

SCREENING CHAPTER 18 STATISTICS

PESTICIDES STATISTICS

**Country Session: The Republic of TURKEY
17-18 July 2006**

CONTENT

- Overview
- Future Plans

Overview

Pesticide use data are collected by MARA

Registered firms should declare their amount of production, import and export of plant protection products at active substance level annually to MARA (according to the Law No. 6968 on Plant Protection and Plant Quarantine)

Overview (cont'd)

Pesticide use statistics cover placing of the market of the products in detail of:

- Insecticides
- Fungicides
- Herbicides
- Other

The data have been published within the Summary of Agricultural Statistics since 2004

Future plans

- to collect data on pesticide use from agricultural holdings
- to improve existing pesticide statistics in collaboration with MARA
