

## **SCREENING CHAPTER 27 ENVIRONMENT**

### **AGENDA ITEM: CONVENTION ON LONG-RANGE TRANSBOUNDARY AIR POLLUTION**

**Country Session: The Republic of TURKEY  
29 May - 02 June 2006**

## OVERWIEV

Turkey ratified Convention on Long Range Transboundary Air Pollution in 1979 and the European Monitoring and Evaluation Programme Finance Protocol in 1984.

In extent of the European Monitoring and Evaluation Programme, only one measurement station was established and parameters measured by this station was sent to Norwegian Institute of Air Research, Chemical Coordination Centre for evaluation, by the Ministry of Health.

## Actions

- Technical studies are being carried out to meet the requirements specified in the related protocols convert into clean technology
- Use of new technologies and upgrading the fuel quality establishment of new treatment plants needs more financial resources.
