

SCREENING CHAPTER 15 ENERGY

AGENDA ITEM: NEW AND RENEWABLE SOURCES OF ENERGY AND DEMAND MANAGEMENT – PART III

Intelligent Energy Europe

**Country Session: The Republic of TURKEY
14-15 June 2006**

Intelligent Energy Europe

- There are some activities under the IEE addressed by General Directorate of Electrical Power Resources Survey and Development Administration (EIE) such as:
 - increasing the awareness of general public, stakeholders and decision-makers through Energy Efficiency Week held annually,
 - penetrating energy efficiency concept through general public by focused TV-ads, booklets, etc.
 - arranging contest among students regarding energy efficiency idea,
 - holding university courses/lectures,
 - arranging contest among the industrial plants on project or plant bases on energy efficiency annually,

Intelligent Energy Europa (CONT'D)

- providing training programmes for energy managers of industrial and building sector,
 - giving support to local authorities to establish an energy management unit,
 - convening discussion meetings with private sector to help finding solutions for the problems perceived before renewable projects development.
-
- Participation to the programme will be considered in the future.
