

# Animal by-products Regulation (EC) No 1774/2002

(OJ L273, 10.10.2002, p1)

Screening explanatory session

Croatia, Turkey

Brussels, 13 March 2006

(By Moustapha Magumu)

# Content

- **Background (figures)**
- **Scope**
- **Key objectives**
- **3 Categories**
- **Traceability**
- **Disposal routes / uses**
- **Approval of plants**
- **Import, export, transit**
- **Restriction on use**
- **Derogation on use**
- **Derogation on disposal**
- **Control and inspections**

# Background (figures)

## ■ Estimated that humans directly consume

- 68 % of a chicken, 62 % of a pig
- just over 50 % of a bovine, sheep or goat

## ■ Estimated yearly EU production

### ■ Over 16 M tonnes of ABP of which:

- 14 M tonnes fit for human consumption; and
- 2 M tonnes unfit for human consumption

- 3 M tonnes MBM; and
- 1.5 M tonnes fat

## ■ Crises (BSE, dioxin, FMD, CSV)

# Scope (Art 1)

- Collection, transport, storage, handling, processing and use or disposal of all ABP not intended for Human consumption**
- Importation, transit, trade and export of ABP and derived products referred to in Annexes VII and VIII**

# Key objectives

## ❑ **Ban on recycling dead animals & condemned material (Art. 4, 5)**

- 
- Feed: only material from animal fit for HC
  - High processing standards
  - Dedication of facilities
  - Marking

## ❑ **Alternative disposal methods and uses (Art. 4, 5, 6)**

- Waste recovery
- Safe uses as feeds, fertilisers, cosmetics, pharmaceuticals, etc

## ❑ **Link with Environmental legislation (Art. 4, 5, 6)**

- Cross-reference to environmental legislation

## □ Re-enforcing controls and traceability

### - Traceability of ABP (Art. 7, 8)

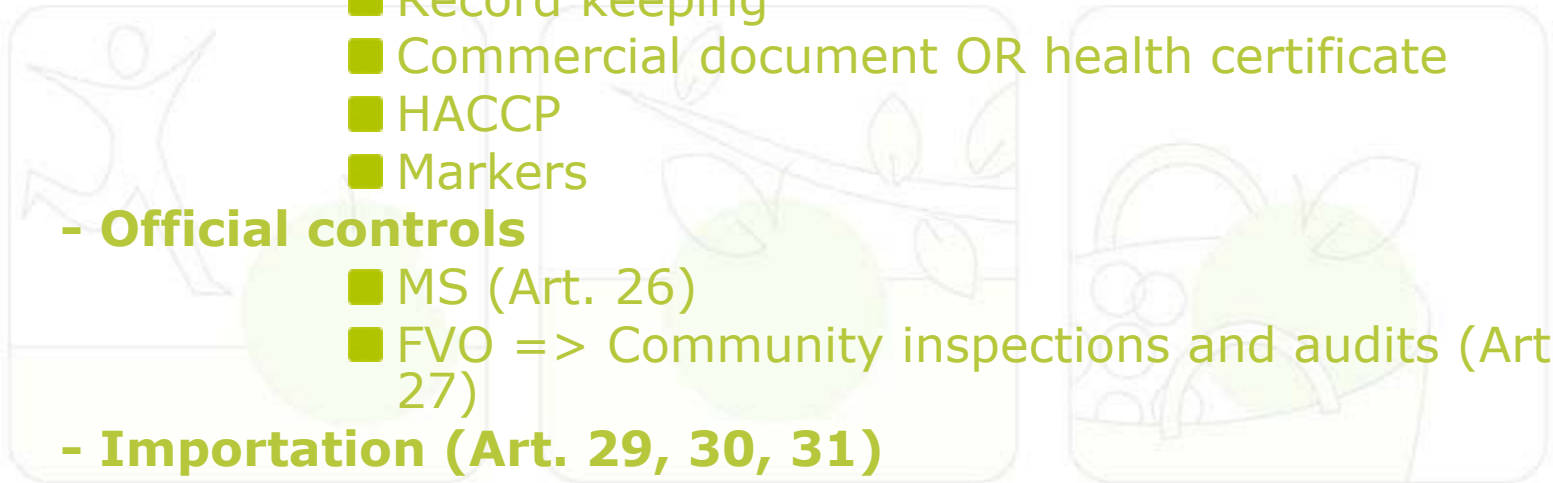

- Record keeping
- Commercial document OR health certificate
- HACCP
- Markers

### - Official controls

- MS (Art. 26)
- FVO => Community inspections and audits (Art. 27)

### - Importation (Art. 29, 30, 31)

- Listing of third countries and approved plants
- Health certificates
- Equivalency

# 3 Categories

## ■ Category 1 material

- ABP presenting TSE risks (SRM), unknown risks, risks from treatment with illegal substances or ENV contaminants, catering waste from international transport (Art. 4(1))

## ■ Category 2 material

- ABP presenting risk related to animal diseases (fallen stock)/residues of veterinary drugs, manure (Art. 5(1))

## ■ Category 3 material

- ABP from healthy animals (ante/post mortem), no risk to animal/human (Art. 6(1))

# Traceability

## ❑ **Collection, transport, identification (Art. 7, Annex II)**

- C. document, H. certificate (Annex II)

## ❑ **Dispatch of Cat. 1 & 2 and processed Cat. 3 to other MS (Art. 8)**

- Notification, authorisation (ANIMO system)
- C. document/H. certificate
- Conveyed directly to the approved plant of destination

## ❑ **Records (Art. 9)**

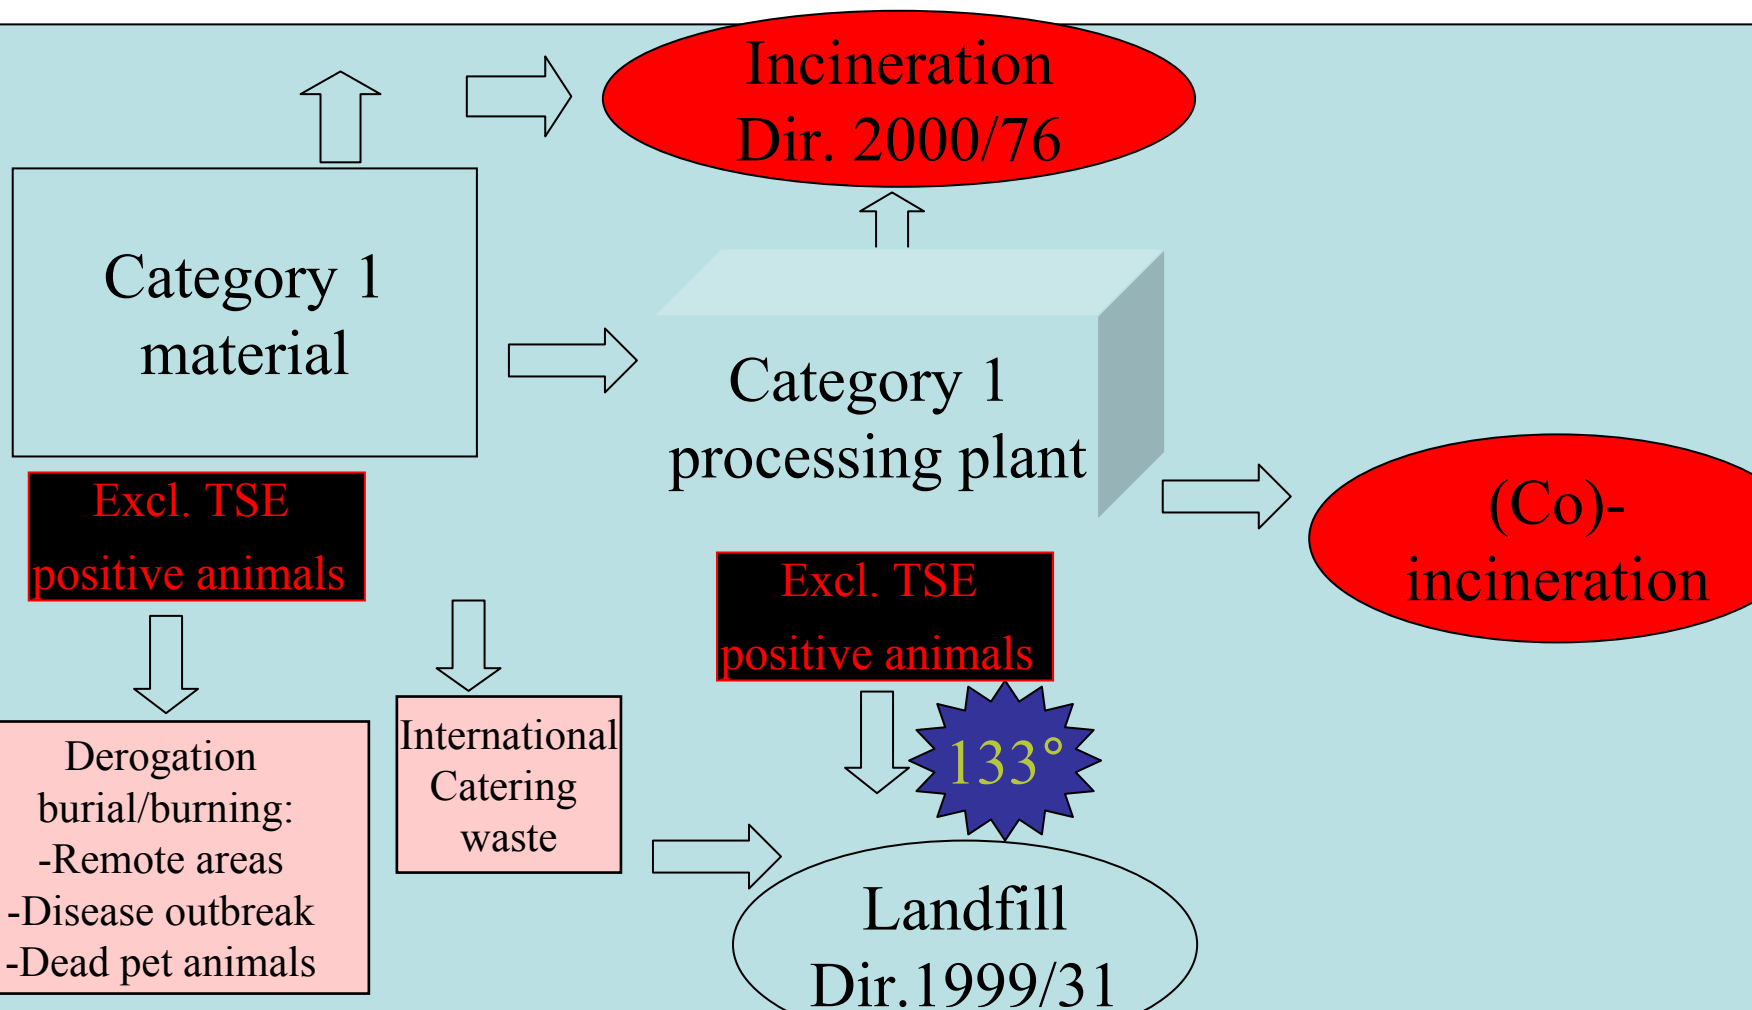

- Any person consigning, transporting or receiving ABP (Annex II)

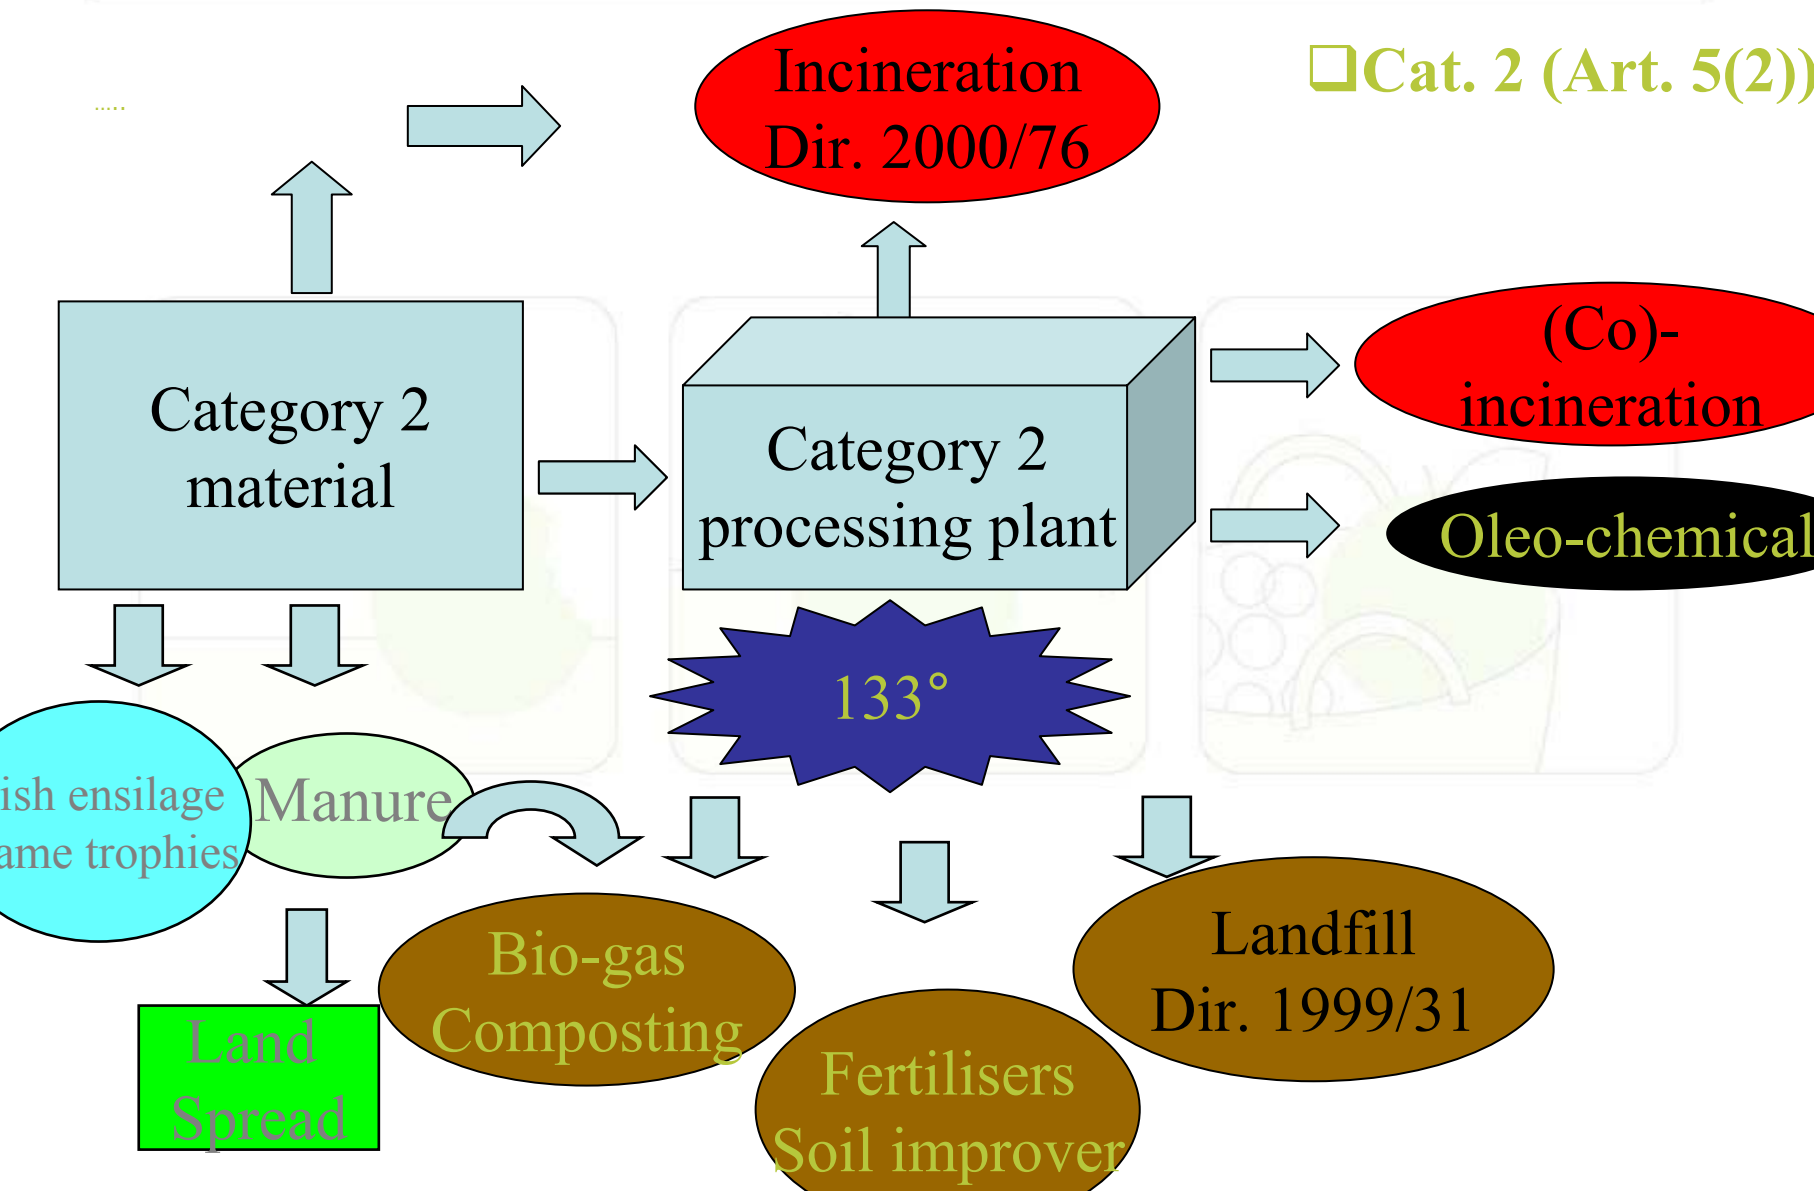

# Disposal routes/uses

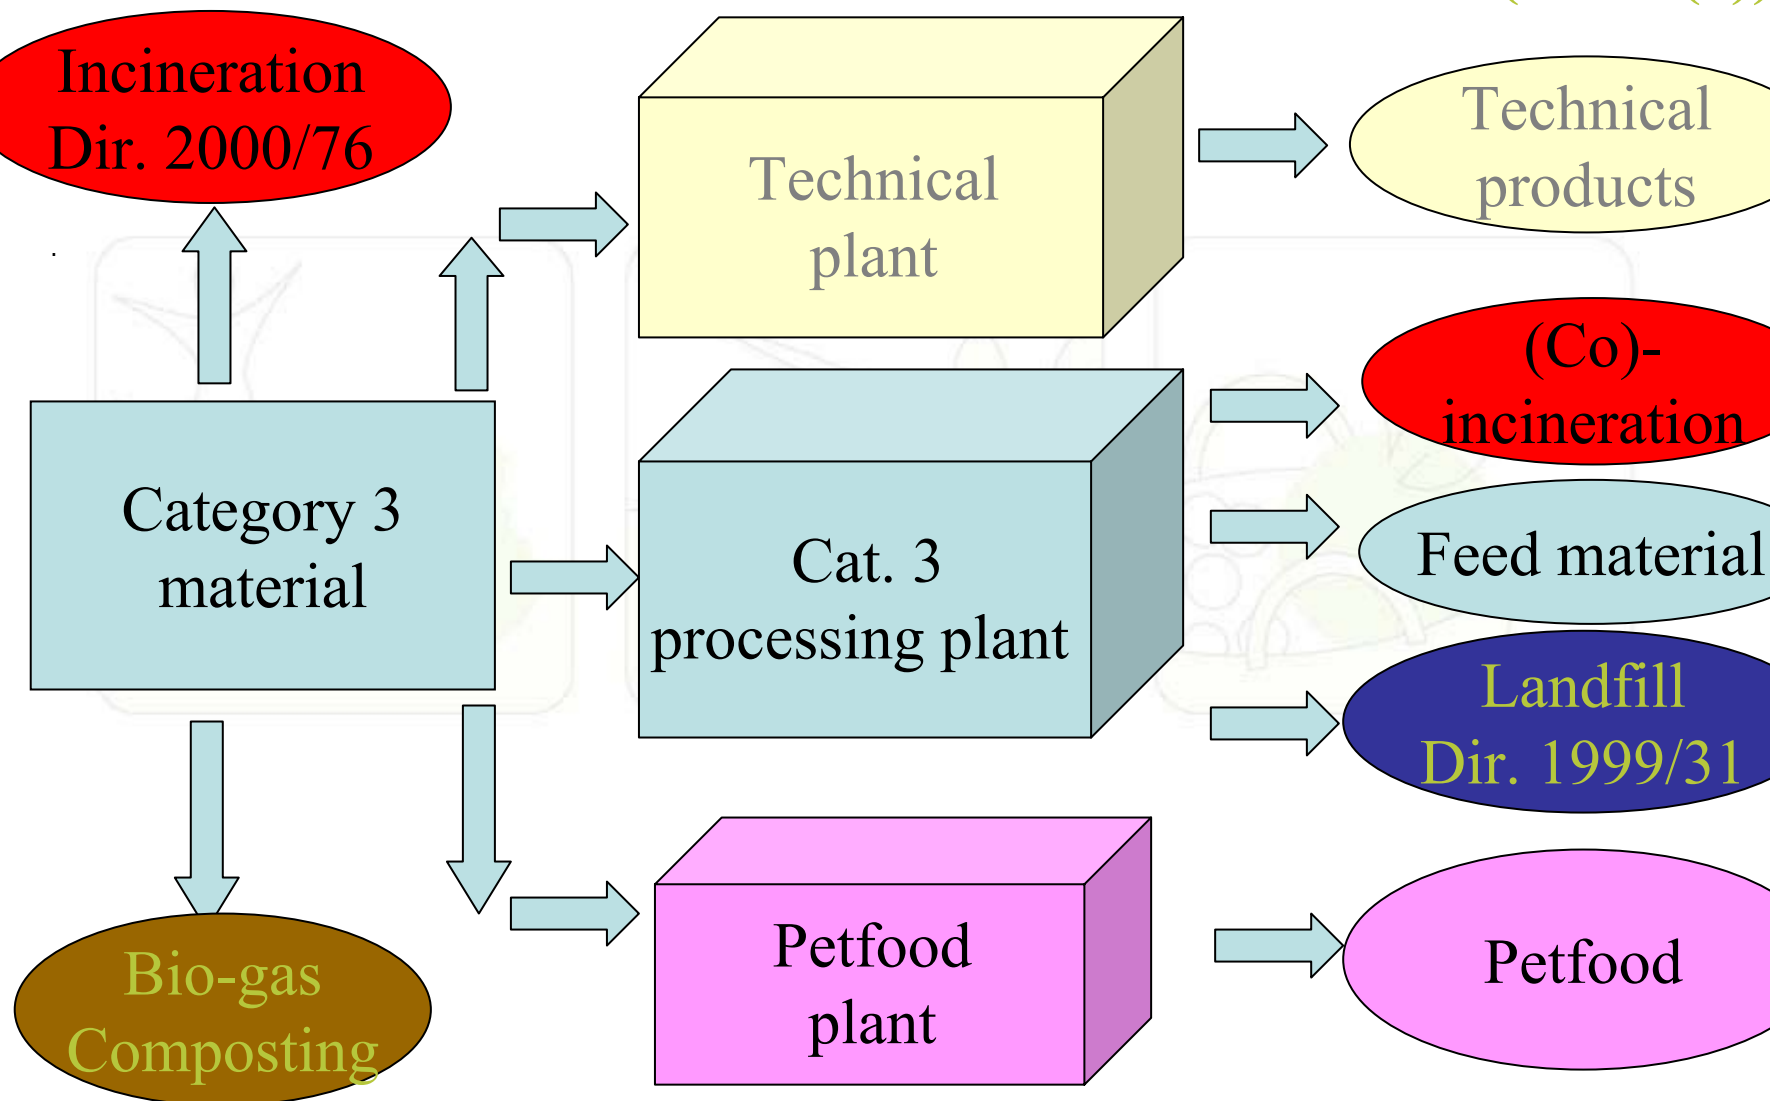

□ Cat. 1 (Art. 4(2))

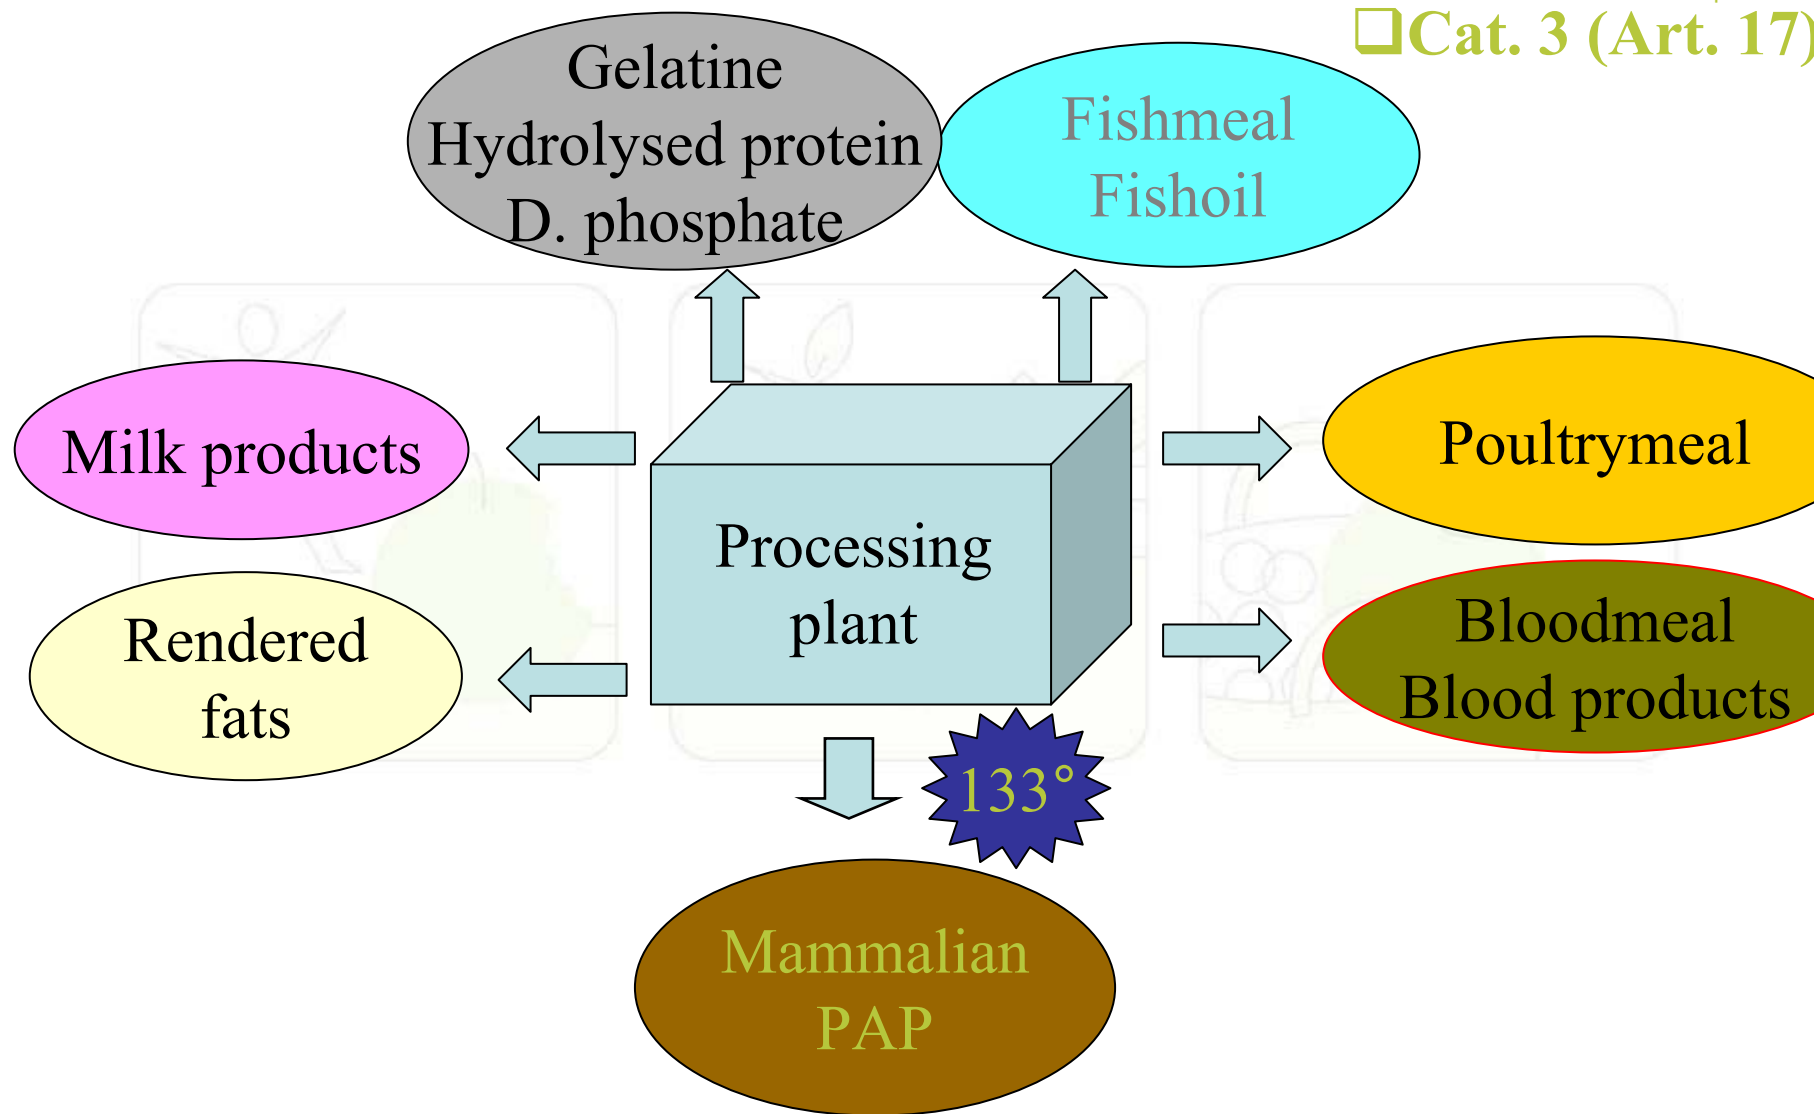

□ **Cat. 3 (Art. 6(2))**

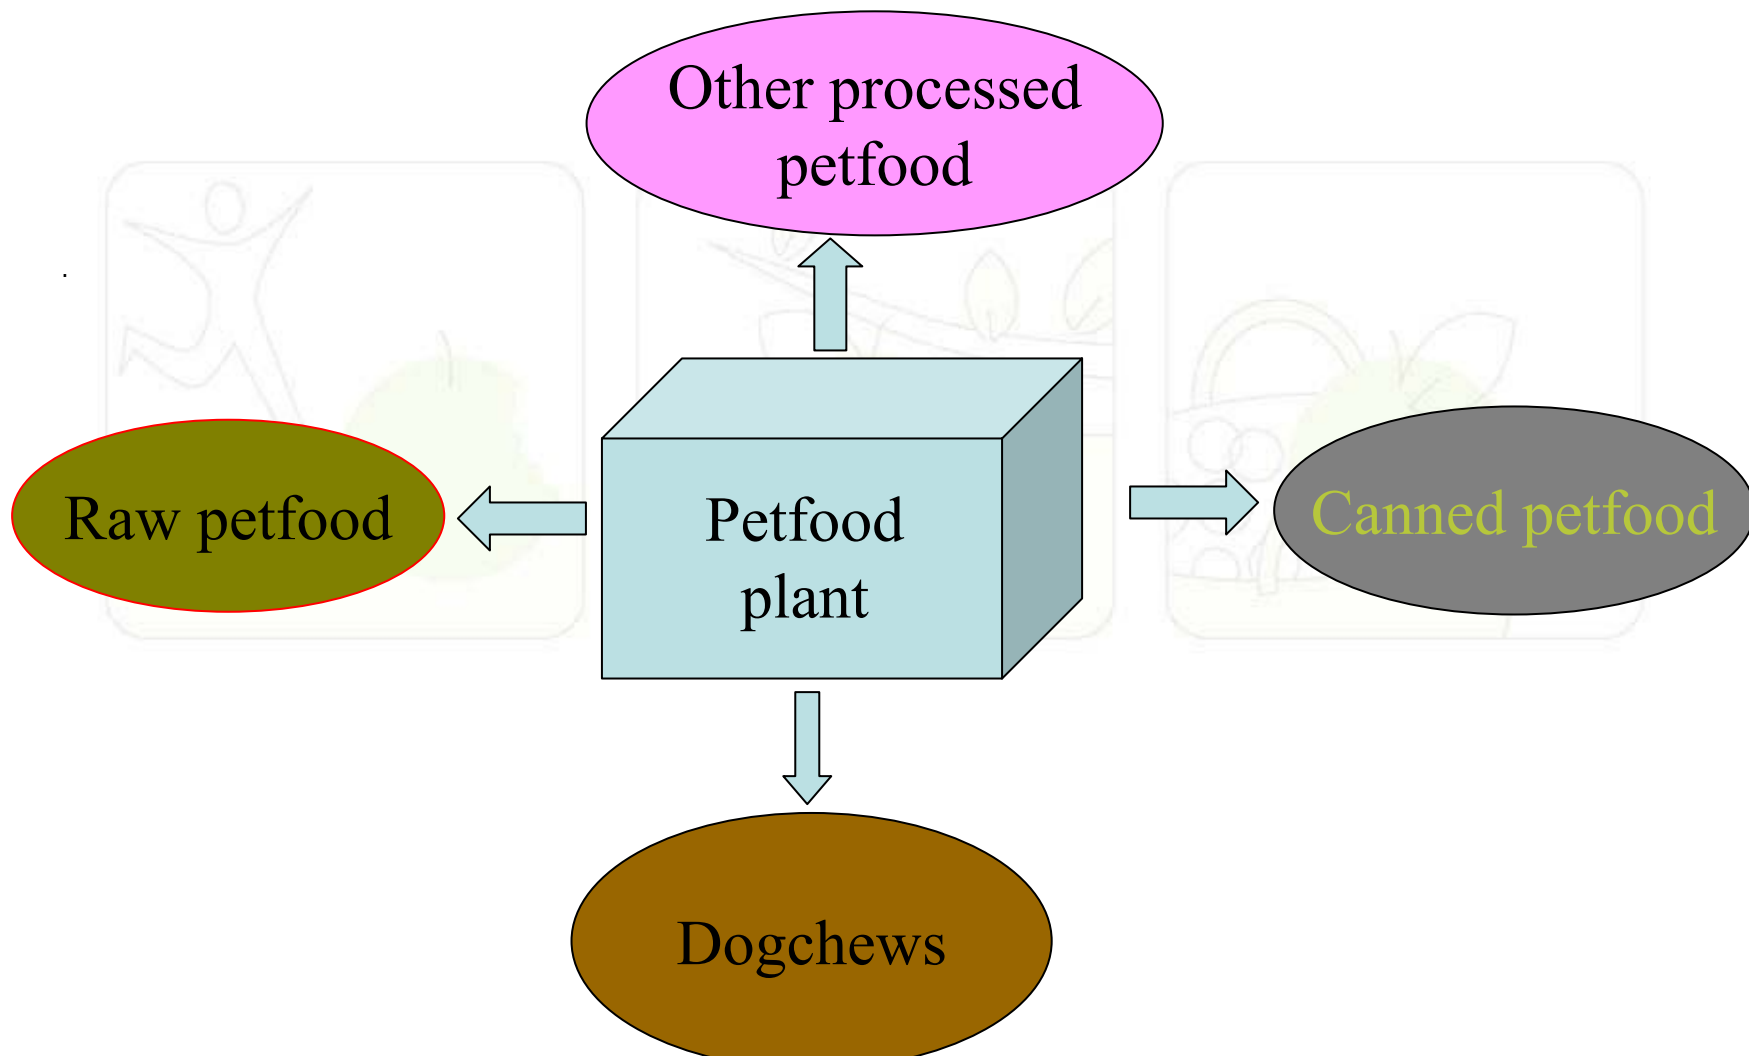

☐ Cat. 3 (Art. 17)

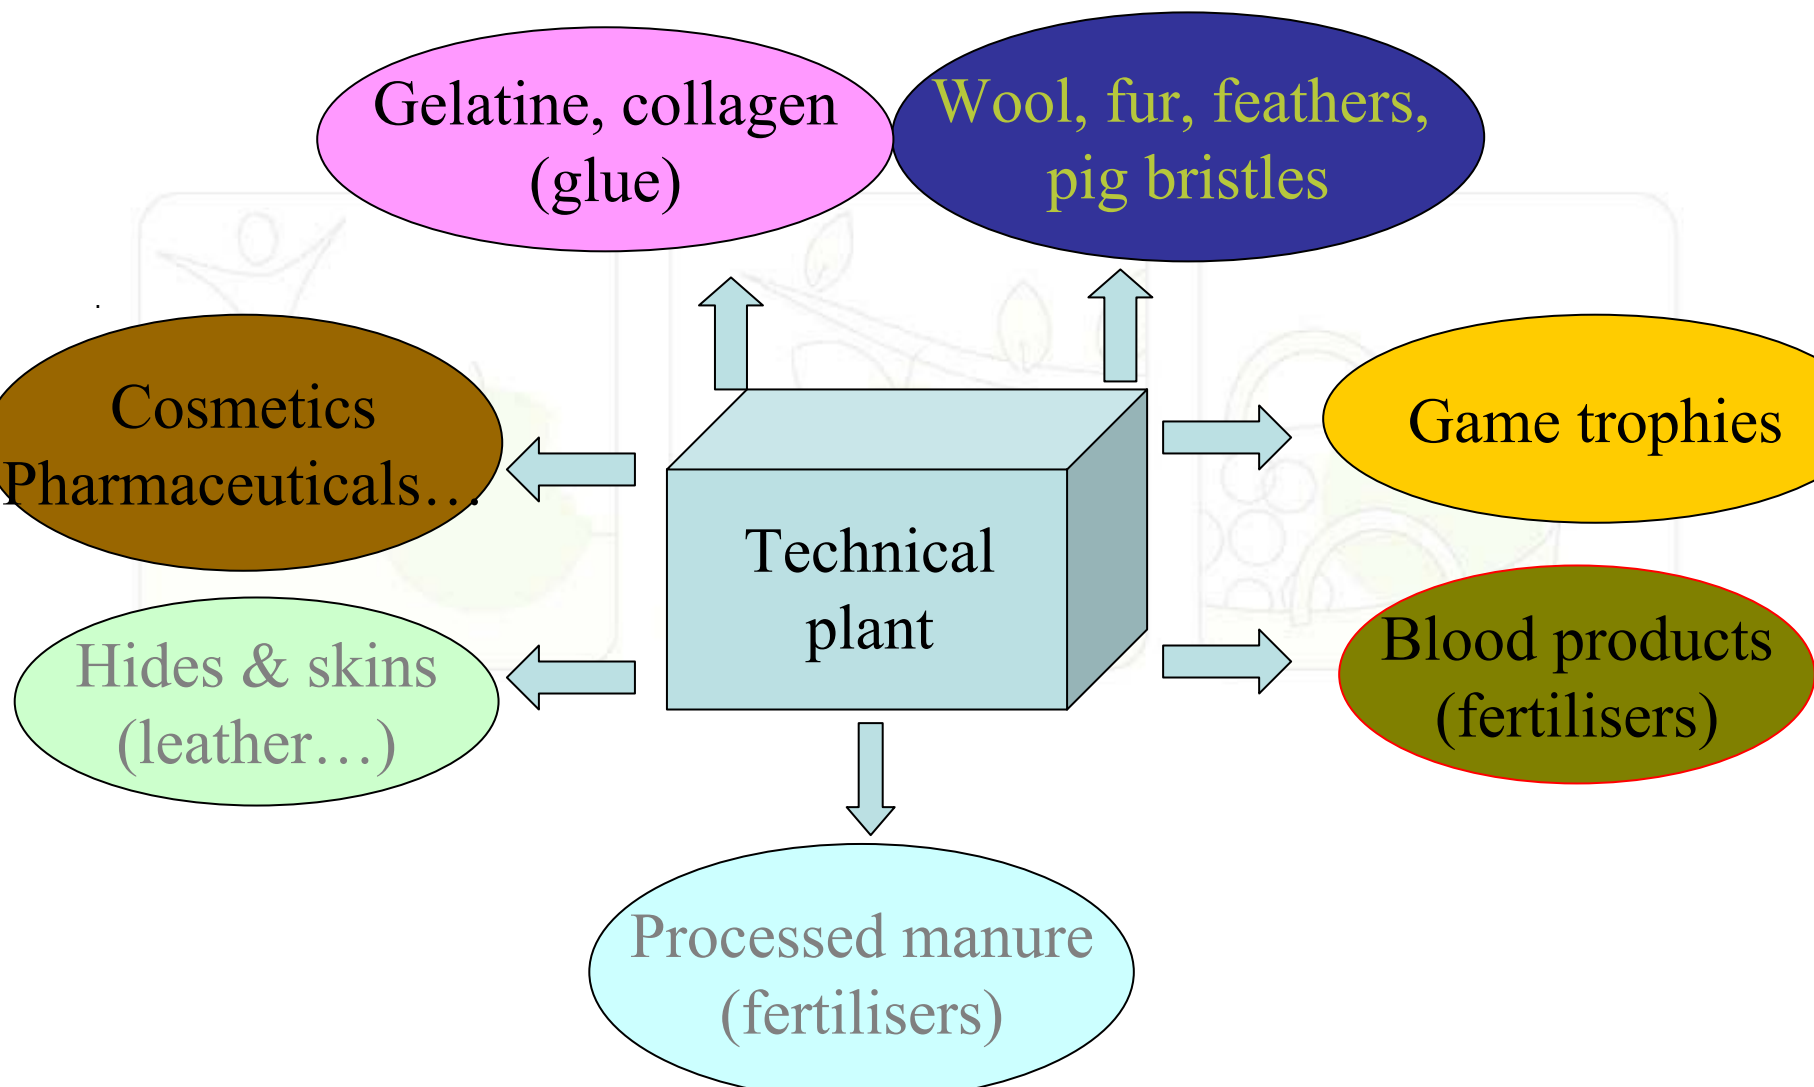

## □ Cat. 3 (Art. 18)

□ Cat. 3 (Art.-18)

# Approval of plants

- ❑ **Intermediate plants (Art. 10, Annex III)**
- ❑ **Storage plants (Art. 11, Annex III)**
- ❑ **(Co)-incineration plants (Art. 12, Annex IV)**
- ❑ **Processing plants for Cat. 1 & 2 (Art. 13, Annex V)**
- ❑ **Oleo-chemical plants Cat. 2 & 3 (Art. 14, Annex VI)**
- ❑ **Biogas and composting plants (Art. 15, Annex VI)**
- ❑ **Processing plants Cat. 3 (Art. 17, Annex V)**
- ❑ **Petfood and technical plants (Art. 18, Annex VIII)**

# Import, transit, trade, export

- ❑ **Import & export of Cat. 1 & 2 not allowed (Art. 4(4), 5(4))**
- ❑ **Placing on market and use of PAP and other processed products subject to compliance with the Regulation (Art. 16)**
- ❑ **Cat. 3 and products referred to in Annexes VII & VIII (Art. 19, 20, 29) allowed from –**
  - Third countries listed in Annex XI
  - Listed establishments (pending listing = equivalency, bilateral)
  - Health certificates (models in Annex X)
- ❑ **Equivalency (Art. 30)**

# Restrictions on use (Art. 22)

## ■ Prohibition

- Intra-species recycling (cannibalism)
- Feeding catering waste
- Spreading organic fertiliser and soil improver on pastureland

# Derogation on use (Art. 23)

- ❑ **Diagnostic, educational and research purposes**
- ❑ **Taxidermy purposes**
- ❑ **Local feeding practices for Cat. 2 (zoo, circus, reptiles, birds of prey, fur, wild animals, kennels/packs of hounds the meat of which is not destined for human consumption or feeding of farmed animals) (Annex IX)**
- ❑ **MS to notify the Commission of the uses of the derogation and verification arrangements in place. MS to draw up list of users and collection centres**

# Derogation on disposal (Art. 24)

## Burial of dead pet animals

## Burial or burning “on-site” of fallen stock (except TSE suspect or positive animals), Cat. 2 & 3 materials

Remote areas

Diseases outbreak

## MS to inform the Commission of derogated areas and reasons

# Control and inspections

## ❑ **Plants' own-checks (Art. 25)**

- Operator must put in place HACCP

## ❑ **Official controls and list of plants (Art. 26)**

- Frequent inspections & supervisions by CA
- List of approved plants, copy to other MS & the Commission

## ❑ **Community controls in Member States (Art. 27)**

- FVO to carry out on-the-spot checks
- Co-operation with national CA

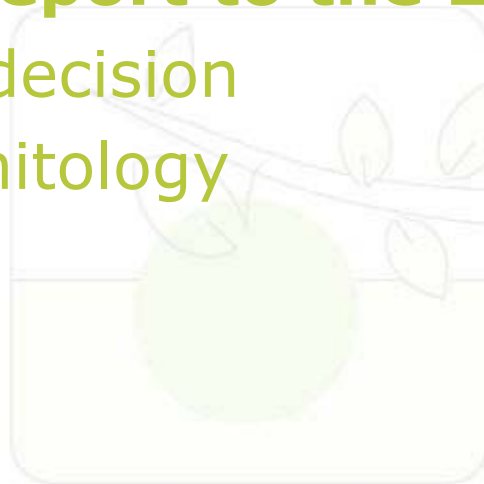

# Perspectives

## □ Commission report to the EP and Council

■ Co-decision

■ Comitology

# Thank U!
