the absence of such notification, Articles 1 to 6 of Regulation (EEC) No 1612/68 shall apply.

4. Upon the request of Romania, one further review may be held. The procedure referred to in paragraph 3 shall apply and shall be completed within six months of receipt of the request from Romania.

5. A Member State maintaining national measures or measures resulting from bilateral agreements at the end of the five year period indicated in paragraph 2 may, in case of serious disturbances of its labour market or threat thereof and after notifying the Commission, continue to apply these measures until the end of the seven year period following the date of accession. In the absence of such notification, Articles 1 to 6 of Regulation (EEC) No 1612/68 shall apply.

6. During the seven year period following the date of accession, those Member States in which, by virtue of paragraphs 3, 4 or 5, Articles 1 to 6 of Regulation (EEC) No 1612/68 apply as regards Romanian nationals, and which are issuing work permits to nationals of Romania for monitoring purposes during this period, will do so automatically.

7. Those Member States in which, by virtue of paragraph 3, 4 or 5, Articles 1 to 6 of Regulation (EEC) No 1612/68 apply as regards Romanian nationals, may resort to the procedures set out in the subparagraphs below until the end of the seven year period following the date of accession.

When a Member State referred to in the first subparagraph undergoes or foresees disturbances on its labour market which could seriously threaten the standard of living or level of employment in a given region or occupation, that Member State shall inform the Commission and the other Member States thereof and shall supply them with all relevant particulars. On the basis of this information, the Member State may request the Commission to state that the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 be wholly or partially suspended in order to restore to normal the situation in that region or occupation. The Commission shall decide on the suspension and on the duration and scope thereof not later than two weeks after receiving such a request and shall notify the Council of such a decision. Any Member State may, within two weeks from the date of the Commission's Decision, request the Council to annul or amend the Decision. The Council shall act on such a request within two weeks, by qualified majority.

A Member State referred to in the first subparagraph may, in urgent and exceptional cases, suspend the application of Articles 1 to 6 of Regulation (EEC) No 1612/68, followed by a reasoned ex-post notification to the Commission.

8. As long as the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 is suspended by virtue of paragraphs 2 to 5 and 7 above, Article 23 of Directive 2004/38/EC shall apply in Romania with regard to nationals of the present Member States, and in the present Member States with regard to Romanian nationals, under the following conditions, so far as the right of family members of workers to take up employment is concerned:

— the spouse of a worker and their descendants who are under 21 years of age or are dependants, legally residing with the worker in the territory of a Member State at the date of accession, shall have, upon accession, immediate access to the labour market of that Member State. This does not apply to family members of a worker legally admitted to the labour market of that Member State for a period of less than 12 months;

— the spouse of a worker and their descendants who are under 21 years of age or are dependants, legally residing with the worker in the territory of a Member State from a date later than the date of accession, but during the period of application of the transitional provisions laid down above, shall have access to the labour market of the Member State concerned once they have been resident in the Member State concerned for at least eighteen months or from the third year following the date of accession, whichever is the earlier.

These provisions shall be without prejudice to more favourable measures whether national or resulting from bilateral agreements.
9. Insofar as provisions of Directive 2004/38/EC which take over provisions of Directive 68/360/EEC (1) may not be dissociated from those of Regulation (EEC) No 1612/68 whose application is deferred pursuant to paragraphs 2 to 5 and 7 and 8, Romania and the present Member States may derogate from those provisions to the extent necessary for the application of paragraphs 2 to 5 and 7 and 8.

10. Whenever national measures, or those resulting from bilateral agreements, are applied by the present Member States by virtue of the transitional provisions laid down above, Romania may maintain in force equivalent measures with regard to the nationals of the Member State or States in question.

11. If the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 is suspended by any of the present Member States, Romania may resort to the procedures laid down in paragraph 7 with respect to Bulgaria. During any such period work permits issued by Romania for monitoring purposes to nationals of Bulgaria shall be issued automatically.

12. Any present Member State applying national measures in accordance with paragraphs 2 to 5 and 7 to 9, may introduce, under national law, greater freedom of movement than that existing at the date of accession, including full labour market access. From the third year following the date of accession, any present Member State applying national measures may at any time decide to apply Articles 1 to 6 of Regulation (EEC) No 1612/68 instead. The Commission shall be informed of any such decision.

13. In order to address serious disturbances or the threat thereof in specific sensitive service sectors on their labour markets, which could arise in certain regions from the transnational provision of services, as defined in Article 1 of Directive 96/71/EC, and as long as they apply, by virtue of the transitional provisions laid down above, national measures or those resulting from bilateral agreements to the free movement of Romanian workers, Germany and Austria may, after notifying the Commission, derogate from the first paragraph of Article 49 of the EC Treaty with a view to limit in the context of the provision of services by companies established in Romania, the temporary movement of workers whose right to take up work in Germany and Austria is subject to national measures.

The list of service sectors which may be covered by this derogation is as follows:

To the extent that Germany or Austria derogate from the first paragraph of Article 49 of the EC Treaty in accordance with the preceding subparagraphs, Romania may, after notifying the Commission, take equivalent measures.

The effect of the application of this paragraph shall not result in conditions for the temporary movement of workers in the context of the transnational provision of services between Germany or Austria and Romania which are more restrictive than those prevailing on the date of signature of the Treaty of Accession.

14. The effect of the application of paragraphs 2 to 5 and 7 to 12 shall not result in conditions for access of Romanian nationals to the labour markets of the present Member States which are more restrictive than those prevailing on the date of signature of the Treaty of Accession.

Notwithstanding the application of the provisions laid down in paragraphs 1 to 13, the present Member States shall, during any period when national measures or those resulting from bilateral agreements are applied, give preference to workers who are nationals of the Member States over workers who are nationals of third countries as regards access to their labour market.

Romanian migrant workers and their families legally resident and working in another Member State or migrant workers from other Member States and their families legally resident and working in Romania shall not be treated in a more restrictive way than those from third countries resident and working in that Member State or Romania respectively. Furthermore, in application of the principle of Community preference, migrant workers from third countries resident and working in Romania shall not be treated more favourably than nationals of Romania.

2. FREEDOM TO PROVIDE SERVICES

By way of derogation from Article 4(1) of Directive 97/9/EC, the minimum level of compensation shall not apply in Romania until 31 December 2011. Romania shall ensure that its investor-compensation scheme provides for cover of not less than EUR 4 500 from 1 January 2007 until 31 December 2007, of not less than EUR 7 000 from 1 January 2008 until 31 December 2008, of not less than EUR 9 000 from 1 January 2009 until 31 December 2009, of not less than EUR 11 000 from 1 January 2010 until 31 December 2010 and of not less than EUR 15 000 from 1 January 2011 until 31 December 2011.

During the transitional period the other Member States will retain the right to prevent a branch of a Romanian investment firm established on their territories from operating unless and until such a branch has joined an officially recognised investor-compensation scheme within the territory of the Member State concerned in order to cover the difference between the Romanian level of compensation and the minimum level referred to in Article 4(1) of Directive 97/9/EC.

3. **FREE MOVEMENT OF CAPITAL**

**Treaty on European Union,**

**Treaty establishing the European Community.**

1. Notwithstanding the obligations under the Treaties on which the European Union is founded, Romania may maintain in force for five years from the date of accession the restrictions laid down in its legislation, existing at the time of signature of the Treaty of Accession, on the acquisition of ownership over land for secondary residences by nationals of the Member States or the States which are a party to the European Economic Area Agreement (EEAA) non-resident in Romania and by companies formed in accordance with the laws of another Member State or of an EEAA State and being neither established nor having a branch or a representative agency in the territory of Romania.

   Nationals of the Member States and nationals of the States which are a party to the European Economic Area Agreement who are legally resident in Romania shall not be subject to the provisions of the preceding subparagraph or to any rules and procedures other than those to which nationals of Romania are subject.

2. Notwithstanding the obligations under the Treaties on which the European Union is founded, Romania may maintain in force for seven years from the date of accession the restrictions laid down in its legislation, existing at the time of signature of the Treaty of Accession, on the acquisition of agricultural land, forests and forestry land by nationals of the Member States, by nationals of the States which are a party to the European Economic Area Agreement and by companies formed in accordance with the laws of another Member State or an EEAA State which are neither established nor registered in Romania. In no instance may a national of a Member State be treated less favourably in respect of the acquisition of agricultural land, forests and forestry land than at the date of signature of the Accession Treaty or be treated in a more restrictive way than a national of a third country.

   Self-employed farmers who are nationals of another Member State and who wish to establish themselves and reside in Romania, shall not be subject to the provisions of the preceding subparagraph or to any procedures other than those to which nationals of Romania are subject.

A general review of these transitional measures shall be held in the third year following the date of accession. To this effect, the Commission shall submit a report to the Council. The Council may, acting unanimously on a proposal from the Commission, decide to shorten or terminate the transitional period indicated in the first subparagraph.

— the terms set out in the national restructuring programme and the individual business plans on the basis of which the above mentioned Protocol was extended are adhered to throughout the period 2002-2008,

— the conditions set out in these provisions and in Appendix A are met,

— no State aid in any form is granted or paid to the steel mills covered by the national restructuring programme from 1 January 2005 to 31 December 2008, the end of the restructuring period, and

— no State aid for restructuring is granted or paid to the Romanian steel sector after 31 December 2004. For the purpose of these provisions and Appendix A, State aid for restructuring is to be understood as any measure concerning steel companies that constitutes State aid within the meaning of Article 87(1) of the EC Treaty and that cannot be held to be compatible with the common market in accordance with the normal rules applied in the Community.

2. Only the companies listed in Appendix A, Part I, (hereinafter referred to as the ‘benefiting companies’) shall be eligible for State aid in the framework of the Romanian steel restructuring programme.

3. Restructuring of the Romanian steel sector, as described in the individual business plans of the benefiting companies and in the national restructuring programme, and in line with the conditions set out in these provisions and in Appendix A, shall be completed no later than 31 December 2008 (hereinafter referred to as ‘the end of the restructuring period’).

4. A benefiting company may not:

(a) in the case of a merger with a company not listed in Appendix A, Part I, pass on the benefit of the aid granted to the benefiting company;

(b) take over the assets of any company not listed in Appendix A, Part I, and pass on the benefit of aid granted to it in the period up to 31 December 2008.

5. Any subsequent changes in the ownership of any of the benefiting companies shall respect the conditions and principles regarding viability, State aids and capacity reduction defined in these provisions and in Appendix A.

6. Companies not listed as ‘benefiting companies’ under Appendix A, Part I, shall not benefit from State aid for restructuring or any other aid not deemed compatible with Community State aid rules and shall not be required to reduce capacity in this context. Any capacity cuts within these companies shall not count towards the minimum reduction.

7. The total amount of gross restructuring aid to be approved for the benefiting companies shall be determined by the justifications for each and every aid measure provided in the final national restructuring programme and individual business plans to be approved by the Romanian authorities and subject to final verification of fulfilment of the criteria laid out in Article 9(4) of Protocol 2 to the Europe Agreement and approval by the Council. In any case, the total amount of gross restructuring aid granted and paid in the period 1993-2004 shall not exceed ROL 49 985 billion. Within this overall ceiling, the following sub-ceilings or maximum amounts of State aid granted and paid to each benefiting company in the period 1993-2004 shall apply:

The State aid shall lead to the viability of the benefiting companies under normal market conditions at the end of the restructuring period. The amount and intensity of such aid are to be strictly limited to what is absolutely necessary in order to restore such viability. The viability shall be determined taking into account the benchmarks described in Appendix A, Part III.

No further State aid shall be granted by Romania for restructuring purposes to the Romanian steel industry.

8. The total net capacity reductions for finished products to be achieved by the benefiting companies during the period 1993-2008 shall be a minimum of 2,05 million tonnes.

These capacity reductions shall be measured on the basis of permanent closure by physical destruction of the hot-rolled steel facilities concerned, such that the facilities cannot be restored to service. A declaration of bankruptcy of a benefiting company shall not qualify as a capacity reduction (1).

(1) Capacity reductions shall be permanent as defined in Commission Decision No 3010/91/ECSC (OJ L 286, 6.10.1991, p. 20.)
The minimum net capacity reduction of 2,05 million tonnes and the dates for both cessation of production and the permanent closure of the facilities covered, shall be achieved in line with the timetable set out in Appendix A, Part II.

9. The individual business plans shall have the written endorsement of the benefiting companies. They shall be implemented and in particular include:

(a) For Ispat Sidex Galaţi:

   (i) the implementation of the investment programme for the modernisation of the works, improvement of yields, reduction of costs (especially energy consumption), and improvement of quality

   (ii) the move into higher-value added steel flat product market segments

   (iii) the improvement of operational efficiency and organisational management

   (iv) the completion of the financial restructuring of the company

   (v) the implementation of the investments necessary to comply with environmental legislation

(b) For Siderurgica Hunedoara:

   (i) the modernisation of the facilities in order to achieve the envisaged sales plan

   (ii) the improvement of operational efficiency and organisational management

   (iii) the implementation of the investments necessary to comply with environmental legislation

(c) For IS Câmpia Turzii:

   (i) the increase of the output of higher value-added and transformed products

   (ii) the implementation of the investment programme in order to improve production quality

(d) For CS Reşiţa:

   (i) the specialisation on semi-finished products to supply the local pipe sector

   (ii) the closure of inefficient capacities

   (iii) the implementation of the investments necessary to comply with environmental legislation
(c) For COS Târgovişte:

(i) the increase of the share of higher value-added products

(ii) the implementation of the investment programme in order to achieve cost reductions, higher efficiency and quality improvement

(iii) the implementation of the investments necessary to comply with environmental legislation

(f) For Donasid Călăraşi:

(i) the implementation of the investment programme for the modernisation of the works

(ii) the increase of the share of finished products

(iii) the implementation of the investments necessary to comply with environmental legislation.

10. Any subsequent changes in the national restructuring programme and the individual business plans must be agreed by the Commission, and where appropriate, by the Council.

11. The implementation of the restructuring shall take place under conditions of full transparency and on the basis of sound market economy principles.

12. The Commission and the Council shall closely monitor the implementation of the restructuring programme and individual business plans, as well as the fulfilment of the conditions set out in these provisions and in Appendix A before and after accession until 2009. In particular, the Commission shall monitor the main commitments and provisions set out in paragraphs 7 and 8 concerning State aid, viability and capacity reductions, using in particular the restructuring benchmarks set out in paragraph 9 and in Appendix A, Part III. For this purpose, the Commission shall report to the Council.

13. Monitoring shall include an independent evaluation to be carried out annually in each of the years 2005 to 2009.

14. Romania shall cooperate fully with all the arrangements for monitoring. In particular:

— Romania shall submit 6-monthly reports to the Commission no later than 15 March and 15 September of each year, unless the Commission decides otherwise. The first report is to be submitted on 15 March 2005 and the last on 15 March 2009;

— these reports shall contain all the information necessary to monitor the restructuring process and the reduction and use of capacity and shall provide sufficient financial data to allow an assessment to be made of whether the conditions and requirements contained in these provisions and in Appendix A have been fulfilled. The reports shall at the least contain the information set out in Appendix A, Part IV, which the Commission reserves the right to modify in line with its experience during the monitoring process. In addition to the individual business reports of the benefiting companies, there shall also be a report on the overall situation of the Romanian steel sector, including recent macroeconomic developments.

— Romania shall oblige the benefiting companies to disclose all relevant data which might, under other circumstances, be considered as confidential. In its reporting to the Council, the Commission shall ensure that company-specific confidential information is not disclosed.
15. A Consultative Committee consisting of representatives of the Romanian authorities and of the Commission shall meet on a 6-monthly basis. Meetings of this Consultative Committee may also take place on an ad hoc basis if deemed necessary by the Commission.

16. If the Commission establishes, on the basis of the monitoring, that substantial deviations from the forecasts of the macroeconomic developments, the financial situation of the benefiting companies or the viability assessment have occurred, it may require Romania to take appropriate measures to reinforce or modify the restructuring measures of the benefiting companies concerned.

17. Should the monitoring show that:

(a) any of the conditions laid down in these provisions and in Appendix A have not been fulfilled, or

(b) any of the commitments made by Romania in the framework of the extension of the period during which Romania may exceptionally grant State aid for the restructuring of its steel industry under the Europe Agreement have not been fulfilled, or

(c) in the course of the restructuring period Romania has granted additional incompatible State aid to the benefiting companies or to any steel company,

the Commission shall take the appropriate steps requiring any company concerned to reimburse any aid granted in breach of the conditions laid down in these provisions and in Appendix A. Where necessary, recourse to the safeguard clauses as laid down in Article 37 of the Act or under Article 39 of the Act shall be made.

5. AGRICULTURE

A. AGRICULTURAL LEGISLATION

By way of derogation from Article 19(1) to (3) of Regulation (EC) No 1493/1999, Romania may recognise replanting rights obtained from the grubbing-up of hybrid varieties that may not be included in the classification of vine varieties, cultivated on an area of 30,000 hectares. These replanting rights may only be used until 31 December 2014 and exclusively for planting with Vitis vinifera.

The restructuring and conversion of these vineyards will not be eligible for Community support provided for under Article 13 of Regulation (EC) No 1493/1999. However, national State aid may be given for the costs resulting from their restructuring and conversion. Such aid may not exceed 75% of all costs per vineyard.

B. VETERINARY AND PHYTOSANITARY LEGISLATION

I. Veterinary legislation

The structural requirements laid down in Regulation (EC) No 852/2004, Annex II, Chapter II and in Regulation (EC) No 853/2004, Annex III, Section I, Chapters II and III, Section II, Chapters II and III, and Section V, Chapter I, shall not apply to establishments in Romania listed in Appendix B to this Annex until 31 December 2009, subject to the conditions laid down below.

As long as the establishments referred to in paragraph (a) above benefit from the provisions of that paragraph, products originating from those establishments shall only be placed on the domestic market or used for further processing in establishments in Romania also covered by the provisions of paragraph (a), irrespective of the date of marketing. These products must bear a different health or identification mark to that provided for in Article 5 of Regulation (EC) No 853/2004.

The previous subparagraph also applies to all products originating from integrated meat establishments where a part of the establishment is subject to the provisions of paragraph (a).

The milk processing establishments listed in Appendix B to this Annex may until 31 December 2009 receive deliveries of raw milk that does not comply with or has not been handled in accordance with the requirements in Regulation (EC) No 853/2004, Annex III, Section IX, Chapter I, subchapters II and III provided that those farms from which the milk is delivered are mentioned on a list maintained for that purpose by the Romanian authorities. Romania shall submit annual reports to the Commission on progress made in upgrading these dairy farms and the milk collection system.

Romania shall ensure gradual compliance with the structural requirements referred to in paragraph (a). Before the date of accession Romania shall submit to the Commission an upgrading plan, approved by the competent national veterinary authority, for each of the establishments covered by the measure laid down by paragraph (a) and listed in Appendix B. The plan shall include a list of all shortcomings with regard to the requirements referred to in paragraph (a) and the planned date of their correction. Romania shall submit annual reports to the Commission on progress made in each of the establishments. Romania shall ensure that only those establishments which fully comply with these requirements by 31 December 2009 may continue to operate.

The Commission may, in accordance with the procedure referred to in Article 58 of Regulation (EC) No 178/2002 (1), update Appendix B to this Annex before accession and until 31 December 2009 and in this context add or delete individual establishments in the light of progress made in the correction of existing shortcomings and the outcome of the monitoring process.

Detailed implementing rules to ensure the smooth operation of the above transitional regime may be adopted in accordance with the procedure referred to in Article 58 of Regulation (EC) No 178/2002.

II. Phytosanitary legislation

By way of derogation from Article 13(1) of Directive 91/414/EEC, Romania may postpone the deadlines for the provision of the information referred to in Annex II and Annex III to Directive 91/414/EEC for plant protection products currently authorised in Romania and marketed exclusively on Romanian territory and containing copper compounds (sulphate, oxychloride or hydroxide), sulphur, acetochlor, dimethoate and 2,4-D, provided that those ingredients are at the time listed in Annex I to that Directive. The abovementioned deadlines may be postponed until no later than 31 December 2009, except for 2,4-D for which the deadline may be postponed until no later than 31 December 2008. The above provisions shall only apply to those applicant companies which effectively started working on the generation or acquisition of the required data before 1 January 2005.

6. TRANSPORT POLICY

1. 31993 R 3118: Council Regulation (EEC) No 3118/93 of 25 October 1993 laying down the conditions under which non-resident carriers may operate national road haulage services within a Member State (OJ L 279, 12.11.1993, p. 1), as last amended by:

(a) By way of derogation from Article 1 of Regulation (EEC) No 3118/93 and until the end of the third year following the date of accession, carriers established in Romania shall be excluded from the operation of national road haulage services in the other Member States, and carriers established in the other Member States shall be excluded from the operation of national road haulage services in Romania.

(b) Before the end of the third year following the date of accession, Member States shall notify the Commission whether they will prolong this period for a maximum of two years or whether they will fully apply Article 1 of the Regulation henceforth. In the absence of such notification, Article 1 of the Regulation shall apply. Only carriers established in those Member States in which Article 1 of the Regulation applies may perform national road haulage services in those other Member States in which Article 1 also applies.

(c) Those Member States in which, by virtue of paragraph (b) above, Article 1 of the Regulation applies, may resort to the procedure set out below until the end of the fifth year following the date of accession.

When a Member State referred to in the preceding subparagraph undergoes a serious disturbance of its national market or parts thereof due to or aggravated by cabotage, such as serious excess of supply over demand or a threat to the financial stability or survival of a significant number of road haulage undertakings, that Member State shall inform the Commission and the other Member States thereof and shall supply them with all relevant particulars. On the basis of this information, the Member State may request the Commission to suspend, in whole or in part, the application of Article 1 of the Regulation, in order to restore to normal the situation.

The Commission shall examine the situation on the basis of data provided by the Member State concerned and shall decide within one month of receipt of the request on the need for the adoption of safeguard measures. The procedure laid down in the second, third and fourth subparagraphs of paragraph 3, as well as paragraphs 4, 5 and 6 of Article 7 of the Regulation shall apply.

A Member State referred to in the first subparagraph above may, in urgent and exceptional cases, suspend the application of Article 1 of the Regulation, followed by a reasoned ex-post notification to the Commission.

(d) As long as Article 1 of the Regulation is not applied by virtue of paragraphs (a) and (b) above, Member States may regulate access to their national road haulage services by progressively exchanging cabotage authorisations on the basis of bilateral agreements. This may include the possibility of full liberalisation.

(e) The effect of the application of paragraphs (a) to (c) shall not lead to more restrictive access to national road haulage services than that prevailing on the date of signature of the Treaty of Accession.

By way of derogation from Article 3(1) of Directive 96/53/EC, vehicles complying with the limit values of category 3.2.1, 3.4.1, 3.4.2, 3.5.1 specified in Annex I to that Directive may only use non-upgraded parts of the Romanian road network until 31 December 2013 if they comply with Romanian axle-weight limits.

As from the date of accession, no restrictions may be imposed on the use, by vehicles complying with the requirements of Directive 96/53/EC, of the main transit routes set out in Annex 5 to the EC/Romania Transport Agreement (1) and Annex I to Decision No 1692/96/EC of the European Parliament and of the Council of 23 July 1996 on Community guidelines for the development of the trans-European transport network (2), which are listed below:

1. Alba Iulia — Turda — Zalău — Satu Mare — Hâmeşu (road E 81)
2. Zalău — Oradea — Borş (roads 1 H and E 60)
3. Măraşesti — Bacău — Suceava — Siret (road E 85)
4. Tişiţa — Tecuci — Huşi — Albiţa (road E 581)
5. Simeria — Haţeg — Rovinari — Craiova — Calafat (road E 79)
7. Craiova — Alexandria — Bucureşti (road 6)
8. Drobeta-Turnu Severin — Calafat (road 56 A)
9. Bucureşti — Buzău (roads E 60/E 85)
10. Bucureşti — Giurgiu (roads E 70/E 85)
11. Braşov — Sibiu (road E 68)
12. Timişoara — Stamora Morăviţa

Romania shall adhere to the timetable set out in the table below for upgrading its secondary road network as shown in the map below. Any infrastructure investments involving the use of funds from the Community budget shall ensure that the arteries are constructed or upgraded to a load bearing capacity of 11.5 tonnes per axle.

In line with the completion of the upgrading, there shall be a progressive opening of the Romanian secondary road network for vehicles in international traffic complying with the limit values of the Directive. For the purpose of loading and unloading, where technically possible, the use of non-upgraded parts of the secondary road network shall be allowed during the entire transitional period.

As from the date of accession, all vehicles in international traffic complying with the limit values of Directive 96/53/EC shall only be subject to temporary additional charges on the secondary Romanian road transport network if they are in excess of national axle-load limits. These vehicles shall not be subject to such temporary additional charges on the secondary Romanian road transport network if they are in excess of national limits in relation to the dimension or total weight of the vehicle. Moreover those vehicles in international traffic complying with the limit values of Directive 96/53/EC and fitted with air-suspension, shall be subject to lower charges of at least 25 % less.

Temporary additional charges for using non-upgraded parts of the secondary network with vehicles in international traffic complying with the limit values of the Directive shall be levied in a non-discriminatory manner. The charging regime shall be transparent, and payment of these charges shall not place an undue administrative burden or delay on the user, nor shall the payment of these charges lead to a systematic check of axle load limits at the border. Enforcement of axle load limits shall be assured in a non-discriminatory manner throughout the territory and be effective also as regards vehicles registered in Romania.

The charges for vehicles without air-suspension complying with the limit values set out in Directive 96/53/EC shall not exceed the level of charges set out in the table below (expressed in 2002 figures). Vehicles fitted with air-suspension complying with the limit values set out in Directive 96/53/EC shall be subject to lower charges of at least 25 % less.

— Act concerning the conditions of accession and the adjustments to the Treaties — Accession of the Czech Republic, the Republic of Estonia, the Republic of Cyprus, the Republic of Latvia, the Republic of Lithuania, the Republic of Hungary, the Republic of Malta, the Republic of Poland, the Republic of Slovenia and the Slovak Republic (OJ L 236, 23.9.2003, p. 33).

By way of derogation from Article 6(1) of Directive 1999/62/EC, the minimum tax rates laid down in Annex I to the Directive shall not apply in Romania to vehicles engaged exclusively in domestic transport operations until 31 December 2010.

During this period, the rates to be applied by Romania to these vehicles shall gradually reach the minimum rates of tax laid down in Annex I to the Directive in accordance with the following schedule:

— by 1 January 2007, the rates to be applied by Romania shall not be less than 60 % of the minimum rates laid down in Annex I to the Directive;

7. TAXATION

For the purposes of applying Article 28(3)(b) of Directive 77/388/EEC, Romania may maintain an exemption from value added tax on international transport of passengers, referred to in point 17 of Annex F to the Directive, until the condition set out in Article 28(4) of the Directive is fulfilled or for as long as the same exemption is applied by any of the present Member States, whichever is the earlier.

By way of derogation from Article 2(1) of Directive 92/79/EEC, Romania may postpone the application of the overall minimum excise duty on the retail selling price (inclusive of all taxes) for cigarettes of the price category most in demand until 31 December 2009, provided that during this period Romania gradually adjusts its excise duty rates towards the overall minimum excise duty provided for in the Directive.

Without prejudice to Article 8 of Council Directive 92/12/EEC of 25 February 1992 on the general arrangements for products subject to excise duty and on the holding, movement and monitoring of such products (1), and having informed the Commission, Member States may, as long as the above derogation applies, maintain the same quantitative limits for cigarettes which may be brought into their territories from Romania without further excise duty

payment as those applied to imports from third countries. Member States making use of this possibility may carry out the necessary checks provided that these checks do not affect the proper functioning of the internal market.

3. **32003 L 0049:** Council Directive 2003/49/EC of 3 June 2003 on a common system of taxation applicable to interest and royalty payments made between associated companies of different Member States (OJ L 157, 26.6.2003, p. 49), as last amended by:

   Romania shall be authorised not to apply the provisions of Article 1 of Directive 2003/49/EC until 31 December 2010. During that transitional period, the rate of tax on payments of interest or royalties made to an associated company of another Member State or to a permanent establishment situated in another Member State of an associated company of a Member State must not exceed 10%.

   (a) By way of derogation from Article 7 of Directive 2003/96/EC, Romania may apply the following transitional periods:

   — until 1 January 2011 to adjust the national level of taxation on unleaded petrol used as propellant to the minimum level of EUR 359 per 1 000 l. The effective tax rate applied to unleaded petrol used as propellant shall not be less than EUR 323 per 1 000 l as from 1 January 2008,

   — until 1 January 2013 to adjust the national level of taxation on gas oil used as propellant to the minimum level of EUR 330 per 1 000 l.    — until 1 January 2010 to adjust the national level of taxation on heavy fuel oil used for district heating purposes to the minimum levels of taxation laid down in Annex I, Table C,

— 68,75 days by 1 January 2007;
— 3 days by 31 December 2007;
— 77,25 days by 31 December 2008;

SECTION I:

TEMPORARY ADDITIONAL RURAL DEVELOPMENT MEASURES FOR BULGARIA AND ROMANIA

A. Support for semi-subsistence farms undergoing restructuring

(1) Support for semi-subsistence farms undergoing restructuring shall contribute to the following objectives:

(a) to help ease rural transition problems as the agricultural sector and rural economy of Bulgaria and Romania are exposed to the competitive pressure of the single market;

(b) to facilitate and encourage the restructuring of farms not yet economically viable.

For the purpose of this Annex, ‘semi-subsistence farms’ shall mean farms which primarily produce for their own consumption, but also market a proportion of their output.

(2) To benefit from the support, the farmer must present a business plan which:

(a) demonstrates the future economic viability of the farm;

(b) contains details of the investments required;

(c) describes specific milestones and targets.

(3) Compliance with the business plan referred to in point (2) shall be reviewed after three years. If the interim objectives set out in the plan have not been achieved by the time of the three-year review, no further support shall be granted but there will be no requirement on these grounds to repay monies already received.

(4) Support shall be paid annually in the form of a flat-rate aid up to the maximum eligible amount specified in Section I G and for a period not exceeding five years.

B. Producer groups

(1) Flat-rate support shall be granted in order to facilitate the establishment and administrative operation of producer groups which have as their objectives:
(a) adapting the production and output of the producers who are members of such groups to market requirements;

(b) jointly placing goods on the market, including preparation for sale, the centralisation of sales and supply to bulk buyers; and

(c) establishing common rules on production information, with particular regard to harvesting and availability.

(2) The support shall be granted only to producer groups which are formally recognised by the competent authorities of Bulgaria or Romania between the date of accession and 31 December 2009 on the basis of either national or Community law.

(3) The support shall be granted in annual instalments for the first five years following the date on which the producer group was recognised. It shall be calculated on the basis of the group's annual marketed production and shall not exceed:

(a) 5 %, 5 %, 4 %, 3 % and 2 % of the value of the production up to EUR 1 000 000 marketed respectively in the first, second, third, fourth and fifth year, and

(b) 2.5 %, 2.5 %, 2.0 %, 1.5 % and 1.5 % of the value of the production exceeding EUR 1 000 000 marketed respectively in the first, second, third, fourth and fifth year.

In any case, support shall not exceed the maximum eligible amounts laid down in Section I G.

C. Leader + type measures

(1) Support may be granted for measures which are related to the acquisition of skills intended to prepare rural communities to conceive and implement local rural development strategies.

These measures may include in particular:

(a) technical support for studies of the local area, and territory diagnosis taking into account the wishes expressed by the population concerned;

(b) information and training of the population to encourage an active participation in the development process;

(c) building representative local development partnerships;

(d) drawing up integrated development strategies;

(e) financing research and preparing applications for support.

(2) Support may be granted for the adoption of integrated territorial rural development strategies, of a pilot nature, prepared by local action groups in accordance with the principles laid down in items 12, 14 and
36 of the Commission Notice to the Member States of 14 April 2000 laying down guidelines for the Community initiative for rural development (Leader+) (1). This support shall be limited to regions where there is already sufficient administrative capacity and experience of local rural development type approaches.

(3) The local action groups referred to in point (2) may be eligible to participate in inter-territorial and transnational cooperation actions in accordance with the principles laid down in items 15 to 18 of the Commission Notice referred to in point (2).

(4) Bulgaria and Romania and local action groups shall be given access to the Observatory of rural areas provided for in item 23 of the Commission Notice referred to in point (2).

D. Farm advisory and extension services

Support shall be granted for the provision of farm advisory and extension services.

E. Complements to direct payments

(1) Support may be granted to farmers eligible for complementary national direct payments or aids under Article 143c of Regulation (EC) No 1782/2003 (2).

(2) The support granted to a farmer in respect of the years 2007, 2008, 2009 shall not exceed the difference between:

(a) the level of direct payments applicable in Bulgaria or Romania for the year concerned in accordance with Article 143a of Regulation (EC) 1782/2003, and

(b) 40 % of the level of direct payments applicable in the Community as constituted on 30 April 2004 in the relevant year.

(3) The Community contribution to support granted under this subsection E in Bulgaria or Romania in respect of each of the years 2007, 2008, and 2009 shall not exceed 20 % of its respective annual allocation. However Bulgaria or Romania may decide to replace this 20 % annual rate with the following rates: 25 % for 2007, 20 % for 2008 and 15 % for 2009.

(4) Support granted to a farmer under this subsection E shall be counted as complementary national direct payments or aids, as applicable, for the purposes of applying the maximum levels set out in Article 143c (2a) of Regulation (EC) No 1782/2003.

F. Technical assistance

(1) Support may be granted for the preparation, monitoring, evaluation and control measures which are necessary for the implementation of the rural development programming documents.

---

(1) OJ C 139, 18.5.2000, p. 5.
(2) The measures referred to in point (1) shall include in particular:

(a) studies;

(b) measures of technical assistance, the exchange of experience and information aimed at partners, beneficiaries and the general public;

(c) installation, operation and interconnection of computerised systems for management, monitoring and evaluation;

(d) improvements in evaluation methods and exchange of information on best practice in this field.

ANNEX IX

Specific commitments undertaken, and requirements accepted, by Romania at the conclusion of the accession negotiations on 14 December 2004 (referred to in Article 39 of the Act of Accession)

I. In relation to Article 39(2)

(1) To implement without further delay the Schengen Action Plan, as published in M.Of., p. I, nr. 129 bis/10. II.2005, amended in line with the acquis and in accordance with the deadlines agreed upon.

(2) In order to ensure a high level of control and surveillance at the future external borders of the Union, to speed up considerably efforts in terms of modernising equipment and infrastructure at the green border, blue border and at border crossing points, and to further enhance the capacity of operational risk analysis. This must be reflected in one single multi-annual investment plan to be tabled no later than March 2005, which must allow the Union to measure progress on a yearly basis and until the decision referred to in Article 4(2) of the Act is taken in respect of Romania. In addition, Romania must considerably step up its plans to recruit 4,438 border police agents and officers and in particular ensure that a staffing level as close as possible to 100% is reached along the borders with Ukraine, Moldova and at the Black Sea coast already upon accession. Romania must also implement all necessary measures to effectively combat illegal immigration, including strengthening cooperation with third countries.

(3) To develop and implement an updated and integrated Action Plan and Strategy for the Reform of the Judiciary including the main measures for implementing the Law on the Organisation of the Judiciary, the Law on the Status of Magistrates and the Law on the Superior Council of Magistracy which entered into force on 30 September 2004. Both updated documents must be submitted to the Union no later than March 2005; adequate financial and human resources for the implementation of the Action Plan must be ensured and it must be implemented without further delay and according to the time schedule set. Romania must also demonstrate by March 2005 the full operational ability of the new system for random distribution of cases.

(4) To considerably step up the fight against corruption and in particular against high-level corruption by ensuring a rigorous enforcement of the anti-corruption legislation and the effective independence of the National Anti-Corruption Prosecutors’ Office (NAPO) and by submitting on a yearly basis as of November 2005 a convincing track-record of the activities of NAPO in the fight against high-level corruption. NAPO must be given the staff, financial and training resources, as well as equipment necessary for it to fulfil its vital function.

II. DECLARATIONS

A. JOINT DECLARATIONS BY THE PRESENT MEMBER STATES

1. Joint declaration on the free movement of workers: Bulgaria

The European Union stresses the strong elements of differentiation and flexibility in the arrangement for the free movement of workers. Member States shall endeavour to grant increased labour market access to Bulgarian nationals under national law, with a view to speeding up the approximation to the acquis. As a consequence, the employment opportunities in the European Union for Bulgarian nationals should improve substantially upon Bulgaria’s accession. Moreover, the EU Member States will make best use of the proposed arrangement to move as quickly as possible to the full application of the acquis in the area of free movement of workers.

2. Joint declaration on grain legumes: Bulgaria

3. Joint declaration on the free movement of workers: Romania

The European Union stresses the strong elements of differentiation and flexibility in the arrangement for the free movement of workers. Member States shall endeavour to grant increased labour market access to Romanian nationals under national law, with a view to speeding up the approximation to the acquis. As a consequence, the employment opportunities in the European Union for Romanian nationals should improve substantially upon Romania’s accession. Moreover, the EU Member States will make best use of the proposed arrangement to move as quickly as possible to the full application of the acquis in the area of free movement of workers.

4. Joint declaration on rural development: Bulgaria and Romania

With regard to the commitment appropriations for rural development originating from the EAGGF Guarantee Section for Bulgaria and Romania over the three-year period 2007-2009 mentioned in Article 34(2) of the Accession Protocol and Article 34(2) of the Act of Accession, the Union notes that the following allocations can be expected:

Bulgaria’s and Romania’s rural development allocations beyond the three year period 2007-2009 will be based on application of existing rules or those rules deriving from any policy reforms taking place in the meantime.

B. JOINT DECLARATION BY THE PRESENT MEMBER STATES AND THE COMMISSION

5. Joint declaration on Bulgaria’s and Romania’s preparations for accession

The European Union will continue to monitor closely Bulgaria’s and Romania’s preparations and achievements, including the effective implementation of the commitments undertaken in all areas of the acquis.

The European Union recalls the Presidency Conclusions of the European Council of 16/17 December 2004, in particular under points 8 and 12, underlining that, in the case of Romania, particular attention will be paid to preparation in the areas of Justice and Home Affairs, Competition and Environment, and that in the case of Bulgaria, particular attention will be paid to preparation in the area of Justice and Home Affairs. The Commission will continue to submit annual reports on Bulgaria’s and Romania’s progress towards accession, together with recommendations if appropriate. The European Union recalls that safeguard clauses provide for measures to address serious problems that may arise, as the case may be, before accession or in the three years after accession.

C. JOINT DECLARATION BY VARIOUS PRESENT MEMBER STATES

6. Joint declaration by the Federal Republic of Germany and the Republic of Austria on the free movement of workers: Bulgaria and Romania

The wording of point 13 of the transitional measures on the free movement of workers under Directive 96/71/EC in Annexes VI and VII to both the Accession Protocol and the Act of Accession is understood by the Federal Republic of Germany and the Republic of Austria in agreement with the Commission as meaning that ‘certain regions’ may, where appropriate, also comprise the entire national territory.

D. DECLARATION BY THE REPUBLIC OF BULGARIA

7. Declaration by the Republic of Bulgaria on the use of the cyrillic alphabet in the European Union

With the recognition of Bulgarian as an authentic language of the Treaties as well as an official and working language to be used by the institutions of the European Union, the Cyrillic alphabet will become one of the three alphabets officially used in the European Union. This substantial part of the cultural heritage of Europe represents a particular Bulgarian contribution to the linguistic and cultural diversity of the Union.
III. EXCHANGE OF LETTERS

Letter No 2

Sir,

I have the honour to acknowledge receipt of your letter which reads as follows:

'I have the honour to refer to the question concerning an information and consultation procedure for the adoption of certain decisions and other measures to be taken during the period preceding the accession of your country to the European Union which was raised in the framework of the accession negotiations.

I hereby confirm that the European Union is able to agree to such a procedure, in the terms set out in the Annex to this letter, which could be applied with effect from 1 October 2004.

I should be obliged if you would confirm that your Government is in agreement with the contents of this letter.'

I have the honour to confirm that my Government is in agreement with the contents of this letter.

Yours faithfully,
ANNEX

Information and consultation procedure for the adoption of certain decisions and other measures to be taken during the period preceding accession

I.

1. In order to ensure that the Republic of Bulgaria and Romania, hereinafter referred to as the 'acceding States', are kept adequately informed, any proposal, communication, recommendation or initiative which might lead to decisions by the institutions or bodies of the European Union shall be brought to the knowledge of the acceding States after being transmitted to the Council.

2. Consultations shall take place pursuant to a reasoned request by an acceding State, which shall set out expressly therein its interests as a future member of the Union and its observations.

3. Administrative decisions shall not, as a general rule, give rise to consultations.

4. Consultations shall take place within an Interim Committee composed of representatives of the Union and of the acceding States. Save for a reasoned objection from an acceding State, consultations may also take place in the form of the exchange of messages by electronic means, in particular in the common foreign and security policy.

5. On the Union side, the members of the Interim Committee shall be the members of the Permanent Representatives Committee or persons designated by them for this purpose. Where appropriate, the members may be the Members of the Political and Security Committee. The Commission shall be invited to be represented in this work.

6. The Interim Committee shall be assisted by a Secretariat, which shall be that of the Conference, continued for this purpose.

7. Consultations shall normally take place as soon as the preparatory work carried out at Union level with a view to the adoption of decisions or common positions by the Council has produced common guidelines enabling such consultations to be usefully arranged.

8. If serious difficulties remain after consultations, the matter may be raised at ministerial level at the request of an acceding State.

9. The above provisions shall apply mutatis mutandis to the decisions of the Board of Governors of the European Investment Bank.

10. The procedure laid down in the above paragraphs shall also apply to any decision to be taken by the acceding States which might affect the commitments resulting from their position as future members of the Union.

II.

11. The Union and the Republic of Bulgaria and Romania shall take the necessary measures to ensure that their accession to the agreements or conventions referred to in Articles 3(3), 6(2) and 6(6) of the Protocol concerning the conditions and arrangements for admission of the Republic of Bulgaria and Romania to the European Union and in Articles 3(3), 6(2) and 6(6) of the Act concerning the conditions of accession of the Republic of Bulgaria

and Romania coincides so far as possible, and under the conditions laid down in that Protocol and in that Act, with the entry into force of the Treaty of Accession.

12. Insofar as the agreements or conventions among Member States exist only in draft and probably cannot be signed in the period before accession, the acceding States will be invited to be associated, after the signature of the Treaty of Accession and in accordance with appropriate procedures, with the preparation of those drafts in a positive spirit and in such manner as to facilitate their conclusion.

13. With regard to the negotiation with the co-contracting parties of the protocols referred to in Article 6(2), second subparagraph, of the Protocol concerning the conditions and arrangements for admission of the Republic of Bulgaria and Romania to the European Union and in Article 6(2), second subparagraph, of the Act concerning the conditions of accession of the Republic of Bulgaria and Romania, the representatives of the acceding States shall be associated with the work as observers, side by side with the representatives of the present Member States.

14. Certain non-preferential agreements concluded by the Community, which remain in force after the date of accession, may be the subject of adaptations or adjustments in order to take account of the enlargement of the Union. These adaptations or adjustments will be negotiated by the Community in association with the representatives of the acceding States in accordance with the procedure referred to in the preceding paragraph.

III.

15. The institutions shall, in due course, draw up the texts referred to in Articles 58 and 60 of the Protocol concerning the conditions and arrangements for admission of the Republic of Bulgaria and Romania to the European Union and in Articles 58 and 60 of the Act concerning the conditions of accession of the Republic of Bulgaria and Romania. To that end, the Governments of the Republic of Bulgaria and of Romania shall provide the institutions with translations of those texts in a timely manner.
