I. INTRODUCTION

2. The European Council:

   • reached an overall agreement on Agenda 2000 (see Part I);
   • agreed a declaration on the appointment of the President of the Commission (see Part II);
   • adopted two statements on Kosovo (see Part III);
   • agreed three other statements on the Middle East Peace Process, the successful conclusion of the Trade and Cooperation Agreement with South Africa and on enlargement (see Part IV).
PART I - AGENDA 2000

3. Agenda 2000 is about equipping the Union with more effective policies and the financial means to implement them in a spirit of solidarity, while ensuring similar budgetary rigour at the level of the Union as applied at national level. The European Council considers that the policy reforms set out in these conclusions, and the financial framework to fund them over the medium-term, will ensure that the Union is in a position to face the challenges of the forthcoming period and to make a success of its future enlargement.

II. THE NEW FINANCIAL PERSPECTIVE

A. General

4. The Union’s expenditure must respect both the imperative of budgetary discipline and efficient expenditure, and the need to ensure that the Union has sufficient resources at its disposal to ensure the orderly development of its policies for the benefit of its citizens and to cope effectively with the process of enlargement.

5. The new financial perspective should be established for a duration of seven years covering the period 2000-2006. It should be drawn up on the basis of the working assumption of the accession of new Member States starting from 2002.

6. The financial perspective should be drawn up using constant 1999 prices, with automatic annual technical adjustments for inflation as at present.

7. The European Council considers that the appropriate allocation of expenditure for EU-15 is as set out in Table A attached.

B. Presentation of the financial perspective in the context of enlargement

Financial perspective for EU-15 (Table A)

Pre-accession expenditure

8. Expenditure for the three pre-accession instruments (PHARE, the agricultural instrument and the structural instrument) should be entered in separate sub-headings in a new heading 7 in the financial perspective. The annual ceiling for the three sub-headings should remain at a constant level throughout the period and should not exceed:

<table>
<thead>
<tr>
<th>Heading 7 (Pre-accession instruments) (Mio. euros 1999 prices)</th>
<th>2000</th>
<th>2001</th>
<th>2002</th>
<th>2003</th>
<th>2004</th>
<th>2005</th>
<th>2006</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
9. The European Council notes that political agreement exists on the legislative texts of the three regulations contained in doc. 6886/99. It invites the Council to adopt them as soon as possible after it has received the European Parliament’s opinions.

Accession-related expenditure

10. In the financial perspective for EU-15 (Table A), an amount «available for accession» should be set aside under the own resources ceiling from 2002 until 2006 as the maximum amounts in payment appropriations to cover expenditure resulting from new accessions over the period. Payment appropriations available for accession should not exceed:

| Available for accession (appropriations for payments) (Mio. euros 1999 prices) |
|-----------------|---|---|---|---|---|
| 2002 | 2003 | 2004 | 2005 | 2006 |
| Agriculture Other expenditure | 1.6002.540 | 2.0304.680 | 2.4506.640 | 2.9308.510 | 3.40010.810 |

Financial framework for EU-21 (Table B)

11. An indicative financial framework for EU-21 as set out in Table B attached should accompany the financial perspective. It should include additional own resources resulting from the accession of 6 new Member States, and set out in an additional heading 8 (enlargement) the total cost of enlargement for each of the years 2002-2006, expressed as maximum amounts in commitment appropriations for agriculture, structural operations, internal policies and administration, as follows:

| Heading 8 (Enlargement) (appropriations for commitments) (Mio. euros 1999 prices) |
|-----------------|---|---|---|---|---|
| 2002 | 2003 | 2004 | 2005 | 2006 |
| Agriculture Structural | 1.6003.750730370 | 2.0305.830760410 | 2.4507.920790450 | 2.93010.000820450 | 3.40012.080850450 |
Ring-fencing of accession-related and pre-accession expenditure

12. The European Council confirms the requirement set out in the conclusions of the Cardiff European Council that a clear distinction must be made in the presentation and implementation in the financial framework relating to the Union as currently constituted, and that reserved for the future acceding countries, including after enlargement. The new Interinstitutional Agreement should adequately reflect this requirement as follows.

13. Expenditure reserved for EU-15 (headings 1 to 6) cannot at any time be used for pre-accession assistance (heading 7) and, conversely, expenditure reserved for pre-accession assistance cannot be used by EU-15.

14. Amounts available for accession can only be used in order to cover expenditure arising as a direct consequence of enlargement, and cannot cover unforeseen expenditure arising for EU-15 or pre-accession expenditure (headings 1 to 7). Conversely, expenditure earmarked for EU-15 or pre-accession expenditure (headings 1 to 7) cannot be used to supplement the cost of new accessions.

15. After enlargement, in the event of any development of actual expenditure as a direct consequence of the accession of new Member States proving likely to exceed the ceiling on payment appropriations set aside in Table A for new accessions, the financial commitments for EU-15 agreed in the financial perspective will have to be respected.

16. Upon enlargement the financial perspective for EU-15 should be adjusted, taking account of the actual number of acceding countries and the maximum amounts set out in heading 8 in indicative Table B. In undertaking this adjustment, the Council shall act by qualified majority.

C. Principles governing renewal of the Interinstitutional Agreement

17. Given that the current financial framework and the Interinstitutional Agreement have proved their worth in ensuring the smooth completion of the annual budgetary procedure, the European Council hopes that a new agreement can be established between the European Parliament, the Council and the Commission on terms ensuring strict budgetary discipline, while preserving the overall balance of powers between the institutions and clearly ring-fencing pre-accession and accession-related expenditure for the entire duration of the financial perspective.
18. It calls upon the Council, on the basis of a common position, and subject to acceptable terms being attainable, to reach agreement with the European Parliament and the Commission on a new Interinstitutional Agreement. This Agreement should reflect the substance of these conclusions, including the possibility of introducing a provision aimed at ensuring some flexibility in the financial perspective during the annual budgetary procedure up to a limit of 200 million euros per annum.

D. Heading 1 (Agriculture)

Agricultural guideline

19. The agricultural guideline will remain unchanged. It will be reviewed, on the basis of a report to be submitted to the Council by the Commission, before the first enlargement of the Union takes place in order to make any adjustments deemed necessary. As far as the coverage of the guideline is concerned, the amounts set aside in the financial perspective for the agricultural pre-accession instrument under heading 7 and for the part of the amount «available for accession» relating to agriculture expenditure, shall fall within the ceiling established by the guideline.

Content of the CAP reform

20. The European Council welcomes the agreement reached by the Agriculture Council at its March session on an equitable and worthwhile reform of the Common Agriculture Policy. The content of this reform will ensure that agriculture is multifunctional, sustainable, competitive and spread throughout Europe, including regions with specific problems, that it is capable for maintaining the countryside, conserving nature and making a key contribution to the vitality of rural life, and that it responds to consumer concerns and demands as regards food quality and safety, environmental protection and the safeguarding of animal welfare.

Overall level of allocations for heading 1

21. The European Council considers that this reform can be implemented within a financial framework of an average level of 40.5 billion euros plus 14 billion euros (1) over the period for rural development as well as veterinary and plant health measures. This would be more in keeping with actual levels of spending, and is aimed at stabilising agricultural expenditure over the period.

22. In order to achieve the objective of stabilising agricultural expenditure in real terms, the European Council has decided the following measures:

- the dairy reform will enter into force as from the 2005/2006 marketing year without prejudice to the decisions concerning the specific additional dairy quotas;
- the intervention price for cereals shall be reduced by 15% in two equal steps of 7.5% (of the present intervention price) in the marketing years 2000/2001 and 2001/2002. The area payments shall be increased in two equal steps from 54 to 63 euros/t (multiplied by the historical regional reference yield for cereals). A decision upon a final reduction in the intervention price to be applied from 2002/2003 onwards will be
taken in the light of market developments. Any consequent increase in area payments will bear the same proportion to the price reduction as those applicable in 2000/2001 and 2001/2002. The area payment from 2002/2003 onwards (aid per tonne multiplied by the historical reference yield for cereals) shall apply also to oil seeds. The base rate of compulsory set aside is fixed at 10% for all the period 2000-2006. Monthly increments will be maintained as at present;

- the European Council asks the Commission to follow closely the developments on the oilseeds market and to submit a report within two years from the application of the new arrangement. If necessary, this report will be accompanied by appropriate proposals should the production potential deteriorate seriously;
- intervention in the beef sector: the European Council asks the Commission to follow closely the European beef market and to take, if need be, the relevant measures in particular by using Article 34 of the draft Regulation concerning the Beef CMO. These measures might also include ad hoc intervention buying-in;
- the Commission and the Council are requested to pursue additional savings to ensure that total expenditure, excluding rural development and veterinary measures, in the 2000-2006 period will not overshoot an average annual expenditure of 40.5 billion euros. Therefore, the European Council invites the Commission to submit a report in 2002 to the Council on the development of agricultural expenditure accompanied, if necessary, by appropriate proposals, and requests the Council to take the necessary decisions in line with the objectives of the reform;
- the European Council, taking into account the specificity of the Portuguese agriculture, recognises the need to improve the balance of the support granted to agriculture by means of rural development measures, financed by EAGGF Guarantee. For Portugal, the existing MGA for durum wheat will be doubled from 59.000 ha to 118.000 ha.

23. In the light of these decisions, the European Council considers that the amounts to be entered in heading 1 of the financial perspective should not exceed:

<table>
<thead>
<tr>
<th>Heading 1 (Agriculture)</th>
<th>2000</th>
<th>2001</th>
<th>2002</th>
<th>2003</th>
<th>2004</th>
<th>2005</th>
<th>2006</th>
</tr>
</thead>
<tbody>
<tr>
<td>CAP expenditure</td>
<td>40920</td>
<td>42800</td>
<td>43900</td>
<td>43770</td>
<td>42760</td>
<td>41930</td>
<td>41660</td>
</tr>
<tr>
<td>Rural development and accompanying measures</td>
<td>36620</td>
<td>38480</td>
<td>39570</td>
<td>39430</td>
<td>38410</td>
<td>37570</td>
<td>37290</td>
</tr>
</tbody>
</table>

The Interinstitutional Agreement should include a provision ensuring that all parties to it will respect the financial perspective ceiling for agriculture.

24. The European Council acknowledges the scale of the efforts being made to curb the budget and exercise rigour in implementing the Common Agricultural Policy decided within the framework of Agenda 2000. The efforts made, notably in terms of reducing support prices, represent an essential contribution by the European Community in stabilising the world's agricultural markets. The European Council considers that the decisions adopted
regarding the reform of the CAP within the framework of Agenda 2000 will constitute essential elements in defining the Commission's negotiating mandate for the future multilateral trade negotiations at the WTO.

---

E. Heading 2 (Structural Operations)

25. Improving the effectiveness of the structural and Cohesion funds in achieving the goal of economic and social cohesion enshrined in the Treaty is a central plank of the Agenda 2000 reforms. This goal has to be maintained in the future as priorities continue to evolve in a more diverse Union, taking account of the aim of achieving greater concentration of structural assistance, improving the financial management of the structural funds as well as simplifying their operation and administration.

26. Greater concentration of structural fund assistance in the areas of greatest need will be achieved by means of a substantial reduction in the number of Objectives to three. In fostering economic and social cohesion by pursuing these Objectives, the Community, through the structural funds, shall promote the harmonious, balanced and sustainable development of economic activities, and in particular the development of competitiveness and economic innovation, especially in small and medium-sized enterprises, the development of employment and human resources, the protection and improvement of the environment, the elimination of inequalities and the promotion of equality between men and women. In fostering economic and social cohesion by pursuing these Objectives, the Community shall contribute to the harmonious, balanced and sustainable development of economic activities, the development of employment and human resources, the protection and improvement of the environment, the elimination of inequalities and the promotion of equality between men and women. The Commission and the Member States shall ensure that the operations financed by the funds are in conformity with the provisions of the Treaty, the instruments adopted under it, and are consistent with other Community policies and operations.

Overall level of allocations for heading 2

27. In view of the continued priority accorded to economic and social cohesion and as a result of more targeted concentration of structural expenditure in line with this Treaty objective, the European Council considers that the overall amounts for the structural and cohesion funds to be entered under heading 2 should be a total of 213 billion euros over the period, broken down as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>2000</th>
<th>2001</th>
<th>2002</th>
<th>2003</th>
<th>2004</th>
<th>2005</th>
<th>2006</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>32045</td>
<td>31455</td>
<td>30865</td>
<td>30285</td>
<td>29595</td>
<td>29595</td>
<td>29170</td>
</tr>
</tbody>
</table>

28. This overall level of expenditure will enable the Union to maintain the present average aid intensity levels, thereby consolidating the present overall effort in this field.
**Structural Funds**

**Overall level of allocations for the Structural funds**

29. The European Council considers that the appropriate level of commitment appropriations to be entered in the financial perspective for the structural funds, including transitional support, Community initiatives and innovative actions, should be 195 billion euros, broken down as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>2000</th>
<th>2001</th>
<th>2002</th>
<th>2003</th>
<th>2004</th>
<th>2005</th>
<th>2006</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>29430</td>
<td>28840</td>
<td>28250</td>
<td>27670</td>
<td>27080</td>
<td>27080</td>
<td>26660</td>
</tr>
</tbody>
</table>

30. 69.7% of the structural funds will be allocated to Objective 1, including 4.3% for transitional support (i.e. a total of 135.9 billion euros).

11.5% of the structural funds will be allocated to Objective 2 including 1.4% for transitional support (i.e. a total of 22.5 billion euros).

12.3% of the structural funds will be allocated to Objective 3 (i.e. a total of 24.05 billion euros).

31. Outstanding unpaid commitments at the end of the current period should be cleared on the basis of decisions to be taken by the budgetary authority. The European Council notes that the Commission has estimated as a working assumption that the rate of clearance should be 45%, 25%, 20% and 10% in each of the first four years of the new financial perspective.

**Eligibility**

**Objective 1**

32. Objective 1 shall promote the development and structural adjustment of regions whose development is lagging behind. Objective 1 status for the period 2000-2006 will be conferred on:

- current NUTS level II regions whose *per capita* GDP is less than 75% of the Community average;
- the most remote regions (the French overseas Departments, the Azores, Madeira and the Canary Islands), which are all below the 75% threshold;
- areas eligible under Objective 6 for the period 1995-1999 pursuant to Protocol No. 6 to the Act of Accession of Finland and Sweden.

**Objective 2**

33. Objective 2 shall support the economic and social conversion of areas facing structural difficulties. These shall include areas undergoing economic and social change in the industrial and service sectors, declining rural areas, urban areas in difficulty and depressed areas dependent on fisheries, defined on the basis of objective criteria laid down in the legislative texts.
34. The Member States will propose to the Commission a list of areas which meet the objective criteria, subject to a population ceiling to be applicable to each Member State. This population ceiling for each Member State will be fixed by the Commission on the basis of the total population of the areas in each Member State which meet the Community criteria, and the seriousness of structural problems assessed on the basis of total unemployment and long-term unemployment outside Objective 1 regions.

35. A maximum of 18% of the Union’s population will be covered by the new Objective 2. The indicative breakdown of the population at Community level for the different types of Objective 2 region should be 10% for industrial areas, 5% for rural areas, 2% for urban areas and 1% for fishery dependent areas. The industrial and rural areas meeting the Community criteria laid down in the regulation must contain at least 50% of the population covered by Objective 2 in each Member State, except where this is objectively impossible.

36. In order to ensure that each Member State makes a fair contribution to the overall concentration effort, the maximum reduction in the population covered by Objective 2 compared to the current Objective 2/5b coverage shall not exceed 33%. For the purpose of calculating the maximum reduction in the population for the new Objective 2, ex-Objective 2/5(b) areas which are eligible for Objective 1 in the new period will be taken into account. No account will be taken of ex-Objective 1 regions receiving transitional support and which meet the Objective 2 Community eligibility criteria.

37. An identical per capita aid intensity level (excluding Objective 3 allocations) will apply in all Objective 2 areas throughout the Community; the total allocation to each Member State under Objective 2 will therefore depend directly on the relative share of each Member State in the total population of the Union eligible for Objective 2.

**Objective 3**

38. Objective 3 will lend support to the adaptation and modernisation of policies and systems of education, training and employment. It shall apply outside Objective 1. Each Member State will receive a percentage of the total resources available for Objective 3 on the basis of its share of the total target populations of the Union yielded by indicators selected on the basis of the objective criteria listed in paragraph 45 below.

39. The European Council considers that the average per capita level of assistance under Objective 3 should take account of the priority given to employment, education and training.

**Fisheries**

40. Actions for the fisheries sector outside Objective 1 regions will be supported by the financial instrument for fisheries guidance (FIFG) with an amount of 1.1 billion euros over the period, 875 million of which should come from heading 1.

**Community initiatives and innovative actions**

41. In the light of the added value that Community Initiatives offer over and above the mainstream Objectives, the number of Community initiatives will be reduced to the following three: INTERREG (cross-border, transnational and interregional cooperation), EQUAL (transnational cooperation to combat all forms of discrimination and inequalities in the labour market) and LEADER (rural development). 5% of the structural fund commitment
appropriations should be set aside for the Community initiatives. At least 50% of appropriations will be allocated to INTERREG, under which due attention should be given to cross-border activities, in particular in the perspective of enlargement, and for Member States which have extensive frontiers with the applicant countries, as well as to improved coordination with the PHARE, TACIS and MEDA programmes. Due account will be taken of the social and vocational integration of asylum seekers in the framework of EQUAL. It is agreed that the three new mainstream Objectives should cover the scope of all existing Community Initiatives which have proved their effectiveness but which are no longer retained as such.

Due attention will also be given to cooperation with the outermost regions.

1% of the structural fund allocations will be set aside for innovative actions and technical assistance.

**Transitional support**

42. Adequate transitional support for regions which are no longer eligible for assistance are an essential counterpart to greater concentration of structural funds, so as to underpin the results secured by structural assistance in ex-Objective 1 regions, and to support the end of the conversion process in areas ceasing to be eligible under Objective 2/5(b).

43. Transitional support will be given to all regions and areas which no longer meet the relevant eligibility criteria. The overall financial allocation from the structural funds for transitional support should be 11.142 billion euros (6% of the overall allocations, for which the Commission will provide an indicative breakdown per Member State. Transitional support in all regions and areas where assistance is being phased out will be lower in 2000 than in 1999, and will cease for both ex-Objective 1 regions and ex-Objective 2/5(b) by the end of 2005. The profile of transitional support may be tailored to the specific needs of individual regions, in agreement with the Commission, provided the financial allocation for each region is respected. In 2006, ex-Objective 1 regions will receive any assistance they are entitled to at that time under the relevant Community or national criteria.

**Particular situations (2000-2006)**

44. (a) For the development of the Lisbon region, a special phasing out treatment of 500 million euros will be provided for Objective 1.

(b) In recognition of the special efforts for the peace process in Northern Ireland, the PEACE Programme will be continued for five years with an amount of 500 million euros, of which 100 million euros will be allocated to Ireland. This programme will be implemented in full respect of additionality of structural fund interventions. The EU contribution to the International Fund for Ireland (15 million euros per annum under heading 3) will be renewed for a period of 3 years. The Commission is invited to make the necessary proposals.

(c) A special phasing out treatment of 100 million euros will be provided under Objective 1 for the transition region of Ireland resulting from the new classification of regions. The reclassification itself will result in an additional allocation to Ireland of 550 million euros under Objective 1.
(d) In order to take account of the particular characteristics of labour market participation in the Netherlands, an additional amount of 500 million euros are allocated to Objective 3.

(e) A special programme of assistance totalling 150 million euros over the period 2000 to 2006 will be established for Sweden in the framework of Objective 3. A special programme of assistance totalling 350 million euros will be established for the Swedish NUTS II regions which meet the criteria laid down in Article 2 of Protocol No. 6 to the Act of Accession for Sweden.

(f) In order to take account of the specific problems of East Berlin in the transformation process, 100 million euros will be added to the allocation for phasing out of East Berlin (Objective 1).

(g) The modification of the safety net provisions will add an additional 96 million euros for Italy and 64 million euros for Belgium to the phasing out allocation for Objective 2.

(h) An additional amount of 15 million euros will be provided for the Hainaut region in Belgium for Objective 1 phasing out.

(i) In view of the particular structural problems resulting from low population density matched with the high degree of poverty, the Highlands and Islands of Scotland will receive a special phasing out programme totalling 300 million euros.

(j) A special financial allowance will be given to Greece, Ireland, Portugal and Spain in order to maintain, for the period 2000 to 2006, the overall average level of per capita aid reached in 1999. The amounts concerned are 450 million euros for Greece, 450 for Portugal, 40 million for Ireland and 200 million for Spain.

(k) A total amount of around 350 million euros will be allocated to Austria inside the Community initiatives.

(l) A total amount of around 550 million euros will be allocated to the Netherlands inside the Community initiatives.

(m) During the examination of eligibility for Objective 2, special attention will be given to areas of the Abruzzi which are adjacent to Objective 1 regions.

Indicative allocations among Member States

45. In accordance with the Commission's proposals, the allocation of resources to Member States for Objectives 1 and 2 will be based, using transparent procedures, on the following objective criteria: eligible population, regional prosperity, national prosperity and the severity of structural problems, especially the level of unemployment. For Objective 3, the breakdown by Member State shall be based principally on the eligible population, the employment situation and the severity of the problems, such as social exclusion, education and training levels and participation of women in the labour market, with a relative weighting as outlined by the Commission.

46. Total annual receipts in any Member States from structural operations (i.e. including the Cohesion Fund) should not exceed 4% of national GDP.
Rates of assistance

47. The European Council, bearing in mind that the actual rates of structural fund assistance applied in practice are often less than the maximum ceilings, agrees that the contribution of the structural funds shall be subject to the following ceilings:

(a) a maximum of 75% of the total eligible cost and, as a general rule, at least 50% of eligible public expenditure in the case of measures carried out in the regions covered by Objective 1. Where the regions are located in a Member State covered by the Cohesion Fund, the Community contribution may rise, in exceptional and duly justified cases, to a maximum of 80% of the total eligible cost and to a maximum of 85% of the total eligible cost for the outermost regions and for the outlying Greek islands which are under a handicap due to their distant location;

(b) a maximum of 50% of the total eligible cost and, as a general rule, at least 25% of eligible public expenditure in the case of measures carried out in areas covered by Objective 2 or Objective 3.

48. In the case of investment in firms, the contribution of the funds shall comply with the ceilings on the rate of aid and on combinations of aid set in the field of state aids. The European Council also endorses the lower rates proposed by the Commission for contributions of the funds to revenue generating infrastructure investment and investment in firms.

Administration and financial management of the Structural Funds

49. The administration of the structural funds should be substantially simplified by giving practical effect to decentralising decision-making and striking the right balance between simplification and flexibility so as to ensure that funds are disbursed quickly and effectively. To achieve this, responsibilities of Member States, their partners and the Commission will be clarified, bureaucracy reduced and monitoring, evaluation and control strengthened, thereby ensuring improved and sound financial management.

Cohesion Fund

50. The European Council considers that the basic objectives of the Cohesion Fund, which was set up to further economic and social cohesion in the Union and solidarity among the Member States by providing a financial contribution to projects in the field of the environment and trans-European networks, are still relevant today. The European Council considers that the four current beneficiaries should continue to be eligible to the fund in 2000, i.e. Member States with a per capita GNP of less than 90% of the Union average and a programme leading to the fulfilment of the conditions of economic convergence.

51. In view of the continuing progress achieved towards real convergence and taking account of the new macroeconomic context in which the Cohesion Fund now operates, the overall allocation of assistance for Member States participating in the euro will be adjusted so as to take account of the improvement in national prosperity attained over the previous period.
52. The European Council accordingly considers that the overall level of resources available to be committed under the Cohesion Fund should be 18 billion euros, broken down as follows:

<table>
<thead>
<tr>
<th>Cohesion Fund (Mio. euros 1999 prices)</th>
</tr>
</thead>
<tbody>
<tr>
<td>2000</td>
</tr>
<tr>
<td>2615</td>
</tr>
</tbody>
</table>

53. A review of eligibility based on the 90% average GNP criterion will be undertaken at mid-term in 2002 and 2004 in 2003. In the event of a Member State becoming ineligible, resources for the Cohesion Fund will be reduced accordingly.

54. With regard to the economic convergence criterion, the current macro-economic conditionality provisions will continue to apply. Accordingly, no new projects or new project stages shall be financed by the Fund in a Member State in the event of the Council, acting by qualified majority on a recommendation from the Commission, finding that the Member State has not respected the stability and growth pact implemented a programme leading to the fulfilment of the conditions of economic convergence. For Member States participating in the euro, macro-economic conditionality will have to take account of those States’ responsibilities for the stability of the euro.

55. The rate of Community assistance granted by the Cohesion Fund shall remain unchanged at between 80% and be up to 85% of public or equivalent expenditure. This rate may be reduced to take account of a project’s capacity to generate revenue and of any application of the polluter-pays principle. The European Council notes that the Commission will ensure that Member States maximise the leverage of fund resources by encouraging greater use of private sources of financing, that it will draw up implementing procedures on the application of the polluter-pays principle, and that in implementing them, it will take account of specific situations in each beneficiary Member State.

56. The European Council considers that the financial management and control provisions should be consistent with the relevant provisions of the structural funds regulation, subject to taking due account of the specific features of the Cohesion Fund.

**Completion of legislative work**

57. The European Council considers that the agreement on the above political questions implies agreement on the content of the following legislative texts related to the structural and Cohesion funds:

- 6896/99 (General Regulation on the Structural Funds) + COR 1, 2, 3
- 6881/99 (ERDF Regulation)
- 6882/99 (ESF Regulation)
- 6876/99 (FIFG Regulation) + COR 1
- 6878/99 (Cohesion Fund Regulations) + COR 1

58. The European Council, recalling the readiness expressed by the Parliament and the Council at the Cardiff European Council to achieve final adoption of the legislative texts before the next European Parliamentary elections, urges both institutions to take the necessary
steps to ensure that they are enacted by that deadline, particularly in view of the need to prepare a smooth transition into the new structural funds programming period beginning on 1 January 2000.

Continued

Footnotes

(1) Less 875 million euros for FIFG (see paragraph 40)

(2) For calculating the amounts in current prices a deflator of 2% will be used.

(3) Includes veterinary and plant health measures
